HIGHLIGHTED TECHNOLOGY TRANSFER PRESENTATION

The University of Iowa will highlight a project involving Dr. Mark Arnold, Professor of Chemistry. Dr. Arnold has formed a company, ASL Analytic, Inc. that is developing a non-invasive monitor for blood glucose. The University has used the Grow Iowa Values Fund to provide gap funding for this work. The company has subsequently received \$250,000 in financing and Dr. Arnold has received a \$1 million research award to continue the research.
