**CREATE CAMPUS SAFETY AND SECURITY SUB-COMMITTEE**

**Action Requested:** Consider approval of the request to create a Campus Safety and Security Sub-Committee of the Education and Student Affairs Committee.

**Executive Summary:** Campus safety and security is a responsibility that the Board of Regents takes very seriously. Campus safety and security reflects best practices for responding to sexual violence and harassment and reporting of on-campus crime. It includes required training to help identify and prevent sexual violence, harassment, and other misconduct as well as identifying and training institution staff responsible for enforcing and investigating alleged Title IX violations.

The purpose of the proposed Sub-Committee is to (1) monitor and review campus safety and security reports; and (2) monitor and review campus safety and security issues as they arise and as necessary. The membership of the proposed Sub-Committee will include a Chair, Vice Chair, and at least one representative from each of the universities and special schools whose functional responsibilities include campus safety and security. The Sub-Committee will meet at least twice a year and report to the Education and Student Affairs Committee.
