

Contact: Diana Gonzalez

**2016 ANNUAL REPORT ON CAMPUS SAFETY AND SECURITY**

**Action Requested:** Receive the report.

**Executive Summary:** In accordance with Board of Regents Comprehensive Campus Safety and Security Policy (Chapter 4 of the Board's Policy Manual), the eighth annual report is presented to the Campus Safety and Security Subcommittee. The individual reports from the special schools are included as Attachments A and B. Crime statistics, by quarter, for calendar year 2016 for each of the universities are included as Attachments C through E.

In compliance with Board policy, the annual reports address the following topics: mass communications capabilities; threat assessment and management; physical security capabilities; and training of institutional personnel as well as staffing, safety and security goals, relationships with other law enforcement agencies and use of force/firearms. A summary of the reports follows.

**STAFFING**

The policy departments at the three universities are staffed with both state certified police officers and civilian employees.

	SUI	ISU	UNI
Sworn, state certified officers	43	37	18
Civilian security officers	21		
Civilian staff	0	11	
State certified dispatchers	9		5
Fire safety coordinator	1		
Emergency management coordinator	1		
Support staff	2		

- ◆ At the University of Iowa, part-time student employees assist with NITE RIDE, Citizens Policy Academy, dispatching, and records.
  - ⇒ In 2016, UIPD had two explosives detection canines. These canines are essential for pre-event screening and are used during home football games, basketball games, and special events, such as political and presidential visits.
- ◆ At Iowa State University, part-time student employees are used to provide support services related to building security, safety escorts, and dispatch.
  - ⇒ The College of Veterinary Medicine has a police lieutenant assigned on a full-time basis. Student community service officers provide security coverage for the building. A memorandum of understanding with the College of Veterinary Medicine clearly outlines the services and support provided by each entity. Feedback received from all involved indicates a deep appreciation for this added presence.

- ◆ At the University of Northern Iowa, dispatchers provide service 24 hours a day, seven days a week and include one student dispatcher in addition to the full-time staff.
  - ⇒ The department employs a parking manager and three full-time clerical staff for parking related business.
  - ⇒ Student employees assist with evening escorts, building openings and closings, campus patrol, and event management when necessary. They also assist with clerical duties and parking enforcement.

### **SAFETY AND SECURITY GOALS**

#### **University of Iowa**

- ◆ Continue implementation of the Access and Security Strategic plan, including the systematic installation of the AMAG access control system; DPS sections.
- ◆ Continue to foster relationships with the students and student groups through mutually benefitting programs.
- ◆ Conduct/participate in active shooter training with other area law enforcement agencies.
- ◆ Continue developing relationship with UI Risk Management and continue existing efforts to establish protocols for preventing/addressing identified risks, including:
  - ⇒ Participation in the Enterprise Risk Management committee.
  - ⇒ All hazard response and planning, including natural or manmade emergencies and public health threats.
  - ⇒ Driver screening.
  - ⇒ General safety protocols and requirements encompassing faculty, staff, students, visitors, and contractors.
- ◆ Continue the process of connecting advanced fire alarms panels to connect to DPS dispatch/emergency communications to facilitate a single point of emergency message transmission for internal building emergency communications.
- ◆ Continue participation on issues related to child abuse/minors on campus with selected SUI entities.
- ◆ Continue to train selected members of UI DPS in the National Incident Management System and, in particular, Incident Command System positions.
- ◆ Proactively seek new community policing related activities.
- ◆ New initiatives and milestones. In July 2016, the Department of Public Safety changed leadership. With that change, the department began implementing new initiatives. The department's philosophy is based on community policing with an emphasis on student involvement.
  - ⇒ In Fall 2016, UI DPS began hiring UI students to assist in the safety of the campus community. The student security officers provide security functions in the residence halls, museum, libraries and special events. DPS currently employs 50 students, with anticipated growth to 125 students.

- ⇒ DPS is in the early phases of developing a community policing program that identifies UI public safety officers to serve as liaisons to student organizations. Currently, the groups that are represented are: LNACC, APACC, LGBTQRC, Afro House, Fraternity and Sorority Life and Student Activities. Officers were also assigned residence halls to help support student and police positive interaction. This program will enable both parties to establish a relationship that supports meaningful communication and feedback.
- ⇒ Training: In September of 2016, all certified DPS officers attended a Fair and Impartial Policing Training program, which was developed by the [U.S. Department of Justice](#). This training emphasizes that even well-intentioned people have implicit biases that can influence their actions, that recognizing those biases is key in learning how to override them, and that policing based on biases can be unsafe, ineffective, and unjust. UI DPS sent two police officers to become certified trainers last spring, and those officers have helped to train our staff as well as officers at 100 other agencies in the surrounding area. This allows officers to relate better to students.
- ⇒ UI DPS expanded its outreach to students by implementing the RAVE GUARDIAN/Hawk Watch mobile application last fall. The free mobile app allows students to communicate with the UI DPS via text message, request a guardian to monitor their commute, and contact UI DPS directly with a panic button. Public Safety can also send notifications directly to students to help solve crimes or respond to safety concerns in a timely manner.
- ⇒ In August 2016, UI DPS expanded the NITE RIDE service to people of all genders and introduced a mobile application that allows students to schedule a ride from their cell phone. Beginning this semester, NITE RIDE began operating on an expanded schedule to better serve student's needs.
- ⇒ UI DPS is attending student-sponsored events and participating in intramurals.
- ⇒ UI DPS added a Public Information Officer to assist with media inquiries.

### **Iowa State University**

- ◆ Continue to collaborate with key university departments to review and modify, as necessary, the existing university-wide emergency plan.
- ◆ Provide in-service training to all personnel regarding response to sexual assault and domestic violence.
- ◆ Incorporate incident command system (ICS) principles in planning of and responding to all major crimes and events.
- ◆ Increase the number of doors controlled by electronic access systems, as well as the number of digital cameras utilized throughout campus.
- ◆ Continue to work closely with other state agencies and organizations to maximize threat management, patrol, criminal intelligence, unusual occurrence/emergency response, and investigative functions.
- ◆ Systematize and expand the delivery of crime prevention and cultural diversity information disseminated to faculty, staff, and students during orientation and in-service sessions.
- ◆ Ensure continued compliance with all applicable federally mandated requirements and national law enforcement accreditation standards.

