PROPOSED 2018-2019 TUITION AND FEES

Action Requested: Consider the proposed conditional tuition and mandatory fees for the 2018-2019 academic year as outlined in this memorandum, effective with the Fall 2018 session.

Final action is scheduled on the proposed rates for the June 2018 Board meeting.

Executive Summary: Consistent with the Board's strategic plan adopted in July, determining and fulfilling appropriate resource needs are essential in providing high quality public education, cutting-edge research, and needed public services. Predictability, transparency and long-term planning strategies are woven throughout the plan.

The Board's strategic plan calls for adequate support of Regent institutions from all sources and promoting the effective use of resources to meet institutional missions. The two key resource components are state appropriations and tuition revenue.

During the 2017 legislative session, the General Assembly approved state funding reductions to Regent appropriations totaling more than \$32 million resulting from lower than projected tax revenues. Recently, the 2018 General Assembly approved an additional \$11 million cut to the University of Iowa and Iowa State University (see Agenda Item 6q).

The Board has requested an appropriation increase for FY 2019 of \$12.0 million to be used for financial aid to resident undergraduate students. At the time of this writing, the General Assembly has not yet acted on FY 2019 funding levels.

During 2017, the Board established a Tuition Task Force (TTF) to facilitate public discussion regarding the issue of tuition at Iowa's public universities. The TTF charged the universities to develop and present a five-year tuition plan that provided predictability, sufficient resources for a high-quality education, and enabled progress on strategic objectives. The TTF acknowledged that given the different missions of the universities, varying tuition levels across the universities may occur.

While considering current state funding levels, the appropriation request, and operating costs that may be absorbed through efficiencies and reallocations, the tuition plan in this memorandum for the 2018-19 academic year includes base undergraduate resident increases of 3.8% for SUI and ISU and 2.8% for UNI. The universities also propose varying differential tuition rates for certain higher-cost programs. A summary of mandatory fees is provided on page 5 and a comprehensive list of all proposed tuition and fee rates for each university is on pages 10-13.

Undergraduate Tuition

The proposed base tuition increases to undergraduate resident and nonresident rates are provided below.

Undergraduate Base Tuition Proposals 2018-19 Academic Year								
	Resident				Nonresident			
	Current	Increase	Proposed	% Inc	Current	Increase	Proposed	% Inc
SUI	\$ 7,486	\$ 284	\$ 7,770	3.8%	\$ 29,130	\$ 606	\$ 29,736	2.1%
ISU	\$ 7,456	\$ 284	\$ 7,740	3.8%	\$ 21,292	\$ 852	\$ 22,144	4.0%
UNI	\$ 7,456	\$ 209	\$ 7,665	2.8%	\$ 17,998	\$ 209	\$ 18,207	1.2%

In addition to the base undergraduate resident and nonresident tuition increases, the universities request the following differential tuition rates for specific higher cost programs:

STATE UNIVERSITY OF IOWA

- The undergraduate programs with supplemental rates (Business, Engineering, Medicine, Nursing) are also proposed to increase 3.8% for residents and 2.1% for nonresidents.

IOWA STATE UNIVERSITY

ISU currently assesses differential tuition for upper-class students (after 60 credits) across two colleges (business and engineering) and for certain other degree programs (architecture, agricultural systems technology, industrial technology, animal science, biology, computer science, industrial design, and natural resources ecology and management). ISU proposes the establishment of new differential tuition rates for higher-cost programs with intensive hands-on or experiential components (such as laboratory-based or studio-based instruction and computer simulation-based learning). Assessing tuition in this manner continues ISU's decade-long practice (as at other universities) of aligning costs where they are incurred, rather than spreading those costs over the entire student population.

ISU's goal is to simplify differential tuition rates over the next three years by phasing into just two differential rate categories (Rates A & B).

- Rate A – includes a differential (\$1600 when fully phased-in) for resident, non-resident and international students majoring in experiential learning intensive science, technology, and mathematics programs in the Colleges of Agriculture and Life Sciences, Liberal Arts and Sciences, and Human Sciences; and within the College of Design, excluding the Art and Design BA in Visual Culture. These programs are:
 - All undergraduate and graduate studio-based majors in the College of Design, with differential tuition assessed upon entry into the program. Differential tuition will not be assessed to undergraduate students in the college's first year Core Design Program.
 - The following undergraduate majors will assess differential tuition for direct from high school and transfer students after 60 credits which typically coincides with the beginning of the students' third year.

