FOLLOW UP ON ANNUAL REPORT ON CAMPUS SAFETY AND SECURITY

Action Requested: Receive the report.

Executive Summary: At the March meeting, questions about the Campus Safety and Security Report were raised by the members of the Board.

At the request of the Board, the reports of the universities are now provided in the same format (Attachments A, B, and C). Each of the reports now includes information on the number of times police officers have both drawn and fired weapons.

Crime statistics for 2007 and 2008 are included as Attachments D, E, and F. SUI and UNI were not able to break out their 2007 and 2008 statistics to reflect the same totals as shown in the ISU report presented in March. All three reports indicate – number of offenses/incidents; total number of charges; and total number of people arrested.

The Directors of Public Safety at the three universities will be present to respond to questions raised at the March meeting about the number of offenses vs. the number of arrests as well as other questions that may be raised by the Board.

CAMPUS SAFETY AND SECURITY REPORT

THE UNIVERSITY OF IOWA

Calendar Year 2008

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

MASS COMMUNICATION CAPABILITIES

- The University of Iowa (UI) currently utilizes Connect-Ed (HAWK ALERT) for the purpose of mass communication notification to UI faculty, staff and students. This system utilizes e-mail, text messaging and voice mail. The Hawk Alert System is used to notify the campus community of threats to physical safety in emergency situations (tornado, violence, hazardous material incident, and so on). Hawk Alert allows UI administrators to send recorded or electronic emergency messages (“Hawk Alerts”) to mobile phone, home phone, office phone, and e-mail (simultaneously). A Hawk Alert web page provides information to the UI community on registration and notification options and contains an extensive Q&A section.
- The UI currently utilizes an outdoor warning system consisting of five outdoor towers on the main campus and one tower located on the Oakdale campus. These towers are capable of emitting a severe weather warning siren as well as being used as a campus wide public address system utilizing recorded and real time live voice messages. The University’s outdoor warning system is activated by UI Public Safety when other sirens located throughout Johnson County are activated during severe weather events. In addition, the University’s system will be used to broadcast warnings for other weather and non-weather situations. Testing of the University outdoor warning system occurs on the first Monday of every month at 9:00 a.m. in conjunction with the testing of other sirens located in Johnson County. The outdoor warning system has a companion device, an RF receiver, capable of delivering emergency messages that can be placed inside buildings. The outdoor warning system has a companion device, an RF receiver, that can be placed inside of buildings, capable of delivering the same emergency messages.

Tower locations:

Main Campus

- West of Parklawn Housing Building
- NW of Banks Field
- SE of Gilmore Hall
- NE corners of Melrose Ave and Morman Trek Blvd.
- SE of the Boyd Law Building

Oakdale Campus

- SE of Multi-Tenant Facility

Three activation points:

- Primary encoder is located in the UIPD Communications Center
 - Mobile encoder is maintained in a “Pelican” case with AC & DC power sources
 - Portable encoder (Kenwood TK-3180 handheld radio)
-
- The UI can also use the Mass E-Mail System, which will transmit information using the University e-mail system to all faculty, staff, and student e-mail accounts.
 - The UI Home Page Web Site, will connect site users to the most current information, with links to the UI’s Critical Incident Management Site. The site will connect students, faculty, staff, patients, parents of students, and the general public to specific, pertinent information about continuity of operations, advisories and notifications, health and safety information, and additional information as it becomes available. Both the UI Homepage site and the Critical Incident site will be maintained by University Relations staff, in cooperation with Information Technology Services, and other agencies as appropriate.
 - The UI will also utilize news releases and direct media contact, providing the most current information for students, parents, staff, faculty, and the general public.
 - In the event that Internet communications are deemed ineffective, University Relations will use its radio stations (KRUI, KSUI, and WSUI) and the use of faxed releases sent telephonically to news media to disseminate information.
 - UI DPS and UI Facilities Management are progressively moving toward using advanced fire alarm panels for interior building emergency communications that will be capable of being activated from a single point which will be located in the DPS dispatch/emergency communications center.

With any delivery system used for mass or emergency communications, there will be challenges. Some of those challenges are as follows:

- **Content of the messages** – the goal is to inform without alarming, to be as brief as possible but still provide enough relevant information that allows the audience to make good decisions.
- **When to deliver the messages** – deciding if a “community” emergency is truly an emergency that will affect the campus and what types of emergency messages should be broadcast; is the campus better served delivering this message or, by not delivering the message,
- **Complying with Clery** – Timely Warning Notifications
- **Timeliness and speed of delivery** - Hawk Alert, UI Website
- **Continuous training** (daily for dispatchers)

THREAT ASSESSMENT AND MANAGEMENT

- Prior to the Virginia Tech shootings, the UI had already established the Behavior Risk Management (BRM) Protocol. The BRM is an attempt to respond with a planned comprehensive approach to the continuum of behaviors that could lead to hostility and violence in the workplace. Although it is difficult to "predict" violent

or hostile behavior, there are methods to determine the risk components of a situation. BRM takes a clinical as well as consultative approach. The Behavior Risk Management Protocol is a planned, comprehensive, multidisciplinary response to workplace hostility and violence. The purpose is to ensure a safe and civil workplace for all UI employees by addressing any related individual or environmental issues that may contribute to hostility, violence or physical danger on the job.

- While the BRM protocol addresses faculty and staff, the new threat assessment protocol will create an integrated and coordinated process for identifying and responding to students, faculty, staff, or other University affiliates who may be at risk of harming themselves or others, and then to respond effectively with all parties who may be involved with the concerning situation. This process will coordinate the efforts of existing offices and services. The goal of these efforts is to coordinate activities from multiple stakeholders, but not to centralize all response activities.
- The UI has established a Threat Assessment Team (TAT) in response to the recent violent incidents on college campuses across the nation. This team includes representatives from Human Resources, Student Services, and University of Iowa Police. The Threat Assessment Team will be working in conjunction with the Faculty and Staff Services/Employee Assistance Program, Student Counseling, Resident Services, and many other resources within the University of Iowa community.
- Two Threat Assessment Specialists (TAS) have been hired to coordinate efforts and provide new needed services: Lieutenant Peter Berkson, of the University of Iowa Police; and Jane Caton, Licensed Independent Social Worker and Certified Addictions Counselor from Organizational Effectiveness. Their responsibilities include responding to reported concerns, monitoring, interviewing and developing assessment and prevention programming.
- Lieutenant Peter Berkson began the role of Threat Assessment Specialist on October 20, 2008. He attended the Advanced Threat Assessment and Management Academy training presented by Gavin de Becker and Associates in October of 2008. He also attended The Association of Threat Assessment Professionals Conference and is networking with various university threat assessment specialists throughout the Midwest. He has also attended an Interview and Interrogation class taught by Wicklander-Zulawski & Associates.
- He has created several Threat Assessment intake forms and assisted in developing the Recommended Protocol for Addressing Potentially Violent Situations. Lt. Berkson spent several days with The University of Nebraska-Lincoln Threat Assessment Team; the University of Nebraska has a well developed threat assessment program. Lt. Berkson spent the time networking, reading and acquiring their established protocols and policies. He has also communicated and sought the counsel of Dr. Gene Deisinger with Iowa State DPS. Dr. Deisinger is a well known expert in the field of threat assessment. Since October 1 Lt. Berkson has been working on approximately 16 cases.