### University of Northern Iowa

- ◆ Increase knowledge and ability of faculty, staff and students to respond to a violent incident by continuing to conduct Violent Incident Defense Strategy program for campus.
- ◆ Continue collaborative work with other departments to ensure that UNI is in compliance with the Clery Act, Title IX, and the Violence Against Women Act (VAWA).
- ◆ Implement an online Clery Campus Security Authority (CSA) training program. The new training program will describe who is a CSA, explain their responsibilities, and track the participants in the program.
- ◆ Continue professional development of officers with a goal of increasing instructor certifications. Maintain full staffing and incorporate more training to include instructor certifications.
- ◆ Assess equipment needs and life cycle replacement costs.
- ◆ Review training and processes for the Threat Assessment Team.

### **MASS COMMUNICATION CAPABILITIES**

#### University of Iowa

- ◆ The University of Iowa utilizes HAWK ALERT for the purpose of mass communication notification to UI faculty, staff and students. This system utilizes e-mail, text messaging and voice mail. The Hawk Alert System is used to notify the campus community of threats to physical safety in emergency situations (such as tornado, violence, hazardous material incident). Hawk Alert allows UI administrators to send recorded or electronic emergency messages (“Hawk Alerts”) to mobile phones, home phones, office phones, digital signage and e-mail (simultaneously). A Hawk Alert web page provides information to the UI community on registration and notification options and contains an extensive Q&A section.
- ◆ In addition to the departmental website, the UI Department of Public Safety (DPS) utilizes social networking websites to transmit safety related information. The Office of Strategic Communications has integrated Hawk Alert with the University of Iowa homepage to provide an Emergency Information site where updates about longer-term public safety incidents (floods, etc.) can be posted after an initial Hawk Alert is issued.<sup>1</sup> This site connects students, faculty, staff, patients, parents of students, and the general public to specific, pertinent information about continuity of operations, advisories and notifications, health and safety information, and additional information as it becomes available. The Office of Strategic Communications, in cooperation with Information Technology Services, Public Safety and other agencies as appropriate, maintains the UI Homepage and the Emergency Information site.
- ◆ UI utilizes an outdoor warning system consisting of five outdoor towers on the main campus and one tower located on the Oakdale campus. These towers are capable of emitting a severe weather warning siren as well as being used as a campus-wide public address system utilizing recorded and real time live voice messages. The University’s outdoor warning system is activated by UI DPS when other sirens located throughout Johnson County are activated during severe weather events. In addition, the University system can broadcast warnings for other weather and non-weather situations. Testing of the University outdoor warning system occurs on the first Wednesday of every month at 10:00 a.m. in conjunction with the testing of other sirens located in Johnson County; battery power is tested as well.

---

<sup>1</sup> The site is located at <http://e.uiowa.edu>.

- ◆ Tower locations:
  - ⇒ Main Campus
    - West of Parklawn Housing Building
    - NW of Banks Field
    - SE of Gilmore Hall
    - NE Corner of Melrose Avenue and Morman Trek Boulevard
    - SE of Boyd Law Building
  - ⇒ Oakdale Campus
    - SE of Multi-Tenant Facility
- ◆ Three activation points:
  - ⇒ Primary encoder (method by which message is transmitted) is located in the UIPD/DPS Communications Center.
  - ⇒ Mobile encoder is maintained in a “Pelican” case with AC & DC power sources.
  - ⇒ Portable encoder (Kenwood TK-3180 handheld radio)
  - ⇒ Note: All activation points are capable of transmitting siren tones and recorded or real time live voice messaging. Each individual siren tower has manual activation capabilities for siren tones and real time live voice messaging.
- ◆ UI can also use the Mass E-Mail System, which will transmit information using the University e-mail system to all faculty, staff, and student e-mail accounts.
- ◆ UI will continue to use news releases and direct media contact to provide information for students, parents, staff, faculty, and the general public. The Office of Strategic Communications also schedules press briefings at designated locations to apprise news media in person.
- ◆ If Internet communications are deemed ineffective, the Office of Strategic Communications contacts local news media directly to disseminate information.
- ◆ UI DPS and Facilities Management are moving toward using advanced fire alarm panels for interior building emergency communications that will be capable of being activated from a single point located in the DPS dispatch/emergency communications center.

### **Iowa State University**

- ◆ Blackboard Connect continues to be the electronic mass notification product used for ISU Alert. Key personnel within the university received training to activate this web-based system quickly. A multi-disciplinary committee continues to identify future needs and research additional available products. Three situations required the issuance of an emergency warning message to community members during the past calendar year. The alerts generated information that assisted in a quick, successful resolution.
- ◆ An outdoor warning system, consisting of five towers placed strategically throughout campus, provides the ability to issue real-time emergency notices to community members. Police dispatchers are able to activate on- and off-campus sirens when the need arises. Dispatchers conduct monthly testing, unless inclement weather is present or projected. To expedite the delivery of vital information, dispatchers use template messages relating to a variety of emergencies. They also test the voice-messaging component annually.

- ◆ An emergency alert homepage, designed to enhance communication capabilities, is available for activation should the need arise. The system overwrites the existing site in a manner that draws attention to the situation - the elimination of graphics speeds information access. Key personnel within the university received training to implement usage quickly. Procedures govern the posting all applicable archived messages to document incident progression.
- ◆ Social media has proven to be an effective means of reaching the public. Facebook and Twitter accounts were initiated during 2013 to positively interact with community members in a timely fashion. The department currently has approximately 9,267 likes on Facebook and 16,567 followers on Twitter. Both platforms have more than doubled in likes and followers from 2015. We have also received international exposure on several posts. These two applications provide timely, accurate, and useful information on a daily basis as well as during dynamic situations. Posts are linked to other agencies and departments to increase effectiveness. Very positive feedback has been received regarding the use of these outreach systems. The link below is an example of the attention our social media posts are receiving.<sup>2</sup>
- ◆ CodeRED®, a multi-platform emergency notification system, has been implemented for other jurisdictions within Story County. This product utilizes internet mapping capability for geographic targeting of calls, coupled with a high speed telephone system capable of delivering emergency messages at the rate of up to 60,000 calls per hour.

