FY 2017 BUDGETS – UNIVERSITIES, IOWA PUBLIC RADIO, BOARD OFFICE

**Actions Requested:** Consider approval of the:

1. Regent university FY 2017 budgets as presented on pages 5-8 and in the attachments.
2. Iowa Public Radio FY 2017 budget as presented in Attachment D on page 27.
3. Board Office FY 2017 budget as shown in Attachment E on page 28.

**Executive Summary:** Consistent with the Board’s strategic plan to demonstrate public accountability and effective stewardship of resources, all institutional budgets are approved annually by the Board.

The Regent institutional budgets include two basic types of funds:

- **General operating funds** include operational appropriations, interest income, tuition and fee revenues, reimbursed indirect costs, and sales and services revenues. Some appropriations are designated for specific operating uses and cannot be used for other purposes.

- **Restricted funds** are specifically designated or restricted for a particular purpose or enterprise and include capital and tuition replacement appropriations, gifts, sponsored funding from federal and private sources, and athletics as well as other auxiliary or independent functions such as residence, parking, and utility systems.

This memorandum incorporates numerous aspects of budgets for the Regent Enterprise. There are separate attachments which include budget details specific to each university, Iowa Public Radio and the Board Office. While the residence systems and athletics are included as a part of the restricted budgets, individual budgets for these auxiliary units are contained in this memorandum.

The proposed FY 2017 Regent Enterprise consolidated budget exceeds $5.7 billion as summarized below. The table on page 8 includes the detailed budgeted revenues and expenditures from all funds for Iowa’s public universities and special schools.

**University Operating Budgets**

The primary revenue sources providing FY 2017 general operating funds for Iowa’s public universities are state appropriations and tuition revenues.

The 2016 General Assembly approved increases to the base funding for the universities that were significantly less than the amount requested. State operating funding for the three universities increased 1.24% ($6.3 million) when compared to FY 2016.

</table>
Last December, the Board approved the tuition rates for the 2016-17 academic year. In addition, Agenda Item 4 contains proposed increases to those rates and includes a $300 increase for resident undergraduate students. In addition to the tuition rates, enrollment fluctuations also impact tuition revenue and the subsequent demands for academic and student support services, which also directly impact the budget. In general, these revenues will be help support the recruitment and retention of quality faculty and additional student support services including advisors and supplemental instructors.

The following chart compares FY 2016 funding sources with the FY 2017 budget for each university. UNI is more reliant on state appropriations than tuition revenue for its general fund operations while SUI and ISU state funding levels are less than one-third of total general fund operating revenues. In total, the universities continue to be more reliant on tuition revenues and less on state appropriations and the variance continues to widen.

In addition to the General University budgets presented on pages 5 and 6 by expenditure type, the attachments contain an expense summary by the following functional classifications as defined by the National Association of College and University Business Officers (NACUBO). General fund expenses related to instruction, academic support, scholarships and fellowships, and plant operations and maintenance comprise approximately 83% of the combined general university expenses.

- Instruction
- Public Service
- Student Services
- Scholarships & Fellowships
- Research
- Academic Support
- Institutional Support
- Operation and Maintenance of Plant

Each university has several special purpose units that receive state funding for operations. Examples include the Hygienic Laboratory and the Iowa Flood Center at SUI, the Agriculture Experiment Station and Cooperative Extension at ISU, and Math and Science Collaborative and the Recycling and Reuse Center at UNI. Additional information regarding the FY 2017 special purpose unit budgets is provided in the attachments and all were flat-funded when compared to FY 2016.
Restricted Budgets

The university FY 2017 restricted fund budgets include capital funding approved by the General Assembly for the following projects.

- SUI – Pharmacy Building $23.0 million
- ISU - Biosciences Facilities $15.5 million
- ISU – Student Innovation Center $1.0 million
- UNI – Schindler Education Center $15.9 million

In addition, the university restricted fund budgets include an allocation of the $32.4 million tuition replacement appropriation to replace the tuition revenue pledged on Academic Building Revenue Bonds. The restricted budgets also include $3.0 million (allocated 35/35/30 among SUI, ISU and UNI) for the Regent Innovation Fund to support economic development projects. The universities will provide a one-to-one match of these funds for capacity-building infrastructure in areas related to technology commercialization, entrepreneurship and business growth.