- The University of Iowa Human Resources Office filled its Threat Assessment position on December 1, 2008. Lt. Berkson will now work closely with this individual to assist with training and further developing the University of Iowa program. Lt. Berkson and Ms. Caton have already begun speaking to individuals, addressing the basics of threat assessment, and will begin comprehensive, formal training for selected groups in the UI community in the first quarter of 2009.

The formal introduction of both Threat Assessment Specialists, their role and instructions on when and how to contact them, was recently released to the entire campus. The mass email is as follows:

From: Charles D. Green [mailto:charles-green@uiowa.edu]
Sent: Monday, December 08, 2008 5:24 PM
To: "Faculty, Staff and Students"
Subject: [UnivAdm] Threat Assessment Team

The University of Iowa has established a Threat Assessment Team (TAT) in response to the recent violent incidents on college campuses across the nation. This team includes people from Human Resources, Student Services, and University of Iowa Police. The Threat Assessment Team will be working in conjunction with the Faculty and Staff Services/Employee Assistance Program, Student Counseling, Resident Services, and many other resources within the University of Iowa community.

As a result of the Board of Regent's initiative establishing Chapter 11 of its policy, two Threat Assessment Specialists have been appointed at the University of Iowa; Lieutenant Peter Berkson, of the University of Iowa Police, and Jane Caton, Licensed Independent Social Worker and Certified Addictions Counselor from Organizational Effectiveness. Their responsibilities include responding to reported concerns and developing assessment and prevention programming.

The TAT serves as a point of contact for faculty, staff, students and other members of the university community who are aware of, or are experiencing threatening or potentially threatening behavior. The team will gather factual information, review, and investigate individual concerns brought to the attention of the team; and will facilitate a timely and reasonable response. The following are some "red --flag" indicators one may notice:

- * Harassing, following, or stalking behavior
- * Contact (letter, e-mail, phone call, voicemail, face-to-face visit) that makes hostile reference to a faculty, staff, student and other University community members
- * Open displays of agitation and disruptive behavior toward faculty, staff, student or within facilities, regardless of whether threat is made
- * Preoccupation/fascination with violence or previous incidents of violence
- * Unsolicited comments about firearms and dangerous weapons
- * Makes statements of intent to harm self or others
- * Makes reference to committing a violent act

If you experience troubling and threatening behavior/inappropriate communications or if you become aware of the same, call the University of Iowa Police 24/7 at 319-335-5022 or email <mailto:police@uiowa.edu>. During normal business hours, you can contact Peter Berkson at 384-2787, <mailto:peter-berkson@uiowa.edu> or Jane Caton at 384-2955, <mailto:jane-caton@uiowa.edu>.

Our goal is to continue to provide the University of Iowa Community with a safe environment in which to visit, live, work and learn.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- U of I DPS has a long standing mutual aid agreement with the Iowa City PD, Coralville PD and the Johnson County Sheriff's Office which allows for the exchange of law enforcement resources (personnel and equipment) as needed. The UI Police division is a member of the Johnson County Drug Task Force, Sexual Assault Investigators Team, Sexual Assault Response Team and the Johnson County Metro Bomb Squad. We also work closely with all divisions of

- the State of Iowa Department of Public Safety as well as federal law enforcement agencies.
- The Iowa City PD, the UI Police division and the Iowa City Fire Department share the same radio system. Radio interoperability for every law enforcement agency in the entire county will become a reality in approximately one year with the creation of the Johnson County Joint Communications Center (JCJCC). This will allow other law enforcement agencies to connect including the Johnson County Sheriff's Office, Coralville PD, North Liberty PD and the University Heights PD. At the time the entire county adopts the same radio system, the University of Iowa Police dispatch/ emergency communications center will become a back up Public Safety Answering Point (PSAP) for the JCJCC.
 - Agency heads from UIPD, ICPD, CORAVILLE PD, the Johnson County Sheriff's Office and the Johnson County Attorney meet monthly to discuss shared interests and concerns.

PHYSICAL SECURITY CAPABILITIES

- Currently the UI Department of Public Safety (DPS) has 126 cameras feeding into the dispatch and emergency communications center. This includes 52 cameras covering specialized labs, 70 covering the University Capitol Centre and 4 connected to 22 campus Code Blue emergency phones. Due to the generosity of the Parents Association, the University will be increasing the number of cameras on Code Blue phones at an estimated rate of 4 a year. Digital video recorders are used to record information for post event investigations if necessary. Additionally, some areas have local motion and intrusion alarms which will alert our dispatchers.
- Four residence halls, Parklawn, Mayflower, Rienow and Quadrangle, are currently using cameras in conjunction with "Prox Card" access at entrances. These halls have cameras at all exterior doors and all first floor access points to student living spaces (elevators, stairwells, hallway doors). In addition these halls may have cameras at the 24 hour desks, some lounge spaces and Information Technology Centers. Cameras are monitored at the 24 hour residence hall desks; alarms informing staff that doors are propped open will alert staff to watch camera monitors to respond appropriately to those doors. Monitors scan each camera and record activity which is stored for a limited amount of time. All residence halls will be added to this system in the next few years. Hillcrest and Slater are scheduled to be added in the summer of 2009.
- UI Facilities Management houses master keys; issues keys and proximity cards; grants access rights based on departmental requirements; maintains a university-wide key inventory database of key information and services lock systems. The majority of both exterior and interior doors that have a locking function are keyed. Electronic access, Millenium Enterprise (aka Marlok), is installed in 60 buildings and connected to approximately 1500 doors, both interior and exterior. Approximately two-thirds of these locations utilize the UI Identification card and magnetic swipe readers; the other one-third of access-

controlled locations utilizes Facilities Management-issued proximity cards and proximity readers. Some administrative units have taken on responsibilities for programming user access, while others continue to place a high reliance on Facilities Management for access control services.

- Led by Facilities Management, the University of Iowa finalized a multidiscipline, year-long assessment of control technology to replace the current Marlock standard with a control system capable of meeting current and future institutional needs for card access, security, distributed control, and integration with building systems controls and institutional information technology databases. The University has selected AMAG software/firmware and Security Equipment Inc. as the AMAG integrator/reseller for the programs and components. We hope to sunset the Marlock system in approximately 10 years.
- Concerns about safeguarding university assets have highlighted the need to integrate “building access” and “building security.” The challenge is to provide appropriate control and security for all major buildings without unduly compromising convenience and the campus culture of openness. To help guide the process, the University has convened an Access and Security Steering Committee who has developed a University of Iowa Access and Security Strategic Plan to address security and access control for new and existing buildings. The committee includes members from Facilities Management, Office of the Provost, Information Technology Services, Public Safety, Student Services and Research Administration. The areas of concern that are being reviewed by the committee and various sub-committees are as follows:
 - Central Control Technology (AMAG)
 - Security Assessment, Process & Priority
 - Design and Installation Standards
 - Key and Card Issuance
 - Access Cards
 - Integrated Databases
 - Security Monitoring, Analytics
 - Service and Support Model
 - Financial Support Model
 - Administration Policy on Card Access and Security

STAFFING

- The UI Police Division currently employs 30 sworn, state certified officers, 14 security guards, 7 state certified dispatchers, 1 fire safety coordinator and 3 support staff. Part time student employees (14) assist with guard duties, fingerprinting, lost and found, assistance with NITE RIDE, records management and dispatching; a DPS organizational chart is attached.
- UIPD has one explosives detection canine

