UNIVERSITY STRATEGIC PLAN UPDATES

Action Requested: Recommend the Board approve updates to the strategic plans from Iowa State University, the University of Iowa and the University of Northern Iowa.

Background:

At its January 2025 meeting, the Board of Regents approved updates to its five-year strategic plan. The updates brought the plan into alignment with several changes in state law that had occurred since the plan was originally approved in February 2022.

At that time, the Board asked the universities to review their strategic plans and update them in accordance with the Board's plan and in recognition of mid-cycle reviews of progress and priorities.

The proposed updates reflect university leadership recommendations and are in alignment with the Board of Regents strategic plan and all current state and federal laws.