Athletic Budgets

Each of the Regent universities hosts a multitude of intercollegiate athletic events that attract many alumni and friends to the campus each year. The athletic departments are independent entities included in the restricted fund budgets. The proposed FY 2017 athletic revenue budgets total $188.5 million. Details for each university’s athletic budget are included in the attachments.

Residence System Budgets

Residence systems, which include dining services, are self-supporting operations that do not receive state-appropriated funds for operations or capital improvements; they are included in the restricted fund budgets. Residence system FY 2016 revenue budgets total approximately $227 million for the three universities.

The Board received the FY 2017 residence system preliminary budgets as part of the residence system governance report presented in February. Each university has since updated their respective residence system budgets to reflect updated occupancy and expense projections. The residence systems are expected to house more than 23,500 students this fall. The proposed detailed budgets for each university residence system are provided in the attachments.
Special Schools

The Board approved the following FY 2017 budgets for the Iowa School for the Deaf (ISD), and the Iowa Braille and Sight Saving School (IBSSS) at its June 2016 meeting. The Iowa School for the Deaf and the Iowa Braille and Sight Saving School rely heavily on state funding for their operations. Each school’s base operating appropriation was increased 2.25% when compared to FY 2016 amounts.

Iowa Public Radio

In December 2004, the Board approved the creation of Iowa Public Radio, which includes a total of 23 radio stations at the University of Iowa (KSUI Radio Group), Iowa State University (WOI Radio Group), and the University of Northern Iowa (KUNI Radio Group).

In June 2013, the Board renewed the Public Service Operating Agreement between Iowa Public Radio and the Board of Regents. Under the operating agreement, Iowa Public Radio manages the operations of the Radio Groups on behalf of the Board of Regents and Universities consistent with FCC requirements for license control and serves as the primary fundraising entity.

For FY 2017, the General Assembly appropriated $391,568 (0% increase) for IPR operations. University support for IPR in FY 2017 remains flat when compared to FY 2016. The proposed FY 2017 budget is contained in Attachment D on page 27.

Salary Policies

The Board of Regents employs about 6,400 AFSCME-covered staff in blue collar, security, technical, clerical and education units at the five institutions. The statewide collective bargaining agreement with AFSCME provides an across-the-board increase of 2.25% on July 1, 2016, and an additional 1.25% increase on January 1, 2017. Eligible merit staff members (those not at the maximum of their pay grade) will continue to receive step increases of 4.5% at their next scheduled merit increase dates, until they reach the maximum of their pay scales.

At the Board's June meeting, the Regents approved by consent that salary policies for the institutions and Board Office, and the requisite pay matrices for non-organized professional and scientific staff and for faculty at the special schools, would be approved by the Executive Director upon consultation with Board of Regents leadership. The Board also approved the salary policy and pay matrix for the non-represented supervisory and confidential staff in the Regent Merit System.

</table>
The University of Iowa academic, administrative and shared governance leaders recently collaborated to create a new, value-based budgeting process. The goal was to establish a process that empowers unit leaders to prioritize funding in order to support their respective missions and to improve financial transparency. Four guiding principles were developed to assist in shaping the FY 2017 budget:

1) Student Success
   a. Increased retention and four-year graduation rates
   b. Creation and expansion of a high-impact and well-rounded student experience
   c. A campus-wide culture of diversity and active inclusion
   d. Increasing the value/return-on-investment of choosing our institution

2) Quality Indicators
   a. Increased attention to key AAU/Research indicators (i.e. academy memberships, citations/awards, federal and non-federal research grants)
   b. New and increased faculty/interdisciplinary collaborations
   c. Accenting the balance necessary between “an AAU aim” and success in our core values of teaching and student success
   d. Development and use of key performance indicators (for teaching, research, students)

3) Our Values
   a. Protection of and investment in existing areas of excellence and unique advantage
   b. Exploration of new areas that will shape and build a successful and sustainable UI future
   c. Disinvestment in other areas as necessary to enable success in areas of strength
   d. Collaboration and alignment of efforts, in order to be effective stewards of our resources, build the scale of our excellence, and add value

4) Our Future
   a. The creation of transformative societal impact
   b. True interdisciplinary collaboration, aligned to maximize our shared success
   c. The quality and strategic mix of student - the drive for life-long leaders and learners
   d. Exploration and celebration of risk-taking that enables short- and long-term excellence

SUI FY 2017 General University Operating Budget

Tuition revenues comprise 62.5% of the $736 million General University revenue budget with 31.5% coming from state appropriations. Projected changes in these revenue sources, as well as indirect cost recoveries and interest income, result in $30.9 million in incremental revenue; approximately 4.4% greater than the FY 2016 budget.