TRAINING OF INSTITUTIONAL PERSONNEL

- For several years the University of Iowa Police Crime Prevention Specialist has presented safety related educational offerings as follows:
 - **Rape Aggression Defense program R.A.D.**
 - **Personal Safety and Self-Protection**
 - **Panic Alarms and Disruptive Persons**
 - **Counterfeit Currency Detection**
 - **Alcohol Awareness**
 - **Club Drugs: "From the Rave to the Grave"**
- UIPD has utilized mass email as well as the website to provide newly created information on the following topics:
 - Active Shooter Guidelines
 - Threat Assessment (for further see page 2 under: **Threat Assessment and Management**)
- The Threat Assessment Specialist and Crime Prevention Specialist have drafted a new protocol titled: **Recommended Protocol for Addressing Potentially Violent Situations**. The document addresses what to do when dealing with potentially violent people and situations. It was created, primarily, for frontline persons, i.e. clerical staff, office assistants, and others who deal directly with the public. The two TAS and UIPD crime prevention specialist have already met with several individuals presenting the related materials. They will continue scheduling meetings to present the protocols and facilitate discussions with various groups. Meetings will be arranged in one half hour to one hour blocks of time.
- A.L.I.C.E. stands for **Alert, Lockdown, Inform, Counter, and Evacuate**. The program is a comprehensive approach, advocating integrated strategies incorporating Environmental Design, Technology & Communication, Law Enforcement Response, and ACTION by those in immediate danger. The response options that are taught specialize in preparing schools, universities, churches, hospitals, and workplaces in how to respond to a violent attack on large numbers of people and increase the odds of survival. A.L.I.C.E. teaches individuals proven techniques and provides them with several options that are effective in avoiding, escaping and, if necessary, protecting intended victims from active shooters.

UIPD has three officers trained as instructors in the A.L.I.C.E. system who have created a two hour training component to begin training for faculty, staff and students. A.L.I.C.E. was presented to the leadership of UIPD/DPS and then to the leadership at the 2008 Big 10 Law Enforcement Director's Annual Conference. We will begin presenting the program to UI leadership in the first quarter of 2009.

USE OF FORCE/FIREARMS

- UIPD officers carry the M&P 40 caliber Smith and Wesson. Other than training, we have discharged the weapon to euthanize 2 injured deer. UIPD officers drew and pointed their weapons six times; these events are reported to the Regents, by phone, shortly after the time of occurrence. These incidents are as follows:
 - On 06/12/08, a UIPD Officer while assisting the Johnson County Drug Task Force (JCDF) in the arrest of a suspected narcotics dealer at Casey's in North Liberty, drew his duty weapon and pointed it at the suspect while a North Liberty PD Officer removed the suspect from his vehicle, directed the suspect to the ground and handcuffed him. The suspected narcotics dealer was taken into custody without further incident.
 - On 8/9/08, a UIPD officer, while assisting the JCDF and the Iowa Department of Public Safety's Division of Narcotics Enforcement (DNE), drew his weapon during the arrest of a known narcotics trafficker after a "sting" operation off campus in eastern Iowa City. The suspect was taken into custody without incident.
 - On 10/21/08, a UIPD Officer assisted ICPD with a traffic stop involving a stolen 2006 White Dodge Caravan. The driver and passenger were removed from the van at gun point; the officers followed felony car stop protocol. In addition to assisting with the initial stop (providing cover), the UIPD Officer assisted with the removal of the passenger from the car.
 - On 10/31/08, a UIPD Officer stopped a vehicle on Burlington St., near the intersection of Burlington St. and Linn St. for running a red light. A records check revealed the driver had an outstanding felony warrant on file and the passenger had a failure to appear bench warrant. Our officers removed the driver and passengers from the vehicle at gunpoint. Additionally, officers found a large amount of cash (\$2,606.00) on the driver, and illegal substances in the vehicle (i.e. crack and powdered cocaine in measurable amounts). According to JCDF members, both the driver and the rear seat passenger are suspects in active drug cases.
 - On 12/17/08, a UIPD officer saw a confirmed stolen vehicle out of Des Moines on campus occupied by 3 people. He pulled the vehicle over in the 600 block of Newton Road and conducted a "felony" traffic stop. The occupants were ordered out of the car at gunpoint following ILEA trained protocol. Computerized records check revealed occupants of the vehicle had criminal histories. The driver was arrested for felony "Theft of a Motor Vehicle" - 2nd degree.
 - On 12/29/08 during the downtown Iowa City morning rush hour a UIPD officer in plain clothes while on his way to work was approached by an individual who was armed with a 8" long knife in one hand and a stick in the other. He went towards the officer, threatening him and assaulted him causing injury. The officer first retreated a couple of steps, then drew his weapon and pointed it at the subject while waiting for other officers to arrive on the scene. Seven squad cars and ten officers were on the scene. The suspect was immediately arrested and charged with "Going Armed with Intent;" several knives were found in his vehicle. He also had a history of violence and mental problems.
- Commission on Accreditation for Law Enforcement Agencies Standards (CALEA) standards dictate that we must have a use of force policy; officers have to receive training annually on these standards, must be trained with their authorized weapons, require reports when weapons are used, and cannot carry weapons until they have been trained. New officers must review all related policies prior to being issued weapons.

- The University of Iowa Police Department meets all CALEA standards and exceeds Iowa Law Enforcement Academy (ILEA) standards in regards to weapons qualification; CALEA dictates that we must have a policy that requires qualification.
- UIPD officers qualify twice a year with two qualification runs at each session, for a total of four; successful qualification runs are required; this exceeds state and national standards. Officers qualify on the low light course once a year, and shotgun once a year, meeting ILEA standards. For rifle qualification, UIPD requires 3 different courses of fire; standard FBI 100 yard course, the Close Quarters Combat Course, and the Close Quarters Combat Course in low light. This exceeds the standard FBI 100 yard course. UIPD currently has 6 ILEA certified firearms instructors on staff conducting all firearms training.
- UIPD also conducts *Simunitions* training once a year. This involves interactive training using devices that fire simulated rounds and a process that records officer actions with the simulated weapon. UIPD officers also train using the Multiple Interactive Learning and training Objectives system (MILO). Officers are required to train with MILO at least once a year; however, most officers will use the system several times a year. The MILO system instructs officers on the appropriate use of force, i.e., when to fire and when not to fire a weapon; new officers must receive this training before they are allowed to perform their duties. Both of these training opportunities exceed ILEA requirements.
- 10 of the department's officers received 40 hours of training with Tactical Missions Consulting, operated by a 23 year veteran/supervisor (sergeant) with LAPD SWAT, the premiere tactical unit in the United States (August 2008). UIPD Emergency Response Team (ERT) assisted in a two day joint operation with ICPD and the Johnson County Sheriff's Office in a search/rescue operation for a suicidal subject. UIPD-ERT has been training since August of 2008 logging 4 – 8 hours of training a month.
- UIPD was involved in joint training in March of 2007 with Iowa City PD, Johnson County Sheriff's Office, Coralville PD and ISP tactical units conducted at Hancher auditorium on the UI campus. This involved a day long tactical exercise in response to a violent incident/active shooter on campus. This involved professional role players (acting group), UIPD response and response to the initial incident by the above 4 tactical units.
- UIPD has facilitated access to training sites for local law enforcement agencies on campus. This creates a close partnership and provides the area agencies with knowledge of campus facilities, community and practices. This partnership creates a close working relationship and helps facilitate future assistance in the event of an incident on campus requiring mutual aid.
- Three of the department's firearms instructors received Active Shooter (AS) training at ILEA; they are responsible for training all UIPD officers during annual firearms qualification. This training includes instruction on how to enter an active shooter situation and covers building entry, room entry and clearing and securing corridors. During the last year, the department conducted joint AS training with

Iowa City PD, Coralville PD, Johnson County SO, North Liberty PD, and University Heights PD during the annual Multi Agency Training Seminar (M.A.T.S.). Officers trained in this discipline will use this training and knowledge not only to respond to an active shooter, but to instruct students, staff, faculty and visitors in the appropriate response if an active shooter incident were to occur.

