

Contact: Andrea Anania

ANNUAL SPAN OF CONTROL REPORT

Actions Requested:

- ▶ Receive the report;
- ▶ Approve the exclusion of departments with 28 or fewer FTEs from span of control calculations; and
- ▶ Approve submission of the report to the Governor and the Iowa General Assembly in accordance with Iowa Code §262.9C and Board Policy §2.1(3)(G).

Executive Summary: Span of control analysis is one consideration in determining the appropriate staff mix for each institution along with: (1) skills and expertise to perform the various forms of work required; (2) degree of oversight and regulation required in each context; (3) risk of errors; and (4) other considerations balancing efficiency with quality and effectiveness of the work.

Calculations to determine span of control ratios are based upon October 1 payrolls at the five institutions.

Employees involved with direct patient care, faculty, and employees in other areas of the institutions that must maintain different span of control ratios due to federal or state regulations were not included in calculation of the ratios.

The resulting analysis represents a comparison of numbers of merit exempt and professional staff at each institution that have administrative supervision as any portion of their overall job responsibilities as compared to the number of other employees with no supervisory responsibilities. This analysis is based upon headcount and does not measure the amount of effort spent by individuals to fulfill their supervisory responsibilities. Each institution has unique considerations, which impact individual calculations.

For consistency with other reports, the universities have defined “departments” as those entities identified in the institutional budgets. SUI requests exclusion of 330 departments (pages 3-10); ISU – 181 departments (pages 11-15); and UNI – 108 departments (pages 16-18). These departments are consistent with those previously excluded by the Board.

After applying the statutory criteria to October 1 payroll data, excluding faculty, direct patient care employees and departments with 28 or fewer FTEs, no departments at the special schools met the criteria for calculating span of control.

Ratios for the three universities for last five years are as follows:

	2013	2014	2015	2016	2017
University of Iowa	1 / 11.22	1 / 10.77	1 / 10.46	1 / 10.46	1 / 10.13
Iowa State University	1 / 14.90	1 / 15.30	1 / 15.10	1 / 14.85	1 / 14.61
University of Northern Iowa	1 / 13.82	1 / 13.61	1 / 15.47	1 / 15.36	1 / 14.91

Background: SF 2088 (the state reorganization bill) passed in the 2010 session of the General Assembly amended Chapter 262 of the Iowa Code to include a provision regarding span of control. The amendment, effective March 20, 2010, requires the Board develop and maintain a policy setting a target aggregate ratio of employees who perform supervision to all other employees at one to fifteen. See page two for complete text of Iowa Code §262.9C and Board of Regents Policy 2.1(3)(G).

The institutions continue to seek the most efficient and effective staffing mix to achieve and maintain excellence in fulfillment of their threefold mission of teaching, research, and service. They also continue to examine span of control as analysis is provided for other annual reports to the Board, including the Annual Human Resources Report.

Iowa Code – 262.9C Span of control policy.

1. The state board of regents shall develop and maintain a policy regarding the aggregate ratio of the number of employees per supervisory employee at each of the institutions under the control of the board subject to the requirements of this section.
2. The target span of control aggregate ratio of supervisory employees to other employees shall be one to fifteen. The target span of control ratio shall not apply to employees involved with direct patient care, faculty, and employees in other areas of the institutions that must maintain different span of control ratios due to federal or state regulations.
3. For the purposes of this section, “*supervisory employee*” means a public employee who is not a member of a collective bargaining unit and who has authority, in the interest of a public employer, to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other public employees, to direct such public employees, or to adjust the grievances of such public employees, or to effectively recommend any such action.
4. The policy shall allow departments within an institution under the control of the state board of regents with twenty-eight or fewer full-time equivalent employee positions to be granted an exception to the policy by the board. Departments applying for an exception shall file a statement of need with the applicable institutional human resources office and the office shall make a recommendation to the state board of regents.
5. The state board of regents shall present an interim report to the governor and general assembly on or before April 1, 2010, with annual updates detailing the effects of the policy on the composition of the workforce, cost savings, efficiencies, and outcomes. In addition, the report and annual updates shall identify those departments within each institution under the control of the board granted an exception by the board to the policy as provided in this section.

Board Policy Manual – Chapter 2

Operations

2.1 Human Resources

(3) Administration

G. Span of Control

As required by Iowa Code Subsection 262.9C, the target aggregate ratio of supervisory employees to other employees at institutions governed by the Board of Regents shall be one to fifteen.

Exempted from the target aggregate span of control ratio are employees involved with direct patient care, faculty and employees in other areas of the institutions that must maintain different span of control ratios due to federal or state regulations.

Departments within the Board of Regents enterprise with 28 or fewer full-time equivalent employees may also be granted an exception to this policy by specific approval of the Board of Regents. The request for an exception shall be brought forward by the institutional human resources offices as a recommendation to the Board.

On or before April 1 of each year, a report shall be filed with the Governor and the General Assembly detailing the effects of this policy on the composition of the workforce, cost savings, efficiencies and outcomes. The report shall also identify any department granted an exception by the Board to the policy. The report shall be compiled using payroll data as of October 1 of each year and shall be submitted to the Board for its approval prior to submission to the Governor and General Assembly.