</tr>
</tbody>
</table>

The General University’s FY 2017 operating appropriation of $232.2 million is 0.6% greater ($1.3 million) than the FY 2016 state funding amount.
In December 2015, the Board approved a 3% increase ($200) to undergraduate resident tuition for 2016-17 to match the increase that was approved for ISU and UNI for the previous academic year. In addition, the Board approved 1.9% increase for nonresident undergraduates and for most graduate and professional students. (Agenda Item 4 proposes additional increases to the rates previously approved by the Board.) The University anticipates its largest freshman class ever in FY 2017 including a higher number of Iowa resident students and improved retention. Graduate student enrollment, which has declined in recent years, is projected to decrease again in FY 2017. In total, the University is projecting incremental tuition revenue $27.2 million when compared to the FY 2016 budget.

Current projections indicate indirect cost recoveries will increase $3 million in FY 2017 from a higher indirect cost rate and anticipated federal research activities. This increase is partially offset by an expected $400,000 decline in interest income.

Reallocating resources toward institutional priorities is a fundamental part of budget development. The collegiate and administrative units plan to internally reallocate/reprioritize $4 million within their budgets from to support strategic initiatives. Many of these reallocations support student success initiatives and competitive salary adjustments for faculty.

The FY 2017 General Fund budget allowed for $10.8 million of incremental dollars to support the University’s mission and provide breakthrough opportunities for students, faculty, and staff. Each budget unit petitioned for additional resources from the President’s Strategic Initiative Fund, a fund that was created to ensure the University’s highest priorities receive adequate funding.

The University implemented the terms of all collective bargaining agreements, the salary policies approved by the Executive Director, and charges fringe benefits consistent with federally approved rate structures. The General Education Fund portion of the bargained salary cost increases is estimated at $3.4 million. The cost increase includes annualization from the previous year and current year contract costs. In addition, average salary increases of approximately 2% for faculty and 1.6% for non-bargaining P&S staff are included in the budget.

In March 2016, the University completed negotiations with the federal government establishing the FY 2017 fringe benefit rates for each employee category. Annual changes in the approved rates are attributable to cumulative historic costs of covered benefits, salary changes, University driven cost saving measures, and employee utilization of benefits. For FY 2017, the benefit costs on the existing General Education Fund will increase $3.5 million.

The University expects utility costs to increase only by $0.3 million for FY 2017. These expenses include the General University’s share of renewal and improvement costs for expanded plant and distribution systems serving the campus, energy conservation investments, and general inflationary increases for supplies, services, fuel and purchased electricity.

The projected cost of custodial services, information technology, utilities and general maintenance for new or improved General University supported buildings for FY 2017 is expected to be $4.9 million. These buildings include the School of Music, Visual Arts, Hancher Auditorium and the Pappajohn Biomedical Discovery facility.

The $736 million General University budget allocated by function is shown below. Expenses related to instruction, academic support, scholarships and fellowships, and plant operations and maintenance comprise approximately 84% of all general university expenses.

SUI FY 2017 Special Purpose Appropriations

The proposed operating budgets for SUI’s special purpose units are provided on page 5. The consolidated special purpose budget ($6.0 million) includes Primary Health Care, State Cancer Registry, Online Advanced Placement Academy, Substance Abuse Consortium, Biocatalysis, Iowa Registry for Congenital and Inherited Disorders, Non-Profit Resource Center, Iowa Flood Center, Entrepreneurship Initiative and Economic Development.

The following chart lists SUI’s special purpose units that received state operating funding for FY 2017. All special purpose units were flat-funded (0% increase) when compared to FY 2016 and most of these appropriations continue to be approximately 20% less than FY 2009 amounts.

University of Iowa Hospitals and Clinics (UIHC)

The proposed FY 2017 UIHC budget of $1.34 billion is provided on page 5.

In FY 2017, the strategic focus for UIHC will continue to center on offering a broad spectrum of clinical services to all patients, serving as the primary teaching hospital for the state, and providing a base for innovative research to improve health care. The following three commitments are identified in the strategic plan and were key drivers in developing the FY 2017 operating budget.