- ALERRT, Advanced Law Enforcement Rapid Response Training ALERRT is a 2 day operator course that is similar to Active Shooter Training (AS) but is far more detailed and involves choreographed situations with specific training points. It addresses all of the components in the ILEA-AS course and also provides instruction in moving and firing in teams of 2 to 5, room clearing, rescue, improvised explosive devices (IED) recognition and hostage situations. Instruction included dividing the class into groups with each team participating in exercises with simulated weapons and rounds to place participants in stressful situations. The department has four officers trained in ALERRT.
- UIPD will continue to work closely with local law enforcement agencies to implement training for all area agencies regarding the response to an active shooter. UIPD continues to train and work with local agencies in reference to weapons and tactical training so we are "on the same page" in the event of an emergency in which multiple agencies would be needed for an appropriate response to an incident of violence on or adjacent to campus.

STUDENT INVOLVEMENT

- Students continue to be involved in the following:
 - NITE RIDE (late night safe ride option for women)
 - Citizens Police Academy; (i.e., a ten week academy for private citizens conducted by UIPD, Iowa City PD, Coralville PD and the Johnson County SO)
 - Student employees (i.e., traffic control, lost and found, campus walking patrols, assist with VIP escort services, fingerprinting, dispatching)

SMOKING BAN

- UIPD continues to respond, warn, and direct smokers to areas where smoking is allowed. UIPD officers have responded to 84 prohibited smoking calls.
 - 57 contacts were initiated by UIPD officers
 - 27 contacts were complaint driven
 - No citations have been issued

SAFETY AND SECURITY GOALS

- Complete Access and Security Strategic Plan including the systematic installation of the AMAG access control system; DPS sections
- Conduct table-top emergency exercise to test Incident Command Center protocol/procedure