#### **University of Northern Iowa**

- ◆ UNI continues to use Connect-Ed for the purpose of mass communication notification to include e-mail, text messaging, and voice mail.
- ◆ The UNI-Alert information is on the UNI website and provides information to faculty, staff, and students about registration, as well as the notification process.
- ◆ The UNI-Alert system may be activated by either Public Safety or University Relations personnel.
- ◆ American Technology, Inc. continues to provide the campus outdoor voice notification system for UNI. Installation of this system was completed and testing of the system is conducted the first Wednesday of each month in coordination with Black Hawk County Emergency Management.
- ◆ There are seven strategic locations on campus where speakers have been installed to provide coverage for campus.
- ◆ Speakers provide siren and/or voice notification in the event of weather or other emergency incidents on campus.
- ◆ Speakers can be activated via dispatch or by remote location by UNI Police Mobile Command Unit.
- ◆ UNI continues the process of tying in the outdoor voice notification to the interior fire alarm voice notification systems. The tie-in was incorporated into the renovation of Schindler Education Center and will be incorporated in the renovation of Lawther Hall which is expected to be completed in August 2017. Sixteen major buildings have this enhanced notification system.

## THREAT ASSESSMENT AND MANAGEMENT

### University of Iowa

- ◆ UI utilizes the Behavior Risk Management (BRM) Protocol. The BRM is an attempt to respond with a planned comprehensive approach to the continuum of behaviors that could lead to hostility and violence in the workplace. Although it is difficult to "predict" violent or hostile behavior, there are methods to determine the risk components of a situation. BRM takes a clinical as well as consultative approach. The Behavior Risk Management Protocol is a planned, comprehensive, multidisciplinary response to workplace hostility and violence. The purpose is to ensure a safe and civil workplace for all SUI employees by addressing any related individual or environmental issues that may contribute to hostility, violence or physical danger on the job.
- ◆ While the BRM protocol addresses faculty and staff, the threat assessment protocol creates an integrated and coordinated process for identifying and responding to students, faculty, staff, or other University affiliates who may be at risk of harming themselves or others. The system responds effectively with all parties who may be involved with the concerning situation. The overall goal is to mitigate or eliminate any known threats as well as connect affected persons with appropriate resources.
- ◆ UI established a Threat Assessment Team (TAT) in response to violent incidents occurring on college campuses across the nation. TAT includes representatives from Human Resources, Student Services, Counseling, General Counsel and the University of Iowa Police. TAT works in conjunction with the Faculty and Staff Services/Employee Assistance Program, University Housing and Dining Services, the Office of the Dean of Students, and coordinates activities involving multiple stakeholders within the University of Iowa community. Additionally, TAT works closely with area law enforcement agencies.
- ◆ Emergency management.
  - ⇒ The University of Iowa's Emergency Management Coordinator (UIEMC) was established in 2013. The coordinator assists in planning, implementation, and evaluation of emergency preparedness exercises and drills to test the university's response to a variety of crisis situations as well as coordinate related training for appropriate members of the campus community. The UIEMC assists in activation and coordination of the University's Incident Command Center (ICC) during weather related disasters as well as other local emergencies involving hazardous materials, health related emergencies, threats of violence and other protracted events having campus wide impact.
  - ⇒ The UIEMC conducts table-top emergency exercises on each campus to comply with CLERY requirements and to test the various critical incident and emergency plans.

### Iowa State University

- ◆ The department has effectively utilized a Threat Assessment and Management System (TAMS) for more than 20 years. The process identifies individuals of concern, investigates people and situations that have come to the attention of others, and assesses the information gathered. If necessary, individuals and situations are managed to reduce any potential threat.

- ◆ Targeted violence is the product of an interaction among four factors: the individual who may take violent action; the target of any intentional violence; the environment that facilitates or permits violence, or does not discourage it; and the triggering conditions that lead the individual to accept violence as an option.
- ◆ The threat assessment and management process includes: 1) identifying, in a timely manner, individuals who are at risk; 2) reporting information in a centralized fashion to law enforcement officials; 3) conducting an initial threat assessment; 4) reviewing situations with the Critical Incident Response Team (CIRT) when established severity and/or complexity criteria have been met; 5) implementing a specially designed response plan; 6) monitoring and re-evaluating the plan to effect safety; and 7) referring and following up as appropriate.
- ◆ Assessment guidelines include: 1) considering multiple behavioral and contextual dynamics; 2) avoiding reliance upon single factors; 3) utilizing multiple collateral data sources, whenever possible; 4) assessing the impact of investigative processes; 5) using information that is fact-based and specific to the incident; 6) concentrating on exhibited behavior rather than on perceived traits; 7) focusing on understanding the context; 8) examining the progression of behavior over a period of time; and 9) emphasizing prevention rather than prediction.
- ◆ The department continues to partner with other key institutional entities in threat management issues, including the Dean of Students Office; Thielen Student Health Center; University Human Resources; Department of Residence; Office of Equal Opportunity; Senior Vice President and Provost; Student Counseling Services; and Office of University Counsel.
- ◆ The department continues to participate in the multi-disciplinary Student Assistance and Follow-Up Evaluation (SAFE) Team, as well as the Faculty and Staff Safety Team (FASST). These groups meet weekly, or more often as needed, to share/assess information and respond to potentially dangerous situations.
- ◆ An admissions review committee meets as needed to assess applications of prospective and/or returning students who have a history of behavioral issues. The main focus of the group is to evaluate any potential threat an individual may pose, and determine any additional need for monitoring, if accepted.
- ◆ The Deputy Chief of Investigative and Threat Management, who possesses a wealth of experience and specialized training in this area, coordinates the assessment and management process. A second investigator assists with staffing this important function.
- ◆ During the past calendar year, officers conducted 248 welfare checks and responded to 878 incidents involving suspicious people and/or activity. This is a 17% increase from the previous year.

### **University of Northern Iowa**

- ◆ UNI Department of Public Safety (DPS) continues to partner with other campus departments to ensure cooperation across various administrative areas of the university concerning issues which pose a potential threat or concern.
  - ⇒ UNI Department of Public Safety (DPS) continues to participate with the Student Intervention Team. The Team formerly met twice a month, but due to an increase in the number of students in crisis during the Fall semester, the team decided to institute a weekly meeting.
  - ⇒ The DPR Director serves as the chair of the Threat Assessment Team and receives and responds to individuals of concern and meets on a weekly basis.