1. Innovative Care
   - Care Delivery - UIHC will be recognized as a state and national leader in efficient health care delivery models that emphasize quality-driven patient experience.
   - Clinical Programs – Select UIHC clinical services will be leaders in the state and national market by offering cutting edge clinical services, robust clinical research and strong training opportunities.

2. Excellent Service
   - Patient Satisfaction – Patients and families will be highly satisfied with their entire UIHC experience in all settings.
   - Referring Physician Satisfaction – UIHC will be recognized by referring physicians for its efficient and effective support to their patients.
   - Staff, Faculty and Volunteer Engagement – Staff, faculty and volunteers are valued and engaged in the pursuit of UIHC’s vision.

3. Exceptional Outcomes
   - Safety – UIHC will provide a continuously improving, safe environment for all patients and staff at all times.
   - Clinical Outcomes – UIHC will use a continuous improvement process to achieve exceptional clinical outcomes.
Revenue challenges faced in FY 2016 include the privatization of the Medicaid program in April 2016. The State of Iowa moved substantially all of the Medicaid population to Managed Medicaid Organizations (MCOs). This is a significant change that affected 560,000 people covered by Medicaid and roughly 45,000 UIHC patients. These changes will require management of new administrative processes for the Medicaid MCO’s, including adjustments to authorization, credentialing and billing processes.

UIHC reports that the healthcare industry is experiencing ever-increasing challenges to maintain funding sources while keeping operating expenses manageable. Wage increases are impacted by collective bargaining agreements, market competitive salaries and the associated benefit costs. An average “all-in” salary increase of around 3.9% is projected for next year due to base salary increases consistent with contract negotiations and minimal changes in the fringe benefit pool rates. Medical and surgical supply costs are estimated to rise 2.2% or more due to price increases and changes in technology. Pharmaceutical cost increases are anticipated at approximately 7.5%.

Additional net revenues are required in FY 2017 to achieve the budgeted 3.5% operating margin. These additional net revenues will be achieved through new volumes and a 6% rate increase approved by the Board in April 2016. Market data indicate that UIHC continues to have lower rate adjustments when compared to academic medical center peers and other Midwest healthcare institutions. UIHC projects increasing demand for its services for FY 2017. Inpatient acute admissions are forecast to increase 3.8% with outpatient activity anticipated to grow 6%.

Other UIHC units include the Psychiatric Hospital, the Center for Disabilities and Development (CDD) and Specialized Child Health Services (SCHS). The proposed combined FY 2017 budget for these units is $36.5 million and they are provided on page 5.

SUI FY 2017 Restricted Fund Budget

The Restricted Fund includes the Organized Activities Fund, the Auxiliary Enterprise Fund, the Current Restricted Fund and the Plant Fund.

- Organized Activities Fund – includes medicine and dentistry practice plan funds, sports camps, conferences and institutes, mandatory fees (partial) and various publications and workshops
- Auxiliary Enterprise Fund – includes Athletics, University Housing & Dining, the Iowa Memorial Union, Student Health, Recreational Services, Hancher Auditorium, Parking and Transportation, Cambus and various smaller enterprises
- Current Restricted Fund – includes sponsored activities, predominately research and student financial aid funded from federal and non-federal sources
- Plant Fund – includes bond proceeds and capital project receipts

Revenues are derived from federal and non-federal support for sponsored programs, sales and services, reimbursed indirect costs, fees, bond proceeds, transfers from current unrestricted funds, tuition replacement and capital appropriations.

The proposed FY 2017 Restricted Fund Budget includes the following state appropriations:

- Pharmacy Building $23.00 million
- Tuition Replacement $16.03 million
- Innovation Fund $ 1.05 million
- Regent Study Centers $ 0.28 million
Athletics

The SUI Athletic Department is a self-sustaining auxiliary enterprise and receives no general university support. The University of Iowa’s $102.1 million FY 2017 athletic budget is provided on the following page. The overall revenue and expense budgets are approximately $5.4 million higher than FY 2016 estimates.

Sports income is budgeted to increase due to an expected increase in football season ticket sales and from a tiered pricing structure for individual game tickets. Also, wrestling income spiked in FY 2016 from a special event in Kinnick Stadium but is expected to return to traditional levels for FY 2017.