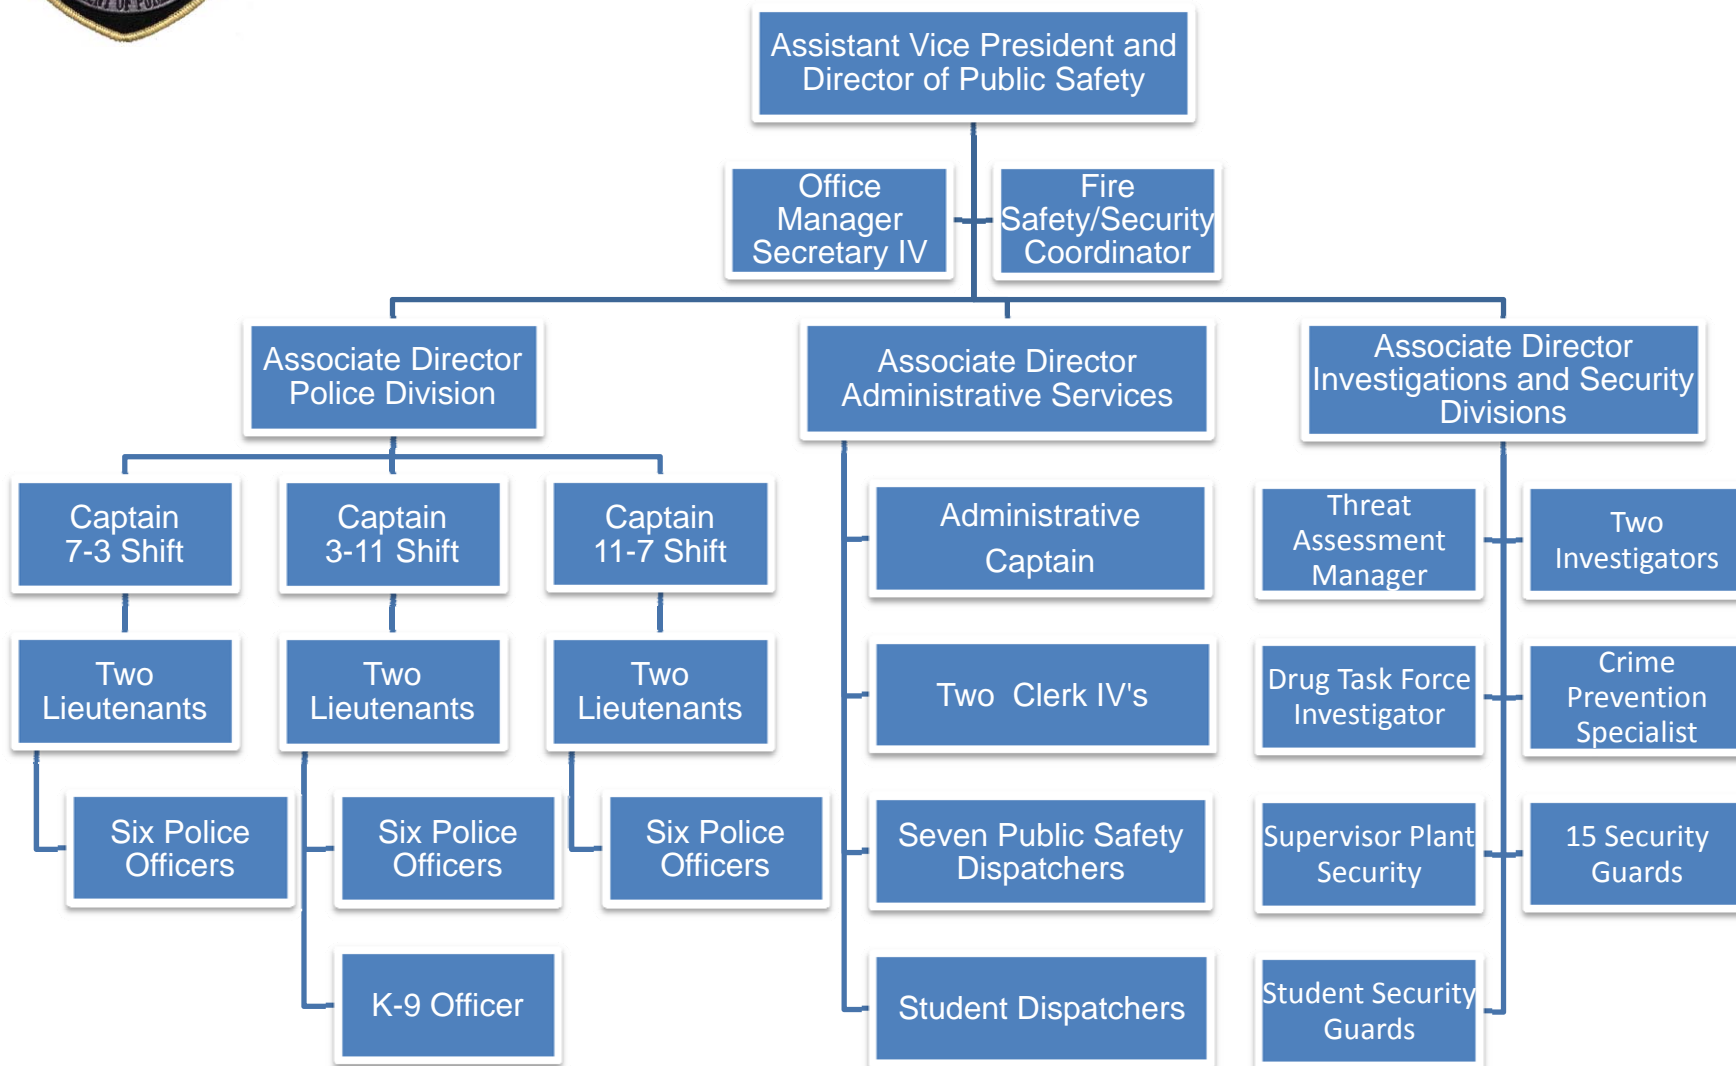

- Complete process of transferring CLERY reporting responsibilities from Student Services to Public Safety
- Present **A**lert, **L**ockdown, **I**nform, **C**ounter, and **E**vacuate (A.L.I.C.E.) training to campus
- Complete necessary work to change over dispatch consoles, mobile and portable radios to comply with county radio interoperability requirements for PSAP backup status
- Install 4 additional cameras to the Blue Cap emergency phone system
- Complete the process of connecting advanced fire alarm panels to connect to DPS dispatch/emergency communications to facilitate a single point of emergency message transmission for internal building emergency communications
- Complete the review of the DPS departmental manual including the submission of selected policies to UI General Counsel for review
- Connect all residence hall fire alarm panels to DPS dispatch/emergency communications by-passing an off-site third party receiver

CRIME STATISTICS (2007 and 2008)

- See the attached chart for a statistical summary of offenses/incidents processed, as well as arrests made and criminal charges filed.

The University of Iowa Department of Public Safety 2008

CAMPUS SAFETY AND SECURITY REPORT

IOWA STATE UNIVERSITY

Calendar Year 2008

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

MASS COMMUNICATION CAPABILITIES

- ISU Alert, the university's system for issuing emergency information via voice, text messages, and e-mail, was established during October 2007. ISU currently utilizes Connect-Ed as its selected vendor. Ten administrative officials throughout the university, representing key disciplines, have been authorized to activate this electronic mass notification system. The program has subsequently been tested twice and utilized on two occasions. Positive feedback regarding mass notification capability has been received from system subscribers, including faculty, staff, students, and parents. In addition, several municipal and county government organizations have made inquiries as to how such systems might be employed in their respective environments.
- The university utilizes an Emergency Message Recording System (EMRS) in conjunction with ISU Alert. A continuous loop recording can be played to an unlimited number of people calling the designated telephone number (4-5000); this is the same number displayed on cellular and landline telephones when the ISU Alert system is activated. The recorded messages can be updated instantaneously as conditions change.
- An Emergency Alert Homepage has been developed to enhance communication capabilities. The system is designed to overwrite the ISU homepage in a way that draws attention to the emergency—the elimination of graphics speeds access for those requiring immediate information. Ten administrative officials throughout the university, representing key disciplines, have been authorized to activate this system. However, it is recognized that dire circumstances would need to exist before the situation would be announced to the entire world. Plans to make archived messages available for viewing have been made to facilitate users being able to more easily track and understand incident progression.
- An outdoor warning system, consisting of five towers placed strategically throughout campus, was installed in June 2008; the equipment has siren and voice capability. Procedures for activation have been developed and dispatch personnel have been trained in unit operation. Testing of the outdoor warning system is conducted monthly, unless inclement weather is present or projected. Templated voice messages relating to a variety of emergency conditions have been developed to expedite message delivery.

THREAT ASSESSMENT AND MANAGEMENT

- ISU DPS has utilized a Threat Assessment and Management System (TAMS) since 1994.
- The department continues to partner with other institutional entities, including: Dean of Students Office; Thielen Student Health Center; Human Resource Services; Department of Residence; and Student Counseling Services.
- Intermediate level training in threat assessment and management has been provided to all police investigative staff.
- The threat assessment and management process is coordinated by Associate Director Gene Deisinger, Ph.D. He possesses a wealth of experience in this area and has conducted training throughout the state and country with regard to identifying and dealing with people who threaten or exhibit violent or harassing behavior. An additional DPS employee was assigned to conduct threat assessment and management duties on a full-time basis during November 2008.
- The department continues to actively participate in the multi-disciplinary Student Assistance and Follow-Up Evaluation (SAFE) Team, as well as the Faculty and Staff Safety Team (FAST). These groups meet weekly, or more often as needed, to share information and develop strategies for assessing and responding to potentially dangerous situations.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- ISU DPS entered into a mutual aid agreement with the Ames Police Department and the Story County Sheriff's Office in 1997. This intergovernmental agreement allows for the effective and immediate exchange of law enforcement resources during times of need. Officers continue to work collaboratively during major special events, including: home football games; major dignitary visits; VEISHEA; RAGBRAI; Special Olympics; and Iowa Games.
- All law enforcement agencies within Story County utilize an 800 MHz radio system that facilitates interoperability during emergencies and special events. The Ames Police Department, Story County Sheriff's Office, and ISU Police Division all share the same Computer-Aided Dispatch (CAD) and records management software; linking through fiber and T-1 lines ensures information availability and provides for system redundancy.
- The department continues to work with a variety of entities when staffing major special events, to include: Iowa State Patrol; Ames Police Department; Story County Sheriff's Office; United States Secret Service; Iowa Division of Criminal Investigation; Federal Bureau of Investigation; and Per-Mar Security.
- An Associate Director of DPS continues to serve as the departmental representative on the federal Joint Terrorism Task Force (JTTF). This group meets at least monthly in Des Moines and shares pertinent information as needed.

PHYSICAL SECURITY CAPABILITIES

- The department has recently applied for a federal Buffer Zone grant. If approved, the approximately \$396,000 received would fund equipment to enhance safety and security near the College of Veterinary Medicine complex.
- Associate Director Rob Bowers, a designated and specially trained employee, continues to review blueprints and provide Crime Prevention Through Environmental Design (CPTED) advice to architects and project managers. This proactive approach helps identify any safety related concerns prior to construction.
- The university extensively utilizes electronic systems to enhance security. The following depicts current usage: exterior doors (332); interior doors (545); and monitor points (521). This equates to 1,398 electronic access control applications.
- The use of digital cameras is expanding. There are 64 cameras currently in use and future projects include plans for installing an additional 309 units.

STAFFING

- The ISU Police Division employs 33 sworn, state-certified police officers and seven full-time civilian staff. Part-time student staff are utilized to provide support services related to building security, safety escorts, dispatch, and records management.
- See the attached organizational charts for a graphic depiction of departmental structure and personnel placement.

TRAINING OF INSTITUTIONAL PERSONNEL

- An overview of safety-related issues and services is provided to all incoming students and their parents during orientation sessions held throughout the month of June, as well as at Destination Iowa State.
- An Associate Director and other staff have provided 36 prevention and outreach programs during the past year to faculty and staff; 65 hours of instruction have been provided to 712 people. Topics have included: workplace violence; campus safety; dealing with difficult people; and threat assessment/management processes.
- The annual ISU DPS publication, "*Safety & You*" is electronically mailed to all faculty, staff, students, and prospective employees. This document is printed in hard copy form and posted on the departmental web site. It contains information pertaining to personal safety and property security. Many requests for copies of this document have been received from agencies throughout the country that are seeking a model for federal Clery Act compliance.
- The ISU Department of Public Safety continues to annually train Department of Residence (DoR) staff and Cyclone Aides regarding safety related services for students, staff, faculty, and visitors.