- ⇒ A Case Management Team is in place to address issues relating to employee concerns.
- ⇒ DPS is a member of the Bias Reporting Team whose purpose is to coordinate a university response to bias-related incidents on campus.
- ⇒ The DPS Director sits on the Enterprise Risk Management Council.
- ◆ The Safety at UNI web page<sup>3</sup> provides a director of emergency phone numbers as well as a list of available services for counseling, personal and campus safety and health resources, including reporting forms for a variety of abusive incidents.
- ◆ UNI Public Safety continues to present the Violent Incident Defense Strategies for the campus. This program is designed to help individuals increase their decision-making ability and chances of survival during an active shooter or violent event. Multiple sessions were available for faculty, staff and students, and a web link for the class was created so that campus member could sign up online. In 2016, the program was presented to 313 university members.

### **RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES**

#### **University of Iowa**

- ◆ UI DPS has a long standing mutual aid agreement with the Iowa City PD, Coralville PD, Johnson County Sheriff's Office and North Liberty PD which allows for the exchange of law enforcement resources (personnel and equipment) as needed. The UI Police division is a member of the Johnson County Drug Task Force, Sexual Assault Investigators Team, Sexual Assault Response Team and the Johnson County Metro Bomb Squad. UI Police works closely with all divisions of the State of Iowa Department of Public Safety as well as federal law enforcement agencies. UIPD is a member of the Law Enforcement Intelligence Network as well as a member of the FBI's Joint Counter Terrorism Task Force. This allows for the mutually beneficial exchange of law enforcement resources as needed. It is important to note that these collaborations result in investigations/operations that can occur in various locations within the state, not simply on University properties or properties immediately adjacent to the SUI campus.
- ◆ Radio interoperability for all emergency services in Johnson County exists with the establishment of the Johnson County Joint Emergency Communications Center (JECC). The system includes the University of Iowa Police, Iowa City Police, Johnson County Sheriff's Office, Coralville Police, North Liberty Police, University Heights Police, Iowa City Fire, Coralville Fire and the Johnson County Ambulance Service as well as other Johnson County fire departments. The new radio system allows all Johnson County emergency services to communicate with one another. The University of Iowa Police dispatch/emergency communications center serves as a backup Public Safety Answering Point for the JECC. Additionally, Johnson County law enforcement agencies share the same records management system allowing agencies to share pertinent information electronically.
- ◆ Agency heads from UIPD, ICPD, Coralville PD, Johnson County Sheriff's Office, North Liberty PD, and the Johnson County Attorney meet monthly to discuss shared interests and concerns.
- ◆ All Johnson County law enforcement agencies participate in annual mandatory police training.

---

<sup>3</sup> [www.uni.edu/safety/](http://www.uni.edu/safety/)

**Iowa State University**

- ◆ The department entered into a mutual aid agreement with the Ames Police Department and the Story County Sheriff's Office in 1997. This intergovernmental agreement provides for the immediate exchange of law enforcement resources.
- ◆ In 1991, the department entered into an intergovernmental agreement that established a regional drug task force. The group has been in existence since that time and has proven to be an effective vehicle in reducing the flow of illegal controlled substances to campus.
- ◆ In 2013, the department established a formal agreement with the City of Ames to define the delivery of law enforcement services to organized living areas that the Department of Residence (DoR) leases.
- ◆ Officers continue to work collaboratively with other agencies before, during, and after hosting major special events, including athletic contests; political rallies; student celebrations; jointly-sponsored conferences; career fairs; and highly controversial presentations. Entities involved typically include Iowa State Patrol; Ames Police Department; Story County Sheriff's Office; United States Secret Service; Iowa Division of Criminal Investigation; State Fair Marshal's Office; Federal Bureau of Investigation; and contracted private security firms.
- ◆ All law enforcement agencies within the county utilize an 800 MHz radio system that facilitates interoperability during emergencies, special events, and daily operations. Due to the future obsolescence of the current system, the department is beginning to explore new radio systems.
- ◆ The Ames Police Department, Story County Sheriff's Office, and ISU Police Department share jointly purchased and managed Computer-Aided Dispatch (CAD) and Records Management System (RMS) software. The three communications centers are linked through fiber and T-1 lines to ensure information availability and system redundancy.

**University of Northern Iowa**

- ◆ UNI Police meet with Cedar Falls Police to discuss active cases and problems within and around the campus.
- ◆ UNI Police meet with local, county and state law enforcement agencies to discuss various crimes and investigative efforts within the communities.
- ◆ The Director of Public Safety is a Board member of the Tri-County Drug Task Force which meets monthly to discuss drug-related cases and issues in Black Hawk and surrounding counties.
- ◆ UNI Police and the City of Cedar Falls Police Division work closely during major events on campus. The department has partnered with Cedar Falls Police, Black Hawk County Sheriff's Department, Iowa State Patrol, and Secret Service for enforcement during large events on campus as well as off campus.
- ◆ UNI Police continues to have a presence on the Gang Task Force, which includes all area law enforcement agencies. The team was formed to review and inform all agencies of activity and concerns within the communities.
- ◆ UNI is a member of the Midwest Organized Crime Information Center which provides intelligence information on various crimes which are reported and intelligence information disseminated to area law enforcement agencies.

- ◆ In 2016, the UNI Chief of Police/Director of Public Safety gave a Clery Act presentation to the Cedar Falls Police Department and the Black Hawk County Attorney's Office.
- ◆ UNI worked with various local, state, and federal law enforcement agencies in planning and operations of several high profile events on the UNI campus.