Other income is expected to increase from higher Learfield contractual revenues, more athletic conference revenue distributions, and additional foundation support.

Student fees reported in the athletic budget fund the debt service on Student Recreation Services facilities financed through Athletics and remain flat when compared to FY 2016.

The Athletic Department is responsible for paying the full cost of attendance for the scholarships it awards. SUI Athletics awards the equivalent of approximately 300 scholarships at a cost of approximately $12.7 million, which are included in the applicable sports expense lines. The scholarship amount also includes a cost of attendance stipend to scholarship athletes for academic supplies, transportation, and some personal costs as calculated by the financial aid office. The annual stipend amounts range from $2,392 to $3,570 and are budgeted at a total annual cost to Athletics of approximately $990,000.

Football expenses increased in FY 2016 from additional costs from post-season participation and are expected to remain at approximately the same level for FY 2017. Expenses for women’s sports are also budgeted to rise from additional scholarship expenses, salaries, travel, and equipment costs.

The Athletic Department purchases services from numerous entities within the University including, Public Safety, UIHC, parking, scholarships, utilities, university business services and residence services. The projected total FY 2017 cost to Athletics for these services is $21.5 million.

University Housing & Dining

The proposed FY 2017 residence system budget reflects a slight increase in net revenues compared to the preliminary budget received by the Board in February 2016 as part of the Residence System Governance Report. The net revenue increase is due primarily to higher room and board contract income from additional occupancy and from lower utility rates than earlier projected. Additional capacity to meet demand was added to the system from an additional leased property and increasing density in some residence halls.

Voluntary reserve balances at June 30, 2017 are projected to be $15.3 million, which is less than earlier projections resulting from an expected increase in capital project spending during FY 2016 and FY 2017.

FY 2017 BUDGETS – IOWA STATE UNIVERSITY

Iowa State University’s 2017-2022 strategic plan reinforces the University’s responsibility for student success, creating jobs and improving life for Iowans. Using the strategic plan as a foundation, the following priorities were established to guide the University’s investment of its resources during FY 2017.

- Enhance Access to the ISU Experience – This priority includes program enhancements that improve retention and graduation rates; decrease time-to-degree; faculty recruitment and retention in high-demand disciplines; expansion of health, wellness, and safety programs; alignment of academic support services with student needs; and solution development to meet student needs for housing, dining, recreation, health services, transportation and activities.

- Enhance Research Profile – The University is committing new internal funding to expand the research enterprise and promote scholarly work by recruiting faculty in in strategic research areas, building research programs through major federal grants, expanding programs that foster graduate student and post-doc recruitment and retention, and increased recruitment of prestigious faculty.

- Promote Economic Development – ISU is dedicated to promoting entrepreneurship and facilitating the formation of new businesses using ISU intellectual property; connecting faculty, staff and student resources with stakeholders to complement the State’s economic development efforts; and investing in the expansion of the ISU Research Park.

- Ensure a Welcoming, Inclusive and Safe Campus – This priority includes investment in initiatives that emphasize inclusion and diversity, enhanced collaboration with the City of Ames, student health and wellness, and support services that ensure a clean, safe and secure campus environment.

ISU utilizes a responsibility-centered approach to financial management to support its financial planning and budget development. The Resource Management Model provides revenue and growth incentives to units and rewards efficiency by attributing revenues and allocating costs to the major administrative units.

ISU FY 2017 General University Operating Budget

Tuition revenues comprise 67.6% of the $601.2 million General University revenue budget with 29.0% coming from state appropriations. Projected changes in these revenue sources as well as indirect cost recoveries and interest income result in $35.5 million in incremental revenue when compared to FY 2016.

</tr>
</tbody>
</table>

The General University’s FY 2017 operating appropriation of $184.4 million is 1.2% more ($2.2 million) than the FY 2016 state funding amount.
In December 2015, the Board froze tuition (0% increase) for FY 2017 for undergraduate resident students after previously approving (September 2015) an annualized $200 increase beginning with the Spring 2016 semester. A 3% increase for nonresident undergraduates and for graduate students was also approved last December. (Agenda Item 4 proposes additional increases to the rates previously approved by the Board.) The University expects another record year with Fall 2016 enrollment expected to be 36,500 students. The proposed tuition rates and the most recent enrollment projections are expected to generate an additional $33.8 million in gross tuition revenue when compared to FY 2016.

