

Contact: Brad Berg

PROPOSED 2019-2020 TUITION AND FEES

Action Requested: Consider the proposed conditional tuition and mandatory fees for the 2019-2020 academic year as outlined in this memorandum, effective with the Fall 2019 session.

Final action is scheduled on the proposed rates for the June 2019 Board meeting.

Executive Summary: Consistent with the Board's strategic plan, determining and fulfilling appropriate resource needs are essential in providing high quality public education, cutting-edge research, and needed public services. Predictability, transparency and long-term planning strategies are woven throughout the plan.

Regent institutions need adequate support from all sources, while promoting the effective use of resources to meet institutional missions and to maintain the quality of education Iowans expect. In recent years, the Board has collectively examined the two main resource components available – tuition and state appropriations – as well as the reallocations/efficiencies necessary to strengthen Iowa's public universities.

In 2017, the Board established a Tuition Task Force (TTF) to facilitate public discussion regarding the issue of tuition at Iowa's public universities. A key aspect from these discussions with students, families and legislators was predictability. The TTF charged the universities to develop and present a five-year tuition plan that provided predictability, sufficient resources for a high-quality education, and enabled progress on strategic objectives. The TTF also acknowledged that given the different missions of the universities, varying tuition levels across the universities may occur.

In November 2018, the Board discussed the total resources necessary to maintain and strengthen the Regent universities and the importance of predictability. Undergraduate resident tuition rate guardrails were established for SUI and ISU depending on state funding levels. The Board also recognized the importance for UNI to be more competitive in pricing with other regional comprehensive universities.

The Board requested an appropriation increase for FY 2020 of \$18.0 million (SUI - \$7M; ISU - \$7M; UNI - \$4M) to be used for financial aid to resident undergraduate students. Pending the Governor's signature, the General Assembly has approved an appropriation increase of \$12.0 million for FY 2020 to be allocated across the three universities by the Board.

While considering current state funding levels, the appropriation request, and operating costs that may be absorbed through efficiencies and reallocations, the tuition plan in this memorandum for the 2019-20 academic year includes base undergraduate resident increases of 3.9% for SUI and ISU and 0.0% for UNI. The universities also propose varying differential tuition rates for certain higher-cost programs. A summary of mandatory fees is provided on page 6 and a comprehensive list of all proposed tuition and fee rates for each university is on pages 12-15.

Undergraduate Tuition

The proposed 2019-20 base tuition and fee increases to undergraduate resident and nonresident rates are provided below. UNI proposes no changes (0.0% increase) to the current tuition and fee rates.

UNDERGRADUATE	Base Tuition				Mandatory Fees				Total Base Tuition and Mandatory Fees			
	2018-19	2019-20	Incr	% Incr	2018-19	2019-20	Incr	% Incr	2018-19	2019-20	\$ Incr	% Incr

¹ Most undergraduate students are in the College of Liberal Arts & Sciences

In addition to the base undergraduate resident and nonresident tuition increases, the universities request the following differential tuition rates for specific higher cost programs:

STATE UNIVERSITY OF IOWA

- The Tippie College of Business requests an additional tuition supplement increase of \$200 for both lower and upper division students. The increase would provide support for additional faculty and staff for growth areas in the college’s undergraduate program.
- The College of Nursing requests a tuition supplement of \$200 for undergraduate students. The increase would provide additional funding to attract tenured and non-tenured faculty to fill adjunct teaching assignments necessary to stabilize and support course offerings.

IOWA STATE UNIVERSITY

Over a 3-year period, Iowa State’s goal is to align tuition rates for three fields of study:

- 1) business, engineering, agricultural systems technology, industrial technology;
- 2) experiential and studio-based programs, architecture; and
- 3) all other majors that do not pay differential tuition.

Further, ISU’s goal is to simplify differential tuition rates over three years by phasing into just two differential rate categories (Rates A & B). Unless noted otherwise, differential tuition applies after 60 credits have been attained by the student, which typically coincides with the beginning of the students’ third year.

- **Rate A:** An academic year differential of \$1,600 (established in the 2018-2019 academic year and to be adjusted for annual rate increases) for resident, non-resident and international students majoring in experiential learning intensive science, technology, mathematics and architecture programs in the Colleges of Agriculture and Life Sciences, Liberal Arts and Sciences, and Human Sciences; and within the College of Design, excluding the Art and Design BA in Visual Culture.