USE OF FORCE/FIREARMS

- The department's use of force and authorized weapons policies are in compliance with national law enforcement accreditation standards (CALEA).
- Instruction regarding departmental use of force policies and related laws is conducted semi-annually, thus exceeding national accreditation standards. Officers qualify with their issued sidearms twice each year—this exceeds national accreditation standards and state regulations.
- The department continues to equip officers with, and train them in the use of, chemical spray, expandable batons, and conducted energy weapons.
- The department has three state-certified firearms instructors (ILEA). Two officers are certified as instructors through the Advanced Law Enforcement Rapid Response Training (ALERRT) program. Two officers have also received tactical firearms instructor certification through Strategos, International.
- Officers participated in active shooter training twice during the past year; one session was conducted with the Ames Police Department and the Story County Sheriff's Office.
- No officers discharged a firearm for other than approved training purposes. No firearms were drawn and pointed during the past calendar year. Pursuant to departmental policy, doing so would have resulted in the submission of a use of force report and subsequent administrative review.

STUDENT INVOLVEMENT

- ISU DPS officers conduct campus safety walks each year to identify issues related to lighting, foliage, and other hazards. The most recent effort, conducted in November 2008, was co-sponsored by members of the Government of the Student Body (GSB). Results were forwarded to FP&M for review and follow-up action, if required.
- The department hosts an eight-week Citizen Police Academy (CPA) each year for students, faculty and staff. This outreach effort has been very popular and has helped form collaborative relationships.
- ISU DPS has operated a Safety Escort program for approximately 12 years. Walking or vehicle-assisted escorts are provided free of charge to faculty, staff, students, and visitors. The service is very popular, as evidenced by the following statistics: 2006 (1,832); 2007 (2,413); 2008 (3,734).
- A Motorist Assist Program has been in existence for approximately 14 years. Services are provided free of charge for those requiring assistance, to include: vehicle jump starts; tire changing/airing equipment; and escorts to obtain fuel.
- The department employs approximately 85 students in various support functions, including: dispatch; security; parking enforcement; and records management.

SMOKING BAN

- ISU DPS received only seven complaints since the law's enactment in July 2008. The reports were documented and officers were sent to investigate. When possible, an officer has been dedicated to patrol areas reported to be problematic.
- Officers have issued two citations and approximately 40 warnings, most of which were verbal, to campus visitors (e.g., football fans in grass parking areas, parents, construction workers, delivery drivers).
- Environmental Health & Safety (EH&S) maintains a log of concerns and complaints. To date, approximately 100 contacts have been recorded. On occasion, the information received was extremely vague and sometimes dated. However, the log has been used to detect trends for later enforcement patrols. A designated EH&S employee maintains contact with the Iowa Department of Public Health.
- Smoking-related signage has been posted at university entrances, on building doors and on fleet vehicles.
- A small committee has been formed to discuss compliance. Members include representatives from the following: DPS; EH&S; FP&M; University Counsel; DoR; and Human Resource Services.

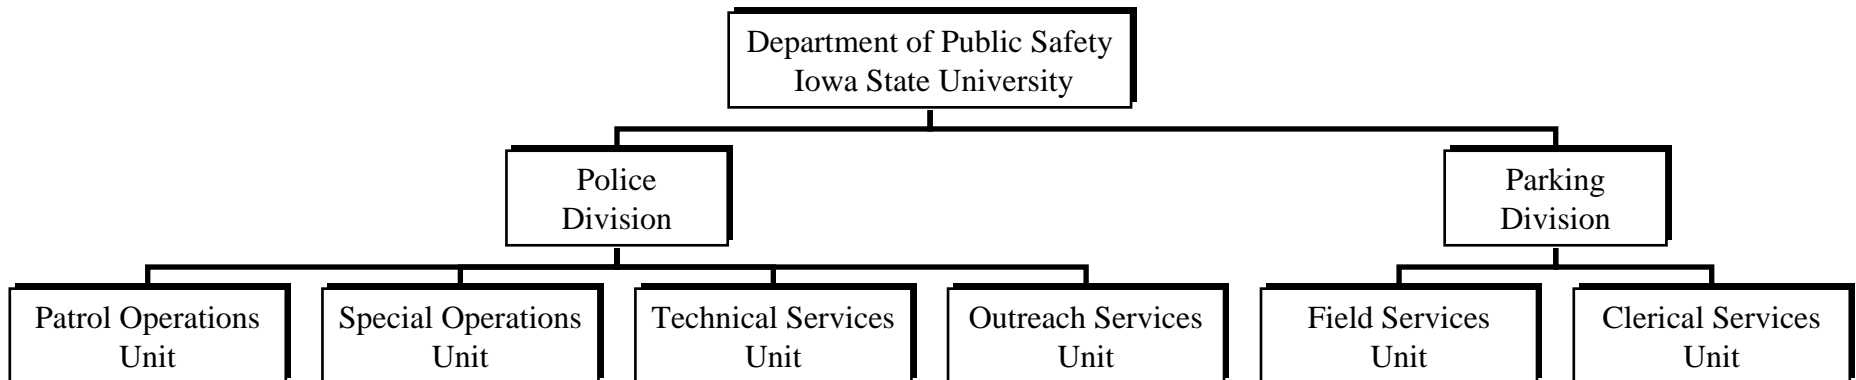

SAFETY AND SECURITY GOALS

- Purchase and implement a commercial software package to more efficiently track information pertaining to the management of threats and criminal cases.
- Upgrade the electrical systems within the department's communications center to ensure the adequacy and reliability of emergency and routine power needs.
- Train additional staff in emergency medical response. At least one officer is scheduled to receive Emergency Medical Technician (EMT-B) certification during the next calendar year.
- Upgrade the existing computer-aided dispatch software utilized in the department's communications center to more adequately address emergency and routine information needs.
- Increase the number of doors controlled by electronic access systems, as well as the number of digital cameras utilized throughout campus.
- Systematize the delivery of crime prevention information disseminated to faculty, staff, and students during orientation and in-service sessions.
- Ensure continued compliance with all applicable Commission on Accreditation for Law Enforcement Agencies (CALEA) standards.
- Update departmental and institutional plans related to pandemic flu response.

CRIME STATISTICS (2007 and 2008)

- See the attached charts for a statistical summary of offenses/incidents processed, as well as arrests made and criminal charges filed.

CAMPUS SAFETY AND SECURITY REPORT

University of Northern Iowa

Calendar Year 2008

This report is submitted in accordance with the Board of Regents Comprehensive Safety and Security Policy (Chapter 11 of the Board of Regents Policy Manual).

MASS COMMUNICATION CAPABILITIES

- UNI currently utilizes Connect-Ed for the purpose of mass communication notification to include e-mail, text messaging and voice mail.
- The UNI-Alert information is on the UNI web site and provides information to faculty, staff, and students about registration, as well as the notification process.
 - The UNI-Alert was successfully utilized on March 11, 2008 during an incident where a potential gunman was believed to be headed to campus.
 - The system was successfully used on December 19, 2008 to let the campus community know we would be opening late because of a snow storm.
 - A number of groups have been formed to ensure prompt notification in the event of an emergency. These groups are closely affiliated with or have operations on campus and include such organizations as the Waterloo Symphony, Cedar Valley Medical Specialists. Specific response agencies to any emergency requiring assistance such as state and local law enforcement agencies, volunteer groups, and local fire service are included in the groups.
- The testing of the UNI-Alert system is conducted each semester to test and record functionality of the system and correct potential problems.
- Monthly meetings have been conducted for new staff and faculty orientations.
- UNI-Alert information is provided to all summer orientation parents and students.
- In September 2008, a team of sixty volunteers for call center activities and response to emergency response was organized and trained.

