

Contact: Kristin Bauer Davis

ANNUAL SPAN OF CONTROL REPORT**Actions Requested:**

- ▶ Receive the report;
- ▶ Approve the exclusion of departments with 28 or fewer FTEs from span of control calculations; and
- ▶ Approve submission of the report to the Governor and the Iowa General Assembly in accordance with Iowa Code § 262.9C and Board Policy § 2.1.3.G.

Executive Summary: Iowa Code § 262.9C requires the Board of Regents to develop and maintain a policy regarding the aggregate ratio of the number of employees per supervisory employees at each university (span of control policy). Iowa Code establishes a target span of control ratio at one supervisory employee to every 15 employees. Departments with 28 or fewer full-time employees may be exempted from the span of control policy by the Board. The span of control policy is contained in Regent Policy Manual section [2.1.3.G](#).

Span of control analysis is one consideration in determining the appropriate staff mix for each institution along with: (1) skills and expertise to perform the various forms of work required; (2) degree of oversight and regulation required in each context; (3) risk of errors; and (4) other considerations balancing efficiency with quality and effectiveness of the work.

Calculations to determine span of control ratios are based upon October 1 payrolls at the three institutions.

Employees involved with direct patient care, faculty and employees in other areas of the institutions that must maintain different span of control ratios due to federal or state regulations were not included in calculation of the ratios.

The resulting analysis represents a comparison of numbers of merit exempt and professional staff at each institution that have administrative supervision as any portion of their overall job responsibilities as compared to the number of other employees with no supervisory responsibilities. This analysis is based upon headcount and does not measure the amount of effort spent by individuals to fulfill their supervisory responsibilities. Each institution has unique considerations, which impact individual calculations.

For consistency with other reports, the universities have defined departments as those entities identified in the institutional budgets. SUI requests exclusion of 348 departments (pages 2-9); ISU – 147 departments (pages 10-13); and UNI – 89 departments (pages 14-16). These departments are consistent with those previously excluded by the Board.

Ratios for the three universities for the last five years are as follows:

	2020	2021	2022	2023	2024
University of Iowa	1/9.10	1/9.18	1/8.68	1/9.16	1/9.00
Iowa State University	1/11.68	1/10.85	1/10.52	1/10.63	1/10.53
University of Northern Iowa	1/11.38	1/10.26	1/10.40	1/10.79	1/11.64