### **PHYSICAL SECURITY CAPABILITIES**

#### **University of Iowa**

- ◆ The UI Department of Public Safety (DPS) has hundreds of cameras feeding into the dispatch and emergency communications center, including cameras covering high security areas, residence halls, and cameras connected to several campus Code Blue emergency phones. Digital video recorders are used to record information for post event investigations if necessary. Additionally, some areas have local motion and intrusion alarms which will alert our dispatchers.
- ◆ All residence halls are using cameras in conjunction with "Prox Card" access at entrances. These halls have cameras at exterior doors and all first floor access points to student living spaces (elevators, stairwells, hallway doors).
- ◆ All residence hall fire alarm panels are connected to DPS dispatch/emergency communications.
- ◆ The DPS Security Division uses a "Time Keeping" security tour system in all residence halls and additional leased properties used by University Housing. The system tracks DPS Security Officer routes and activities and provides detailed electronic reports.
- ◆ UI Facilities Management houses master keys; issues keys and proximity cards; along with assistance from DPS, grants access rights based on departmental requirements; maintains a university-wide key inventory database of key information and services lock systems. Many exterior and interior doors that have a locking function utilize traditional mechanical keys. Electronic access controls are installed in several buildings and are connected to numerous interior and exterior doors. Some of these locations utilize the SUI Identification card and magnetic swipe readers; other electronic access-controlled locations utilize Facilities Management-issued proximity cards and proximity readers. Some administrative units have taken on responsibilities for programming user access, while others continue to place a high reliance on Facilities Management for access control services.
- ◆ Led by Facilities Management, the University of Iowa is in the process of replacing the current Marlok standard with a control system capable of meeting current and future institutional needs for card access, security, distributed control, and integration with building systems controls and institutional information technology databases. The University selected AMAG software/firmware and Security Equipment Inc. as the AMAG integrator/reseller for the programs and components.
- ◆ The critical importance of safeguarding university assets has highlighted the need to integrate "building access" and "building security." The challenge is to provide appropriate control and security for all major buildings without unduly compromising convenience and the campus culture of openness. To help guide the process, the University has convened an Access and Security Steering Committee that has developed a University of Iowa Access and Security Strategic Plan to address security and access control for new and existing buildings. The committee includes members from Facilities Management, Office of the Provost, Information Technology Services, Public Safety, Student Services and Research Administration.

The areas of concern that are reviewed by the committee and various sub-committees are as follow:

- ⇒ Central Control Technology (AMAG)
- ⇒ Security Assessment, Process, and Priority
- ⇒ Design and Installation Standards
- ⇒ Key and Card Issuance
- ⇒ Access Cards
- ⇒ Integrated Databases
- ⇒ Security Monitoring, Analytics
- ⇒ Service and Support Model
- ⇒ Financial Support Model
- ⇒ Administration Policy on Card Access and Security

### **Iowa State University**

- ◆ The university extensively utilizes electronic access control systems to enhance security. This security related technology is incorporated into all new construction on campus.
- ◆ More than 700 cameras have been installed in public areas throughout campus buildings; these have proven to be effective tools for deterrence and identification.
- ◆ The Ames Intermodal Facility installed fiber communication lines to accommodate the use of electronic access control for doors and the transmission of fire alarm data.
- ◆ The department monitors more than 4,000 fire, security, and environmental systems alarm points; appropriate resources are dispatched as necessary.
- ◆ Community service officers perform a variety of important security duties, including patrolling buildings; inspecting emergency telephones for operational effectiveness; providing SafeRide services; reporting suspicious activity and defective equipment; and assisting with special event staffing.

### **University of Northern Iowa**

- ◆ UNI continues to improve the physical security of its buildings by adding electronic locks to newly refurbished buildings to allow remote locking of facilities. Enhancements to the system software were implemented. In addition, electronic access was implemented for laboratories in the McCollum Science Lab, creating more responsive and accurate accessibility to the laboratory spaces.
- ◆ There are 13 blue light phones on campus which connect directly to UNI Police in the event of an emergency. The phones are checked on a weekly basis to ensure operability.
- ◆ In Summer 2016, the Iowa Department of Homeland Security (DHS) contacted UNI staff from the Department of Public Safety and the Athletic Department and offered to conduct a security audit of a few facilities of UNI's choosing. In November, Iowa DHS personnel conducted several facility security audits, including the UNI-Dome, McLeod Center, and Maucker Union. Prior to the 2016 security audit, the Iowa DHS met with UNI representatives in August 2015 to conduct a walk through audit of the UNI-Dome and McLeod facilities and interviews with facility staff. In 2015, UNI worked with Iowa DHA on security audits and successfully implemented some of the resulting recommendations. Iowa DHS will provide a report on the 2016 security audit to the university when it is completed.

- ◆ The majority of surveillance cameras currently on campus are on a secured network and are accessible by Public Safety.

### TRAINING OF INSTITUTIONAL PERSONNEL

#### University of Iowa

- ◆ The University of Iowa Police Community Outreach Officer, the Fire Safety Coordinator, and other DPS employees present safety related educational offerings, including the following:
  - ⇒ Rape Aggression Defense program (R.A.D)
  - ⇒ Violent Incident Survival Training (V.I.S.T.)
  - ⇒ Personal Safety and Self-Protection
  - ⇒ Disruptive Persons
  - ⇒ Alcohol Awareness
  - ⇒ Crime Prevention Education utilizing social media
  - ⇒ Annual parent/student orientation presentations
  - ⇒ Resident Assistant's Fire Academy
  - ⇒ General fire safety in laboratories and other areas
  - ⇒ Use of portable fire extinguishers
- ◆ UIPD utilizes mass e-mails to provide safety related information.
- ◆ The UI DPS website is also used to disseminate safety related information as well as provide information to the SUI community (<http://police.uiowa.edu/>)
- ◆ The V.I.S.T. (**Violent Incident Survival Training**) program is a comprehensive approach, advocating integrated strategies incorporating Environmental Design, Technology and Communication, Law Enforcement Response, and action by those in immediate danger. The response options that are taught specialize in preparing schools, universities, churches, hospitals, and workplaces in how to respond to a violent attack on large numbers of people and increase the odds of survival. V.I.S.T. teaches individuals proven techniques and provides them with several options that are effective in avoiding, escaping and, if necessary, protecting intended victims from active shooters. UIPD has five police officers trained as instructors in V.I.S.T. who present a two hour training component for faculty, staff, students and visitors. Since inception, V.I.S.T. instructors have trained 6,123 faculty, staff, students and visitors. All police officers are trained in V.I.S.T.

#### Iowa State University

- ◆ Police personnel provide an overview of key safety-related issues and services to all incoming students and their parents during orientation sessions held throughout the month of June, as well as at Destination Iowa State.
- ◆ Sworn officers provided 291 prevention and outreach programs during the past year to faculty, staff, and students; instruction was provided to 29,055 people. Topics addressed included workplace violence; personal safety; alcohol laws; sexual assault awareness; bystander intervention; identity theft protection; domestic and relationship violence; social media safety; and threat management processes.