Reallocating resources toward institutional priorities is a continuing part of the financial planning and budget development process. Using a mix of new funding and reallocations of existing funds, the university will invest $49.2 million in the priorities provided below. The majority of these funding commitments were made to hire faculty and advising support, expand programs and services for international students, provide additional scholarships and financial aid, expand research, and recruit graduate students.

The University implemented the terms of all collective bargaining agreements and the salary policies approved by the Executive Director. The average performance based salary increase is 3.4% beginning in FY 2017. This follows two consecutive years of only a 1% increase. Approximately $12.4 million was committed to the General University’s salary base for the performance-based salary increases. Market, retention and promotional adjustments accounted for an additional $1.7 million allocation to the salary base. Employer costs associated with the insurance plans offered to faculty and P&S staff are performing well and are projected to remain flat in FY 2017.

Approximately $1.1 million was committed to implement the AFSCME contract for merit personnel, including supervisory and confidential employees. Other FY 2017 cost increases include the commitment of $0.6 million for incremental costs for property and liability insurance, city services, software licenses, and regulatory compliance.

The $637 million General University budget allocated by function is shown below. Expenses related to instruction, academic support, scholarships and fellowships, and plant operations and maintenance comprise approximately 83% of all general university expenses.

ISU FY 2017 Special Purpose Operating Budgets

The proposed budgets for the Agricultural Experiment Station and Cooperative Extension Services are provided on page 6. ISU’s consolidated special purpose budget ($8.4 million) on page 6 includes the Leopold Center, Livestock Disease Research, the Veterinary Diagnostic Lab, the Iowa Nutrient Research Center, and Economic Development.

The chart below lists ISU’s special purpose units that received state operating funding for FY 2017. All special purpose units were flat-funded (0% increase) when compared to FY 2016. With the exception of the Veterinary Diagnostic Laboratory and the Nutrient Research Center (established in FY 2014), funding for the remaining special purpose units range from 14%-20% less than FY 2009 amounts.

ISU FY 2017 Restricted Budget

The restricted funds budget represents activities that receive targeted appropriations for specific strategic initiatives including capital appropriations, and revenues and expenditures from university units and operations that do not receive direct state appropriations. Major restricted fund revenue categories include:

- Federal Support – receipts for sponsored programs and student financial aid
- Mandatory Student Fees – includes health, technology, student services, student activity, etc.
- Sales and Services – includes academic department service centers (Veterinary Teaching Hospital, Research Farms) and residual funds from workshops and conferences.
- Endowment Income – earnings distributed from the University’s endowment funds
- Auxiliary Enterprises – comprised primarily of Intercollegiate Athletics, University Bookstore, Department of Residence, Memorial Union, Parking Systems, Recreational Services, Student Health Center, Reiman Gardens, and the Iowa State Center
- Private Gifts, Grants and Contracts – includes nongovernmental sponsored programs from private industry, non-profit organizations, and individuals
- Plant Funds – includes bond proceeds and capital project funds

The proposed FY 2017 Restricted Fund Budget also includes the following state appropriations:

- Biosciences Facilities $15.50 million
- Tuition Replacement $12.83 million
- Innovation Fund $ 1.05 million
- Student Innovation Center $ 1.00 million
- Grape & Wine Institute/Nutrient Research $ 0.76 million
ISU Athletics

The ISU Athletic Department is a self-sustaining auxiliary enterprise and receives no general university support. The proposed FY 2017 athletic budget totals $72 million and is provided on the following page. FY 2017 ticket revenues are budgeted to decline from FY 2016 primarily from the away football game with the University of Iowa.

Transfers from the foundation are expected to increase in FY 2017 to offset expense increases including scholarships, facilities projects and coaching changes. The increase in foundation support is primarily from the Cyclone Club and the new South End Zone Club.

Other Revenue is expected to decline in FY 2017 largely from a nonrecurring athletic equipment sale held during FY 2016.

Salary costs for FY 2017 are approximately $1.3 million higher than FY 2016 due to staff salary increases in accordance with approved salary policies and contractual coaching obligations.

Football game guarantee expenses will increase in FY 2017 from the competition agreements with the University of Northern Iowa and San Jose State.