Agricultural Biochemistry	Event Management
Agricultural Business	Food Science
Agronomy	Geology
Apparel, Merchandising, and Design	Global Resource Systems
Athletic Training	Horticulture
Biochemistry	Hospitality Management
Bioinformatics and Computational Biology	Kinesiology and Health
Biophysics	Mathematics
Chemistry	Meteorology
Culinary Food Science	Nursing
Data Science (pending program approval by Board in June 2018)	Nutritional Science
Diet and Exercise	Physics
Dietetics	Psychology
Earth Science	Statistics
Economics	
Environmental Science	

- The plan includes a two-year phase in for Animal Science, Biology, Computer Science, Industrial Design, Natural Resources Ecology and Management, Biological/Pre-Medical Illustration, Genetics, and Microbiology disciplines (which have an existing differential rate), and a three-year phase in for other programs. Within the College of Design, the rate will have a one-year phase in for Architecture (which has an existing differential rate) and a three-year phase-in for the other programs. Upon full implementation, the differential rates will be uniform across the College of Agriculture and Life Sciences, College of Design, College of Human Sciences, and the College of Liberal Arts and Sciences.
- **Rate B** – includes a differential (\$2,612 for resident students, and \$3,026 for non-resident and international students when fully phased-in) majoring in the Ivy College of Business; College of Engineering; and the agriculture systems technology and industrial technology programs within the College of Agriculture and Life Sciences. Differential tuition rates will be assessed for direct from high school and transfer students after 60 credits. This plan includes a two-year phase-in because of an existing differential rate at the junior and senior levels, and upon full implementation, the differential rates will be uniform across the College of Business and College of Engineering, and across the two programs within the College of Agriculture and Life Sciences.
- International Students – ISU is seeking an additional \$542 increase assessed to all International Students (non-immigrant status, defined as non-citizen students, as well as non-permanent residents). This is the final installment of a three-year plan to implement a tuition supplement for international students. This is in addition to the proposed rates for the various tuition types, and would be assessed for current as well as new international students. Tuition charged by peer institutions for international students indicates that after full implementation of the supplement, ISU’s rates would still be competitive.

UNIVERSITY OF NORTHERN IOWA

- UNI is requesting a 2.8% increase (\$48) to the existing differential rate for upper division students in the College of Business Administration.

Graduate and Professional Tuition

The proposed increases for graduate base tuition are as follows:

Graduate Base Tuition Proposals 2018-19 Academic Year								
	Resident				Nonresident			
	Current	Increase	Proposed	% Inc	Current	Increase	Proposed	% Inc
SUI	\$ 9,427	\$ 358	\$ 9,785	3.8%	\$ 28,163	\$ 563	\$ 28,726	2.0%
ISU	\$ 8,944	\$ 358	\$ 9,302	4.0%	\$ 22,656	\$ 908	\$ 23,564	4.0%
UNI	\$ 8,950	\$ 209	\$ 9,159	2.3%	\$ 19,424	\$ 209	\$ 19,633	1.1%

In addition to base tuition increases for graduate/professional programs, the universities have requested the following for the 2018-2019 academic year:

STATE UNIVERSITY OF IOWA

- The University proposes a tuition rate for graduate programs designed to lessen the gap between the UI tuition rate and the median tuition rate among UI’s peer group. For those degree programs whose tuition rate is currently at the UI peer median, the UI proposes a tuition rate increase of 2.0%.
- Collegiate Proposals
 - The Carver College of Medicine proposes to increase tuition rates for non-resident M.D. students by 2.0% (0.0% for resident M.D. students).
 - The Carver College of Medicine proposes to increase tuition rates for Iowa resident Physician Assistant program students by 3.0% and by 2.0% for non-resident Physician Assistant students.