- ◆ The Annual Security Report (ASR), "*Safety & You*" is electronically mailed to all faculty, staff, and students in September. This document may be viewed on the departmental web site; individuals may also request a printed copy. The department provides safety and security information as required by the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.
- ◆ Officers continue to annually train Department of Residence (DoR) staff, international students, and Cyclone Aides regarding safety-related services. These sessions are conducted by the department as part of the respective orientation programs.
- ◆ The department provided training to all judicial affairs board members regarding legal aspects of the criminal justice system. The instruction outlined levels to conviction, burden of proof, victimology, and criminal/civil process interaction.
- ◆ Officers conducted training across campus with regard to identifying and dealing with people who threaten or exhibit concerning behavior.
- ◆ Six officers have received specialized instruction in the delivery of Violent Incident Response Training (VIRT) sessions. During 2013, the department began providing instruction to all teacher education students as part of their licensure requirements for certification. Participants believed this program greatly enhanced their ability to recognize, assess, and ultimately respond to violent threats.

### **TRAINING OF PUBLIC SAFETY PERSONNEL**

#### **University of Iowa**

- ◆ All University police officers are required to take monthly online training sessions on such topics as criminal law updates, sexual harassment, search and seizure, and training to address bias based policing.
- ◆ As part of a U.S. Department of Justice Violence Against Women grant awarded to the University of Iowa, all University police officers received specialized training addressing sexual assault response and investigation. This training is now required annually for campus law enforcement officers.
- ◆ University police officers participated in a multi-agency training seminar and received training in many topics, including cultural diversity and trauma informed interviewing when responding to victims of violent crimes, such as aggravated assaults or sexual assaults.

#### **University of Northern Iowa**

- ◆ Clery training is presented to department employees, including dispatchers, parking operations staff and student employees. Training covers reportable incidents, emergency notification(s), geographical areas, and identifies Campus Security Authorities (CSAs) and their roles.
- ◆ There are more than 38 training opportunities available to Public Safety staff during the course of the year.

## USE OF FORCE/FIREARMS

### University of Iowa

- ◆ UIPD officers carry SigSauer handguns.
- ◆ Commission on Accreditation for Law Enforcement Agencies (CALEA) standards dictate that SUI police must have a use of force policy. Officers must receive training annually on these standards, must be trained with their authorized weapons, require reports when weapons are used, and cannot carry weapons until they have been trained. New officers must review all related policies prior to being issued weapons.
- ◆ The University of Iowa Police Division meets all CALEA standards and exceeds Iowa Law Enforcement (ILEA) standards with respect to weapons qualification; CALEA dictates all police agencies must have a policy that requires firearms qualification.
- ◆ UIPD officers qualify twice a year with the "Iowa Law Enforcement Academy Handgun Qualification Course." All police officers fire two qualification runs at each session, for a total of four; successful qualification runs are required; this exceeds state and national standards. Officers qualify on the low light course once a year, and shotgun once a year, meeting ILEA standards. For rifle qualification, UIPD requires three different courses of fire - the FBI 100 yard course, the Close Quarters Battle (CQB) Course, and the Close Quarters Battle Course in low light. This exceeds the standard FBI 100 yard course. UIPD currently has seven ILEA certified firearms instructors on staff conducting all firearms training.
- ◆ UIPD also conducts *Simunitions* training for our Emergency Response Team members several times a year. This involves interactive training using devices that fire simulated rounds and a process that records officer actions with the simulated weapon. UIPD officers also train using the Multiple Interactive Learning and training Objectives system (MILO). The MILO system instructs officers on the appropriate use of force, i.e., when to fire and when not to fire a weapon. Both of these training opportunities exceed ILEA requirements.
- ◆ UIPD and Iowa City PD have collaborated to form one SRT team. This replaces UIPD CIT team. Due to budget cuts, the UIPD CIT team was placed into Iowa City's SRT team. This has resulted in a stronger SRT team for both the city and the university.
- ◆ UIPD has facilitated access to training sites on campus for local law enforcement agencies. This creates a close partnership and provides the area agencies with knowledge of campus facilities, community, and practices. This partnership creates a close working relationship and facilitates future assistance in the event of an incident on campus requiring mutual aid.
- ◆ UIPD works closely with local law enforcement agencies to implement training for all area agencies regarding the response to an active shooter. UIPD trains and works with local agencies in reference to weapons and tactical training so all teams are "on the same page" in the event of an emergency in which multiple agencies would be needed for an appropriate response to an incident of violence on or adjacent to campus.
- ◆ ALERRT (Advanced Law Enforcement Rapid Response Training) is a nationally recognized two-day operator course to respond to active shooters and other violent situations involving weapons. ALERRT training is far more detailed than standard active shooter training and involves choreographed situations with specific training points. It addresses all of the components in the Iowa Law Enforcement Academy-Active Shooter course and also provides instruction in moving and firing in teams of 2 to 5, room clearing, rescue, improvised explosive devices (IED) recognition and hostage situations. Instruction includes dividing the class into groups with each team participating in exercises with simulated weapons and rounds to place participants in stressful situations. The department has four ALERRT instructors and all officers must be trained in ALERRT.

- ◆ Certified Protection Security Officers
  - ⇒ All full-time DPS civilian security officers are required to obtain certification by successfully completing a 50+ hour course. This certification process was introduced in 2012.
  - ⇒ The security officers operate the NITE RIDE van safety service. In 2016, NITE RIDE provided 33,181 rides, similar to last year's numbers of 33,564. NITE RIDE is now open to all university students.
- ◆ Automated external defibrillators (AED)
  - ⇒ The UI Public Safety Fire Safety Coordinator inspects and maintains 57 SUI public access AEDs to American Heart Association (AHA) standards and manufacturer specifications.

### **Iowa State University**

- ◆ The department's use of force and authorized weapons policies are in compliance with national law enforcement accreditation standards.
- ◆ Instruction regarding departmental use of force policies and related laws is conducted semi-annually, which exceeds national accreditation standards.
- ◆ Officers qualify with their issued sidearms twice each year; this also exceeds national accreditation standards and state regulations.
- ◆ The department continues to equip officers with, and train them in the use of chemical spray, expandable batons, and conducted energy weapons.
- ◆ The department has five firearms instructors certified through the Iowa Law Enforcement Academy (ILEA). Six officers have additionally received instruction certification through the Advanced Law Enforcement and Rapid Response Training (ALERRT), Response Options, and Strategos, international training programs.
- ◆ Officers participated in active shooter training once during the past year, which involved the Story County Sheriff's Office and several ISU staff members.
- ◆ No officers discharged a firearms for other than approved training purposes, with the exception of dispatching one severely injured deer.