Administrative operational expenses exceeded the budget in FY 2016 from transitional costs related to football and men’s basketball staff. Administrative costs budgeted for FY 2017 are comparable to the original FY 2016 budget. FY 2016 estimated costs also includes contractual payments to the outgoing staffs (primarily football).

The Athletic Department is responsible for paying tuition on the scholarships it awards. ISU Athletics awards the equivalent of approximately 236 scholarships at a cost of $7.1 million as reflected in the budget. The scholarship amount also includes a cost of attendance stipend to scholarship athletes for academic supplies, transportation, and some personal costs as calculated by the financial aid office. The annual stipend amounts range from $2,430 to $2,903 and are budgeted at a total annual cost to Athletics of approximately $750,000.

The Athletic Department purchases services from numerous entities within the University including tuition and room board from scholarship payments, facilities, University services and utilities. The projected total cost to Athletics for these services is $20.8 million.

ISU Residence System

The proposed Residence System budget remains very similar to that presented to the Board at the February 2016 meeting and is provided below. Operating revenues and expenditures and have been updated to reflect the Department of Residence’s inclusion of the Memorial Union hotel space (71 beds) as student housing. Net operating revenues from the additional space after expenses to staff and furnish the space will be transferred to the Memorial Union resulting in a net zero impact to the Residence System’s budget.

During the FY 2017 budget development process, operational decisions were made with a strong focus on the University’s vision of being nationally known for innovative education, preparing students for success in a rapidly changing, globally competitive and culturally diverse world.

The University operating budget will support the following strategic goals:

- Be a leading undergraduate public university that provides a strong liberal arts foundation
- Provide rigorous and relevant graduate education that meets the needs of graduate students, the university, and the community
- Be a state and national leader in pre K-12 education
- Create and maintain an inclusive educational environment that prepares students to thrive in a diverse global environment
- Enhance the economic, social, cultural, and sustainable development of the state, and
- Ensure accountability, affordability and access.

To maintain a strong focus on university goals and priorities while maximizing the use of resources, the university is committed to active management in reducing costs, improving efficiencies, and actively pursuing enrollment strategies.

UNI FY 2017 General University Operating Budget

State appropriations comprise more than half (54%) of UNI’s proposed FY 2017 General University operating revenue budget with tuition revenue being 45% of budgeted revenues. Projected changes in these and other revenue sources results in total operating revenue that is $8.7 million more (5% increase) than the FY 2016 budget.

The General University’s FY 2017 operating appropriation of $97.1 million is 2.95% greater ($2.8 million) than the FY 2016 state funding amount. The budgeted revenue increase has enabled the University to submit a balanced budget without the reliance on one-time funding for the first time since FY 2009.

In December 2015, the Board froze tuition (0% increase) for FY 2017 for undergraduate resident students after previously approving (September 2015) an annualized $200 increase beginning with the Spring 2016 semester. A 3% increase for nonresident undergraduates and for all graduate students was also approved last December. (Agenda Item 4 proposes an additional $300 increase to all rates previously approved by the Board.) Enrollment is projected to be 12,039 students in Fall 2016, a slight increase over Fall 2015. The proposed rates coupled with the expected enrollment is expected generate $6.1 million in incremental revenue.

Interest income and other operating revenues are budgeted decline $0.2 million from FY 2016 levels.
The University implemented the terms of a voluntary agreement for a two-year contract with the organized faculty (UNI-United Faculty) that began July 1, 2015. The agreement provided for a wage increase of 2.5% on July 1, 2016.

Mandatory salary and related benefit increases from faculty and merit employee bargaining are included in the proposed FY 2017 budget. Salary expense budget preparation also included the salary policies for P&S staff as approved by the Executive Director. While the total salary and fringe cost increase is $4.5 million, the net change to personnel costs after reallocations were applied is $3.0 million.

The financial aid budget has increased 10.6% ($1.5 million) from the new Distinguished Scholar program and to meet the needs of a slightly higher enrollment. Utilities and other expenses are projected to increase $0.2 million when compared to FY 2016.

Enrollment management will be a top priority for FY 2017. Enrollment and related functions were reorganized within the Academic Affairs division and includes: Enrollment Management, Admissions, Registrar, and Financial Aid. Student Affairs is directing resources to elevate student life and development through programs and services that raise student success and retention and enhances programs focusing on diversity and inclusion.

The $180 million General University budget allocated by function is shown below. Expenses related to instruction, academic support, scholarships and fellowships, and plant operations and maintenance comprise approximately 75% of all general university expenses.