- UNI-Alert information is provided to all summer orientation parents and students.
- In September 2008, the second edition of the UNI-Alert Emergency response booklet was provided to all faculty and staff.
- In October 2008, Dave Zarifis, Public Safety Director, met with Faculty Senate to discuss cell phone policy and electronic devices in classrooms.
- In November 2008, Dave Zarifis met with Academic Heads to provide an update on the emergency management issues.

External Mass Voice Notification System

- American Technology Inc. has been contracted to provide a new outdoor voice notification system for the UNI campus. Installation of this system is completed and testing of the system was conducted on March 18, 2009.
- There are eight locations where speakers have been installed to provide coverage for campus.
- Speakers will provide siren and/or voice notification in the event of weather or other emergency incidents on campus.
- Speakers can be activated via dispatch or by remote location by UNI Police Mobile Command Unit.
- The campus is currently reviewing the potential of using the Simplex Fire Alarm voice system in conjunction with the ATI for internal building notification.
- The campus is reviewing the use of digital message boards, UNI-TV as another source of campus emergency notification.

THREAT ASSESSMENT AND MANAGEMENT

- Prior to the Virginia Tech shootings, UNI instituted a Critical Assessment and Consultation Team to review student issues.
- UNI established another team to review and consult on issues involving faculty, staff, and visitors whose activities and actions create concern. This group meets monthly, and as necessary, to identify and provide responses to these concerns.

- The Issues Group meets every Monday to discuss issues of importance to the campus and is a forum to provide information which may require additional attention due to the nature of the problem.
- In January 2008, four UNI representatives attended the National Threat Assessment seminar in San Diego, California.
- In February 2008, 8 UNI staff were provided 8 hours of Threat Assessment and Management review by Dr. Gene Deisinger of Iowa State University.
- UNI Counseling Center has increased staffing by 2.5 positions to ensure compliance with accreditation standards and response to students in need of services.

RELATIONSHIPS WITH OTHER LAW ENFORCEMENT ENTITIES

- UNI Police meet on a weekly basis with Cedar Falls Police to discuss active cases and problems within and around the campus.
- UNI Police meet monthly with local and county law enforcement agencies to discuss various crimes and investigative efforts within the communities.
- The Director of Public Safety is a Board member of the Tri-County Drug Task Force which meets monthly to discuss drug related cases and issues in Black Hawk and surrounding counties.
- UNI Police and the City of Cedar Falls Police Division work closely during major events on campus. We have partnered with local law enforcement during homecoming events with a joint operations center.

PHYSICAL SECURITY CAPABILITIES

- UNI continues to improve the physical security of its building by adding electronic locks to newly refurbished buildings to allow remote locking of facilities.
- Gilchrist Hall has been designed to accommodate an Incident Command Center, a phone center for emergency response and an Incident Command Operations Center. Each room is equipped with computer and phone service to serve the needs of emergency operations required within this facility.

- There are eleven emergency phones on campus which connect directly to UNI Police in the event of an emergency.
- There are currently eight cameras located on campus allowing surveillance of overnight parking facilities.

STAFFING

- The Department of Public Safety has a total of 18 sworn, state-certified police officers and 3 full-time dispatchers, 1 three-quarter time dispatcher and 2 part-time student dispatchers. UNI employs 15 students in the UNI student Patrol program.
- An organizational chart is attached.

TRAINING OF INSTITUTIONAL PERSONNEL

- Prior to arming of UNI Police, a **Public Safety Advisory Committee** reviewed the current and revised policies for UNI Police to include, Use of Force, weapons selection, firearms qualifications and concluded the policies met the Regent standards for arming. The Advisory Committee concluded the Department of Public Safety met all the criteria set forth for the officers to be armed and submitted their recommendation was submitted to President Allen prior to arming on a full time basis. The committee meets at least once a semester and is provided a review of the training materials and other departmental information regarding procedures, operations and training within the department.
- UNI Officers qualified with firearms in January and again in June and July of 2008. The training provided to UNI Police Officers exceeds State Standards for peace office qualifications. Training included four hours of classroom training on the Use of Force policy and 12 hours of range shooting.
- In August 2008, two officers were nationally certified in the Active Shooter Train the Trainer program, Fort Dodge, Iowa. This training provided the basic tactics and maneuvers required for rapid deployment of UNI officers in the event of an actual active shooter on campus.
- Two UNI Officers were certified as long rifle instructors for the department during the summer of 2008. This enables the department to training in long rifle certification in the event of an actual active shooter incident. This training will be conducted in the Spring to all members of the UNI Police Division.

- In September 2008, all UNI officers received four hours of classroom training and 12 hours of simulation training in Active Shooter response at UNI.
- In June and July of 2008, all officers were recertified in the use of Tasers.
- In September of 2008, two UNI officers were recertified as Taser Trainers at the Iowa Law Enforcement Academy.
- UNI is compliant with the National Incident Based Management System (NIMS) as required by law.
- Two staff were certified as instructors in the Community-Campus Emergency Response Training Program in October 2008.
- In June and July of 2008, Emergency/Safety information sessions were provided at Summer Orientation.
- An Emergency Call Center Volunteer Team was established.
 - Two informational sessions were held for the Call Center volunteers to outline the emergency call center operations.
- Two emergency response informational sessions were held for occupants of Gilchrist Hall.
- UNI Police work closely with the Department of Residence on matters concerning student safety with programming, and officer contacts with residence system employees. Public Safety provides safety talks to Resident Assistants and to residence hall students in the fall semester.
- UNI Officers continue to provide Rape Aggression Defense Training Program to the campus community as well as the Self Defense Awareness and Familiarization Exchange, and the S.A.F.E. program. The program offers information as to how to maintain their safety on and off campus. This programming has been offered to Students since 1990.
 - Total Rape Aggression hours taught – 192
 - Total number of students in class – 29
 - Total S.A.F.E. hours taught – 30
 - Total number of student in class - 190
- One UNI officer attended the Incident Command Training ICS 300 level Course of 16 hours.
- One UNI officer attended the Incident Command Level 400 course of 16 hours.

- The UNI Emergency Response booklet was provided to all faculty and staff in September 2007. Information related to reporting a concern about a student or others, referring students for counseling, classroom disruption, response to threats, the UNI Alert process and information, and student information disclosure were addressed in this booklet.

USE OF FORCE/FIREARMS

- During this reporting period, UNI Officers did display nor deploy any firearm toward any suspect.
- The department conducts semi-annual training for firearms qualification which exceeds national training standards. During this training, the departmental use of force is reviewed at each training session.
- Officers are equipped with chemical spray, batons, and conducted energy weapons which officers receive training annually.
- The department has two state-certified firearms instructors (ILEA). Two officers are also certified in the Advanced Law Enforcement Rapid Response Training (ALERRT). All UNI officers received 16 hours of training in the Active Shooter Programming.
- The Department is planning an active shooter training session with area law enforcement this summer.