### **University of Northern Iowa**

- ◆ Police officers participate in semi-annual training for firearms qualification, which exceeds national training standards. During this training, the departmental use of force is reviewed at each training session. Officers train in daylight and low light conditions. Officers also receive firearms training at night. The department has two state-certified firearms instructors.
- ◆ Officers are equipped with chemical spray, batons, and conducted energy weapons.
- ◆ Officers recertify in the X2 Taser training on an annual basis.

## STUDENT INVOLVEMENT

### University of Iowa

- ◆ Students continue to be involved in the following:
  - ⇒ NITE RIDE (late night safe ride options for women).
  - ⇒ Citizens Policy Academy – a 10-week academy for private citizens conducted by UIPD; Iowa City PD, Coralville PD; and the Johnson County sheriff's office.
  - ⇒ Student employees – traffic control, campus walking patrols, dispatching, records.
  - ⇒ Internships for high school and college students offered by the department.
  - ⇒ The University of Iowa Emergency Medical Services Student Interest Organization was created in August 2009 and is sponsored by the University of Iowa Department of Public Safety in coordination with the University of Iowa Fire Safety Coordinator.

### Iowa State University

- ◆ Officers and others conduct safety walks each year to identify issues related to lighting, overgrown foliage, and other hazards. The Student Government co-sponsored the most recent effort in October 2016. Results were reviewed by facilities personnel to develop action plans.
- ◆ The department hosts an eight-week citizen policy academy each year for students, faculty, and staff. This outreach effort is very popular and has helped form collaborative relationships.
- ◆ A safety escort program has been operated by the department for more than 19 years. Walking or vehicle-assisted escorts are provided free of charge to faculty, staff, students, and visitors. The service is very popular as evidenced by its use: 2009 (4,144); 2010 5,667; 2011 (5,977); 2012 (5,830); 2013 (6,450); 2014 (6,595); and 2015 (6,279). In August 2016, the department implemented a mobile app for the community to use to request rides. The response from the community exceeded expectations. Since the mobile app went live in August 2016, the department provided 6,879 rides. Between the months of January until the mobile app in August, we provided 4,606 SafeRides. There were 11,485 rides in 2016, an increase of 82.9%.
- ◆ A motorist assist program has been in existence for more than 20 years. Services are provided by the department free of charge for those requiring assistance, including vehicle jump starts; tire changing/airing equipment; and escorts to obtain fuel. The number of motorist assists performed during 2016 was 657.
- ◆ The department employs approximately 70 students in support functions, including communications; security; SafeRide; motorist assists; parking enforcement; and records management.

### University of Northern Iowa

- ◆ The Department employs student patrol members to assist police officers in various roles for campus patrols, building lock-up and unlocking services, assistance during move-in, and campus escort requests during the evening hours. During 2016, Student Patrol assisted with 421 escorts.
- ◆ Department members made presentations to various groups across the university and community in 2016 with 90% of the audiences composed of students. Topics covered in the presentations included alcohol and drugs; personal safety; crime reporting; sexual assault; and crime awareness. Student Patrol members participated in the presentations and discussed the Student Patrol program.

## SMOKING BAN

### Iowa State University

- ◆ The department recorded 60 smoking-related calls for service during 2016. Police officers and community service officers initiated the vast majority of contacts. Every violation reported or detected occurred outdoors.
- ◆ When possible, police officers and student security personnel patrolled areas reported or found to be problematic.
- ◆ University entrances, building doors, and state-owned fleet vehicles all have smoking-related signage visibly posted.

### University of Northern Iowa

- ◆ The Department of Public Safety received a total of 22 complaints on smoking violations during 2016. The disposition of these calls is as follows:
  - ⇒ Verbal warning – 16
  - ⇒ Gone on arrival/unable to locate – 6

## SPECIAL SCHOOLS

### Iowa Educational Services for the Blind and Visually Impaired/Iowa Braille and Sight Saving School

- ◆ Iowa Educational Services for the Blind and Visually Impaired (IESBVI), in cooperation with AmeriCorps NCCC strives to provide a safe and secure campus for the Corps members, staff, families, community members, visitors, related professionals, and the general public who access the campus.
- ◆ IESBVI has a long history of providing a safe environment for students and staff and a climate that reflects the importance of safety as a key value. When physical or personal risk occurs, protocols are in place for the Crisis Management team to respond. IESBVI complies with the Continuity of Operations Planning (COOP). Staff assigned to safety and security mitigation, prevention, preparedness, response and recovery include the Assistant Administrator, Supervisor of Plant Services, and the Director of Human Resources. Local public safety authorities are contacted when needed; there is a good relationship with all related agency personnel. The school adheres to the Weapon Free campus policy. The security threat level protocol is also in place.

### Iowa School for the Deaf

- ◆ The Iowa School for the Deaf (ISD) upgrades the security and safety environment for the students, staff, and other stakeholders on an ongoing basis. As part of this effort, the School's safety committee reviews and updates the School's crisis plan which has been distributed and posted throughout the campus. The Safety Committee oversees safety and security and guides responses to a crises or critical incidents. The School's administration works with local law enforcement agencies and the local fire departments to ensure that they are familiar with the School's protocols and physical layout. ISD also consults with the Council Bluffs Department of Health on an ongoing basis.

**CRIME STATISTICS**

The following table provides a summary by quarter for 2015 and 2016 of the numbers of offenses, total charges, and total arrests.