- The Tippie College of Business requests a tuition supplement of \$10,948 for resident students and \$4,855 for non-resident students for the recently approved Master of Science in Finance (MSF) degree program. Based upon proposed 2018-19 graduate tuition rates, the supplements result in a resident MSF tuition rate of \$20,733 and a non-resident MSF tuition rate of \$33,581. Comparative peer data indicates that the proposed level of tuition is below the average for similar programs.
- The Tippie College of Business requests a tuition supplement of \$9,773 for resident students and \$3,637 for non-resident students for the recently approved on-campus Masters of Science in Business Analytics program. Based upon proposed 2018-19 graduate tuition rates, the supplements result in a resident tuition rate of \$19,558 and a non-resident tuition rate of \$32,363. Comparative peer data indicates that the proposed level of tuition is below the average for similar programs.
- The College of Pharmacy proposes to increase tuition rates for Iowa resident PharmD students by 5.8%.

IOWA STATE UNIVERSITY

Similar to the undergraduate differential rates, ISU's goal is to simplify graduate differential tuition rates over the next three years by phasing into the same two differential rate categories (Rates A & B).

- Rate A – the differential rate (\$1600 when fully phased-in) begins upon entry into the following graduate programs:
 - The following graduate programs beginning in the 2018-2019 academic year have a three-year phase in:

Agronomy	Geological & Atmospheric Sciences
Apparel, Events & Hospitality Management	Horticulture
Biochemistry, Biophysics and Molecular Biology	Kinesiology
Chemistry	Mathematics
Economics	Physics & Astronomy
Entomology	Psychology
Food Science and Human Nutrition	Statistics
 - The five graduate programs for which a differential tuition began during the 2017-2018 academic year (Animal Science, Biology, Computer Science, Industrial Design, and Natural Resources Ecology & Management) have a two-year phase in.
 - Within the College of Design, the differential rate will have a one-year phase in for Architecture (which has an existing differential rate).

Upon full implementation, the differential rates will be uniform across the College of Agriculture and Life Sciences, College of Design, College of Human Sciences, and the College of Liberal Arts and Sciences.

- Rate B - includes a differential (\$2,612 for resident students, and \$3,026 for non-resident and international students when fully phased-in) for graduate students in the Ivy College of Business; College of Engineering; and the agriculture systems technology and industrial technology programs within the College of Agriculture and Life Sciences.
- ISU proposes a 4% increase to all Veterinary Medicine students to maintain and upgrade diagnostic equipment, imaging equipment, medical supplies to incorporate new technological advances, and to support faculty as leaders in veterinary curriculum development and teaching.

- International Students – ISU is seeking an additional \$542 increase assessed to all International Graduate Students (non-immigrant status, defined as non-citizen students, as well as non-permanent residents). This is the final installment of a three-year plan to implement a tuition supplement for international students.
- Executive MBA Program – The new Executive Master of Business Administration program offers customized content valuable to executive employees of agriculture, food and biosciences firms. Students in the program will be charged a tuition rate of \$33,966 and technology fees of \$284. Funds from the program will support customized course content, catering for program events, travel for all students to attend one course in Washington D.C. and one international destination, and the hiring of a program director.

UNIVERSITY OF NORTHERN IOWA

- UNI is requesting a \$48 increase to the existing differential rate for graduate students in the College of Business Administration.

Projected Tuition Revenue

The proposed tuition rates for 2018-19 are projected generate approximately \$24.9 million in incremental revenue for FY 2019. Assuming no further changes in state funding, the projected incremental tuition revenue partially offset by the recent state funding reduction, results in a projected 0.9% increase in the Regent Higher Education budget for FY 2019.

The Higher Education Price Index (HEPI) documents inflation affecting the higher education industry, allowing colleges and universities to determine the increase in funding required each year to maintain real investment. The Institute for Economic Research at the University of Iowa projects HEPI for FY 2019 to range between 1.2% and 2.8% with a midpoint of 2.0%.

Mandatory Fees

Mandatory fees, charged to each student, provide a distinct resource to respond to specific needs of students. Provided below are the proposed 2018-19 mandatory fees for each university.