STUDENT INVOLVEMENT

- The department currently employs 15 students patrol members to assist Police officers in various roles for campus patrols, building lock-up and unlocking services, assistance during move-in, and campus escort requests during the evening hours. In addition, Parking Operations employs 9 students who assist in the office and field operations.
- The department employs two student dispatchers within its operations.
- The UNI Police Division assisted Northern Iowa Student Government in the operation of the UNI Safe Ride initiated in 2007. This service provides transit around the campus and into the community on Friday and Saturday evenings. Operation of the Safe Ride was conceived as a result of the concern of students drinking and driving as well as safety issues. The service has provided 6,160 rides during this time period. NISG was nominated for, and was awarded the Governor's Traffic Safety Award for 2008.

SMOKING BAN

- The Department of Public Safety responded to 30 smoking complaints during 2008. No citations were issued and warnings were issued to those not in compliance.
- Signage was installed by the UNI Physical Plant designating No Smoking areas as required by law.

SAFETY AND SECURITY GOALS (2009 AND LONGER TERM)

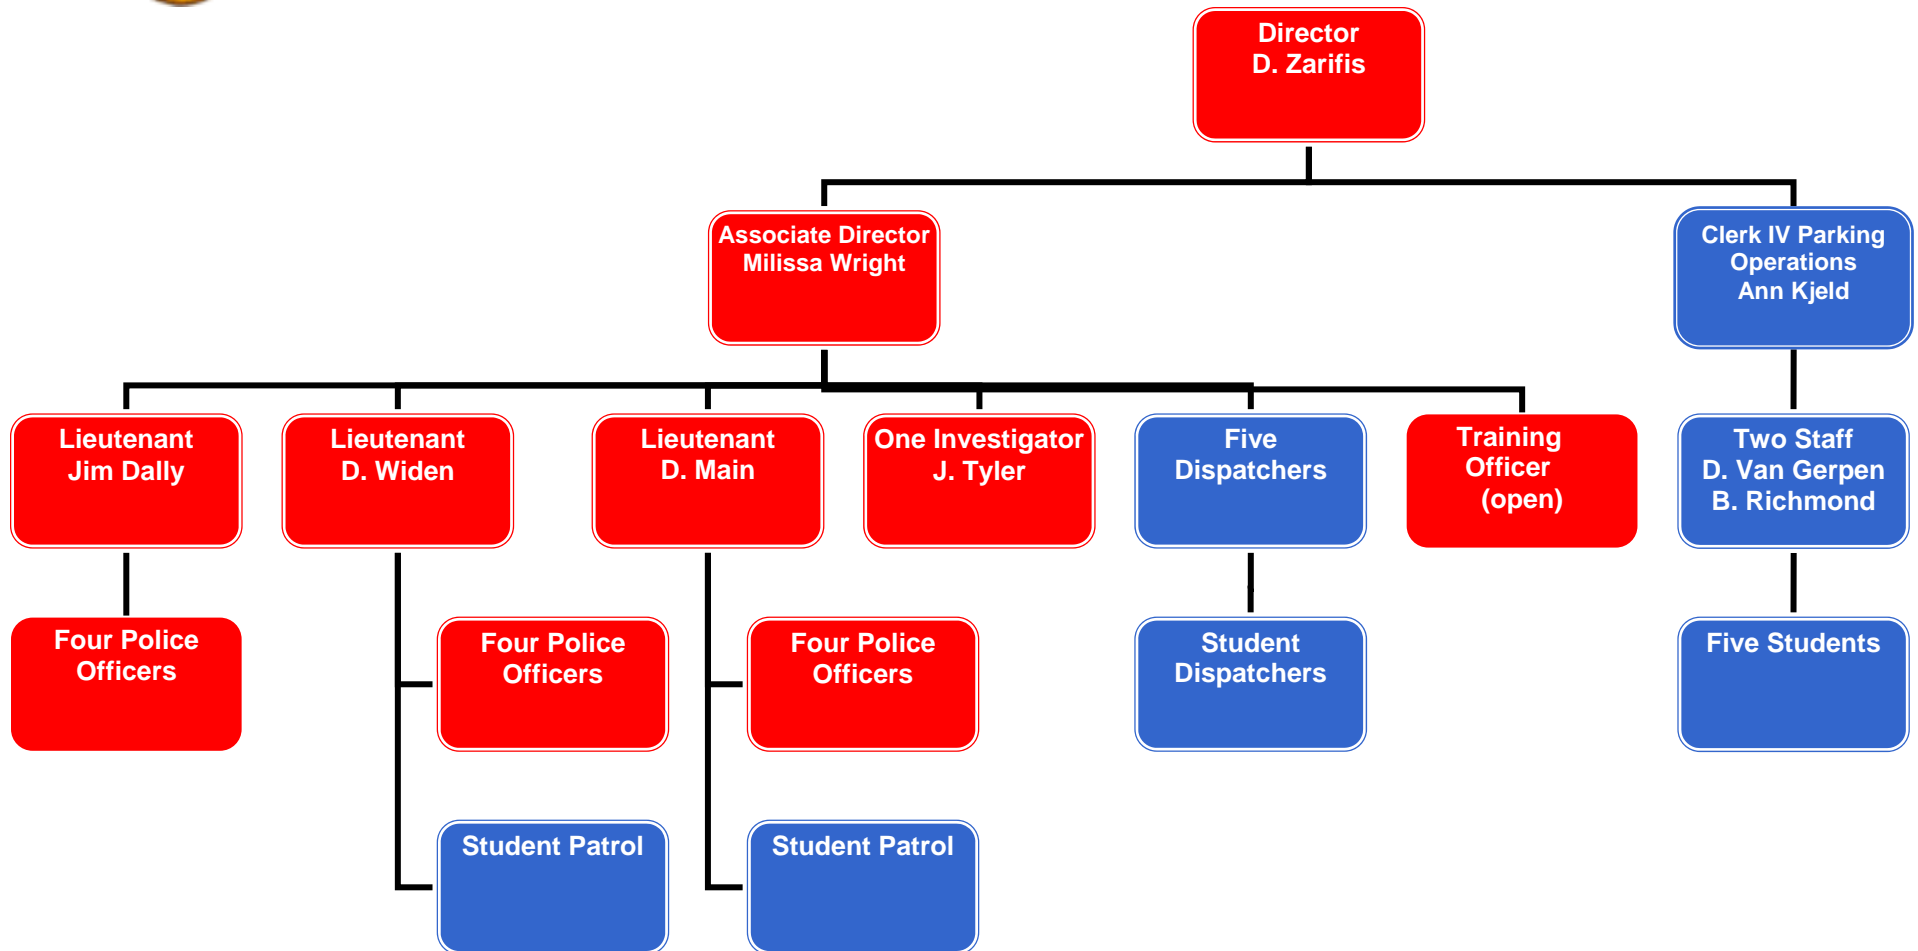

- In addition to the Violence Against Women Flagship Grant, UNI has applied for a Department of Justice Grant from the State of Iowa to establish a training platform allowing computer aided training in the area of violence against women to include sexual assault and domestic violence. This grant would be used to purchase existing software to develop on-line training for officers investigating and assisting victims of violence.
- Review existing records system to enhance the recording of UCR crime reports as well as the Clery Campus Crime required statistics.
- Continue training in areas of Active Shooter and Incident Management. We are planning a training session this summer with local police agencies.
- We are in the process of working with campus departments with cash handling responsibilities and outlining response measures in the event of an incident. We currently have a protocol set with the Verizon Bank in Maucker Union which is being used as a template for response and employee information.