	QTR 1		QTR 2		QTR 3		QTR 4		Annual Totals	
	2015	2016	2015	2016	2015	2016	2015	2016	2015	2016
<b>TOTAL NUMBER OF OFFENSES/INCIDENTS:</b>

- Attachment B: Iowa School for the Deaf 2016 Campus Safety and Security Report
- Attachment C: University of Iowa 2015 and 2016 Crime Statistics
- Attachment D: Iowa State University 2015 and 2016 Crime Statistics
- Attachment E: University of Northern Iowa 2015 and 2016 Crime Statistics

**CAMPUS SAFETY AND SECURITY REPORT**

**IOWA EDUCATIONAL SERVICES FOR THE  
BLIND AND VISUALLY IMPAIRED/  
IOWA BRAILLE AND SIGHT SAVING SCHOOL**

**CALENDAR YEAR 2016**

**OVERVIEW**

Iowa Educational Services for the Blind and Visually Impaired (IESBVI), in cooperation with AmeriCorps NCCC, strives to provide a safe and secure campus for the Corps members, staff, families, community members, visitors, related professionals and the general public who access the campus.

IESBVI has a long history of providing a safe environment for students and staff and a climate that reflects the importance of safety as a key value. When physical or personal risk occurs, protocols are in place for the Crisis Management team to respond. IESBVI also continues to comply with the Continuity of Operations Planning (COOP). Staff assigned to Safety and Security mitigation, prevention, preparedness, response and recovery include the Assistant Administrator, Supervisor of Plant Services, and the Director of Human Resources. Local public safety authorities are contacted when needed and there continues to be a good relationship with all related agency personnel. The school adheres to the Weapon Free campus policy. The security threat level protocol is also in place.

**COMMUNICATIONS CAPABILITIES**

IESBVI current electronic communication capabilities include e-mail; a 2008 AVAYA voice over IP telephone system; an intercom system; and emergency communication buttons in elevators and stair towers in the Old Main building to access assistance. A campus wide communication system was included in the upgrade of the fire alarm system in 2010.

**THREAT ASSESSMENT AND MANAGEMENT**

The Crisis Management Plan has been reviewed and updating it is a continual process. Staff practices fire and severe weather procedures in drills a minimum of two times throughout the year. A contract has been established for criminal background checks for employees and volunteers.

University of Northern Iowa risk assessment staff has agreed to be available for consultation. A risk assessment has not been initiated in recent years. With an on-campus staff of fewer than 25 people, awareness of individuals who may pose a threat is more obvious to the group as a whole. Staff report concerns to their supervisors, the Superintendent, Assistant Administrator or the Human Resources Director.

**PHYSICAL SECURITY CAPABILITIES**

- All building safety codes are met. The following security capabilities continue: efficient doors and new locks installed throughout the entire area; door security protocol implemented and observed; interior alarm system fully functioning.
- Continued improvements made to outdoor lighting provides for safer access to walk across campus and through parking lots.

- Exterior enunciators have been added to the exterior of buildings for improved alarm capabilities when outside of the buildings.

#### **TRAINING OF INSTITUTIONAL PERSONNEL**

Staff reviews safety procedures at the beginning of the school year. New staff received training during their orientation process. Safety procedures are published in the Employee Handbook which is available on-line.

#### **SAFETY AND SECURITY SHORT TERM GOALS**

- IBSSS continues to review emergency procedures for severe weather and implements any resulting revisions.

#### **SAFETY AND SECURITY LONG TERM GOALS**

- Develop a process for threat assessment.
- Annual review of the Crisis Management Plan.
- Maintain and provide adequate training for personnel in the areas of mitigation, prevention, preparedness, response and recovery.

## **CAMPUS SAFETY AND SECURITY REPORT**

### **IOWA SCHOOL FOR THE DEAF**

#### **CALENDAR YEAR 2016**

#### **OVERVIEW**

The Iowa School for the Deaf upgrades the security and safety environment for the students, staff and other stakeholders on an ongoing basis. As a part of this, the school's safety committee continues to review and update the School's crisis plan which has been distributed and posted throughout the campus. The school's Safety Committee oversees both safety and security as well as guides responses to crises or critical incidents. The school's administration works with local law enforcement agencies and the local fire departments to insure that they are familiar with the school's protocols and physical layout. Additionally, ISD consults with the Council Bluffs Department of Health on an ongoing basis.

#### **MASS COMMUNICATION CAPABILITIES**

1. The school's campus-wide calling plan continues to be reviewed and adjusted as identified through the review and drill process. The school has implemented a school messenger system whereby text messages, emails and/or voicemail is used to alert all stakeholders. The use of school messenger has greatly enhanced the school's ability to notify staff of any dangerous or potentially dangerous situation more efficiently and effectively. The email and text messaging options have greatly improved notification of deaf or hard of hearing staff, students, parents and other stakeholders.
2. The school's audio/visual alert system is tested monthly to ensure that all deaf and hard of hearing students and staff receive notification in case of fire or severe weather.

#### **THREAT ASSESSMENT AND MANAGEMENT**

1. The school continues to upgrade its camera surveillance system. There are a total of 41 cameras throughout the campus. Installation of card access on four of the doors accessing the Boys' Dormitory were completed in Spring 2016. During the 2017 calendar year, ISD will continue to work on the installation of card access doors to other buildings on campus to include Careers Building, Lied Multipurpose Complex, and Powerhouse respectively. All other exterior doors are kept locked and require a key for entry.
2. The school continues with criminal and child abuse background checks for all new employees. In addition, in accordance with Iowa law, every five years, ISD runs Iowa criminal history, Iowa child and adult abuse and national sex offender registry background checks on all employees.
3. All exterior lighting is kept in good working order and serviced as needed.

**TRAINING OF INSTITUTIONAL PERSONNEL**

1. The school regularly conducts harassment/bullying workshops for all students.
2. The school's crisis contingency plan has been distributed to tenant groups and organizations on campus and with the Lewis Central School district to allow for integration with their plans.
3. A letter of agreement has been developed with the Lewis Central School District to provide an area of refuge in the event either campus needed to vacate in time of crisis.
4. Identified school employees are trained annually in MANDT, a de-escalation approach to managing student behavior.

**OTHER**

1. All vehicles used to transport students comply with Iowa Department of Education Standards and personnel from the Department of Education inspect all vehicles used in the transportation of students on a biannual basis. Vehicles are driven by appropriately licensed staff. All staff are trained for the task at hand and bus evacuation drills are conducted as required.
2. The school is continuing to look at a cost effective electronic visual alert system that would provide enhanced notification of emergency weather conditions, fire evacuation, intruder notification and lockdown throughout the campus. The school would need to acquire sufficient funding before design could be undertaken and installation started.