Mandatory Fee Proposals												
	SUI				ISU				UNI			
	Actual	Proposed	Increase		Actual	Proposed	Increase		Actual	Proposed	Increase

STATE UNIVERSITY OF IOWA

The University proposes an overall increase in mandatory student fees of 1.2% (\$18).

- Technology – The University proposes a 2.0% increase to all technology fees for 2018-19 with the exception of the College of Engineering. The College of Engineering is requesting a 2.8% increase in its technology fee.
- Recreation – The proposed 2.8% increase (\$8) to meet the debt service schedule for the Campus Recreation and Wellness Center in accord with the financial plan approved for the project.

IOWA STATE UNIVERSITY

The University proposes an overall increase in mandatory student fees of 5.8% (\$68.50).

- Technology – Last year, the University proposed a two-year phased increase of \$30/yr to the technology fee had previously remained unchanged since 2009. This is the second and final year of that proposed increase. The technology fee will assist ISU in enhancing cyber security and provide upgrades to the Student Information System.

ISU's College of Design proposes an additional \$216 technology fee increase for Design majors after they have completed the Core Design Program. First-year undergraduates will be assessed the standard technology fee. The fee will enable the College to upgrade multiple design-specific technologies allowing students to work with current digital ideation tools and fabrication tools to prepare for professional practice.

- Student Services – The proposed \$8.50 increase will support projected CyRide cost increases for fuel, labor, and additional bus services.
- Building Fee – The proposed \$30 increase in the building fee will fund renovations and critical infrastructure upgrades to the Memorial Union as voted on by the students.

UNIVERSITY OF NORTHERN IOWA

The University proposes an overall increase in mandatory student fees of 2.4% (\$30).

- Health – An \$8 increase is requested to support salaries for health service personnel in the Student Health Clinic and Counseling Center and an increased use of health services.
- Recreation – The proposed \$10.50 increase will allow programs to be maintained at their current level and add new ones in response to student interests. The fee funds drop-in recreation, intramurals, and other fitness programs for which no additional fee is charged to students. It will fund increased student wages, utility assessments, equipment and overhead costs.
- Building – The Building Fee provides the revenue stream to meet bonding requirements for the renovation and the expansion of the Maucker Union and repairs to the UNI-Dome. The proposed \$11 increase results from a change in the fee structure at the credit hour level. Part-time students taking 6-11 hours will now be charged 75% of the building fee (consistent with SUI & ISU) versus 100% of the fee in UNI's prior structure.

Estimated Cost of Attendance

Iowa Code §262.9(19) requires the Board to publish the estimated total cost of attending the Regent universities, including room and board and other costs, at the same time that it publishes final tuition and mandatory fees.

Based on the preceding tuition proposal and university projected increases for room, board, and other costs, the following table estimates the total cost of attendance for a resident undergraduate student.

Other costs, as quantified for financial aid calculations, include the universities' estimates of student costs for books, supplies, transportation and personal expenses.

2018-19 Academic Year Resident Undergraduate Estimated Cost of Attendance						
	Tuition & Mandatory Fees*	Room & Board*	Other Costs**	Estimated Totals**	\$ Increase from 2017-18	% Increase
SUI	9,266.50	9,596.00	3,239.00	22,101.50	600.00	2.8%
ISU	8,988.40	8,720.00	3,464.00	21,172.40	594.50	2.9%
UNI	8,938.00	8,948.00	2,950.00	20,836.00	406.00	2.0%
Average	9,064.30	9,088.00	3,217.67	21,369.97	533.50	2.6%
* Proposed ** Estimated						

Peer Groups

The following tables compare current resident and non-resident undergraduate tuition and fee rates with the Board-established peer groups. Generally, the Regent universities are at or near the bottom of their respective peer groups and all rates are significantly below the average. Comparisons for other student classifications are available in the Board Office.

State Comparisons

The table below contains a sampling of 13 states represented in the Regent universities peer comparison groups and/or are contiguous to Iowa. The graph provides the:

- Average public university resident undergraduate tuition and fees charged in each state as a percentage of each state’s median household income.
- State rank (shown below in parentheses) which reflects the tuition/fees to median household income as a percentage, with one being the state with the lowest percentage and 50 the highest. Note: The national average is 16.6% (applies equal weight to each state).