UNI FY 2017 Special Purpose Operating Budgets

UNI’s consolidated special purpose budget ($6.6 million) on page 6 includes the Iowa Mathematics and Science Education Partnership Program (IMSEP), Recycling and Reuse Center, Real Estate Education, and Economic Development. Funding for all special purpose units has remained flat since FY 2014.

UNI FY 2017 Restricted Budget

UNI’s restricted budget includes auxiliary enterprises, capital appropriations, and revenues and expenditures from university units and operations that do not receive direct state appropriations. Major auxiliary enterprise operations include the residence system, athletics, Maucker Union, Fieldhouse Operations (UNI-Dome/McLeod), Gallagher-Bluedorn Performing Arts Center, Wellness Recreation Center and the Student Health System.

The proposed FY 2017 Restricted Fund Budget includes the following state appropriations:

- Schindler Education Center $15.90 million
- Tuition Replacement $3.58 million
- Innovation Fund $0.90 million

UNI Athletics

The University of Northern Iowa’s FY 2017 athletic budget provided on the following page reflects revenue projections of $14 million.

Sports income is expected to grow in FY 2017 primarily from increased ticket sales/prices for football but are partially offset by an expected decline in men’s basketball ticket sales.

Since UNI Athletics does not receive substantial revenues from conference distributions and other sources, the General University does provide athletic support for scholarships and operations. The FY 2017 athletic budget includes $4.35 million in General University support (2.4% of the budget).

Alumni/Foundation support has increased when compared to the FY 2016 budget due to the successes of the Panther Scholarship Club, Rally in the Valley event, and other fundraising events.

Administration and General expenses for FY 2017 include the second of four annual $250,000 transfers to pay back a one-time supplement received from non-GEF sources to cover a shortfall in a previous year.

Scholarship costs of approximately $4.0 million for the equivalent of 189 scholarships are included in the applicable sports expense lines. The scholarship amount also includes a cost of attendance stipend for men’s basketball and women’s volleyball scholarship athletes for academic supplies, transportation and some personal costs as calculated by the financial aid office. The annual stipend amounts range from $2,000 to $2,400 at a total annual cost to Athletics of approximately $53,000.

Sports expenses are expected to increase when compared to FY 2016 budget. Football and men’s basketball expense projections higher for FY 2017 because of the inclusion of potential post-season travel expenses and higher coaching contractual payments.

The UNI athletic department purchases services that benefit numerous entities within the University. These include in part, tuition and room/board from scholarship payments, business services, public safety, marketing and utilities. Athletics is projected to provide $4.4 million in FY 2017 to these University entities for the services.

UNI Residence System

The Board received a preliminary FY 2017 residence system budget as a part of the governance report at its February 2016 meeting. All revenue and expense categories in the proposed budget have been adjusted slightly based on updated occupancy and cost projections. The debt service amount has been updated to reflect the actual amount which includes the bonds sold in February 2016 for the Lawther Hall renovation project.

FY 2017 BUDGET – IOWA PUBLIC RADIO

The FY 2017 budget supports the realignment of IPR based on the merger of the three stations in an effort to improve and expand service and outreach to Iowans. The proposed FY 2017 budget was approved by the Finance Committee of IPR’s Board of Directors on June 29, 2016 and will be considered for approval by the IPR Board at its meeting on July 14, 2016.

- University support for FY 2017 remains flat when compared to FY 2016.
- Budgeted increases in fundraising revenue from memberships and major gifts are partially offset by expected smaller decreases in major gifts and event revenue.
- Salary expenses are estimated to increase in FY 2017 primarily due to salary increases of approximately 2.5% for staff and the impact of the Department of Labor’s overtime rules that become effective on December 1, 2016.
- Professional service costs are expected to increase due to fundraising expenses associated with increased memberships, insurance and audience research.
- Generally, the remaining operating expenses are estimated to increase primarily from additional repairs and maintenance, postage costs for direct mail campaigns, and professional development.

The Board Office operating budget is supported mainly by state appropriations and institutional support. The proposed FY 2017 operating budget of the Board Office includes a funding cut of $300,000 in State appropriations and a reduction in Grant funds due to the expiration of one contract.

Reflecting the service nature of the Board Office, personnel costs are approximately 79% of the proposed budget.