The plan for Rate A includes: completing the multi-year phase in for Animal Science, Biology, Computer Science, Industrial Design, Natural Resources Ecology and Management, Biological/Pre-Medical Illustration, Genetics, and Microbiology disciplines (which have an existing differential rate); and year 2 of a 3-year phase in for the other experiential and studio-based programs. Upon full implementation, the differential rates will be uniform across the

College of Agriculture and Life Sciences, College of Design, College of Human Sciences, and the College of Liberal Arts and Sciences.

- **Rate B:** An academic year differential of \$2,612 for resident students, and \$3,026 for non-resident and international students (established in the 2018-2019 academic year and to be adjusted for annual rate increases), majoring in the Ivy College of Business; College of Engineering; and the agricultural systems technology (AST) and industrial technology (ITEC) programs within the College of Agriculture and Life Sciences.

ISU proposes extending the differential tuition rate for students majoring in engineering, AST and ITEC to begin at the sophomore level, beginning with Fall 2019. These students have intensive hands-on or experiential components (such as laboratory-based instruction, computer simulation-based learning, and smaller section sizes similar to upper-level students). Again, assessing tuition in this manner continues ISU's decade-long practice of aligning costs where they are actually incurred, rather than spreading those costs over the entire student population.

Differential tuition rates will be assessed for direct from high school and transfer students after 30 credits for students majoring in engineering, AST and ITEC, and after 60 credits for students majoring in business, which typically coincides with the beginning of the students' third year, or 6 semesters (including summer terms).

Rates will be applied to both undergraduate and graduate students in impacted programs.

The plan for Rate B includes: completing the multi-year phase-in at the junior, senior and most graduate student levels because of existing differential rates; year 2 of a 3-year phase-in for ITEC at the graduate student level; and year 1 of a 3-year phase-in for the engineering, AST and ITEC sophomores. Upon full implementation, the differential rates will be uniform across the College of Business and College of Engineering, and across the two programs within the College of Agriculture and Life Sciences.

The revenue generated through new differential tuition assessments will be used to maintain the quality of the academic programs and support the cost of instruction, which includes: salaries and other direct instructional costs such as the hiring and retention of faculty, modernization of laboratory equipment and instructional technology, renovation and renewal of instructional facilities, equipment and lab supplies, and other related expenses; administration; student services; library and technology access; facilities and operations; and equipment.

Graduate and Professional Tuition

The proposed increases for graduate base tuition and fees are as follows:

GRADUATE	Base Tuition				Mandatory Fees				Total Base Tuition and Mandatory Fees			
	2018-19	2019-20	Incr	% Incr	2018-19	2019-20	Incr	% Incr	2018-19	2019-20	\$ Incr	% Incr
UNIVERSITY OF IOWA												
Resident	9,785.00	10,079.00	294.00	3.0%	1,550.50	1,586.50	36.00	2.3%	11,335.50	11,665.50	330.00	2.9%

In addition to base tuition increases for graduate/professional programs, the universities request the following for the 2019-2020 academic year:

STATE UNIVERSITY OF IOWA

- Tippie College of Business (TCOB):
 - MS in Business Analytics: Increase resident and non-resident tuition and tuition supplement charges to match the tuition and tuition supplements charged students in the MS – Finance program. The program is designed to self-sustaining and will support operational costs and recruiting efforts.
 - MBA: As approved by the Board in 2017, the College is discontinuing the full-time, on-campus MBA program. TCOB proposes to reduce the base resident tuition from \$22,380 to \$12,600; and to reduce the base non-resident tuition from \$40,900 to \$33,582. This aligns on-campus tuition rates with those established for the Professional Masters of Business Administration (PMBA) program at the off-campus sites and will only be used in rare occasions should an off-campus program student take a course on-campus in another Tippie graduate program.
- College of Dentistry: In addition to base tuition increases (3% and \$300), increase resident and non-resident DDS tuition by \$3,000 for the Fall 2019 entering class. Tuition for current DDS students would be increased at the base tuition graduate/professional rates. Changes in the Medicaid program have led to decreases in reimbursement rates and the proceeds will be used to support and enhance the predoctoral DDS program.
- College of Education: Increase the tuition supplement for non-resident students by \$49 in addition to the base tuition increase. The proposed rate reflects a 1.1% increase over the current year.
- College of Law: In lieu of the \$300 non-resident tuition increase, the College of Law proposes to increase non-resident tuition by 2% (\$898) to continue providing competitive scholarship offers, recruitment of the highest caliber faculty, and student services.
- Carver College of Medicine (CCOM):
 - MS in Athletic Training (MSAT): The CCOM proposes a two-year, \$37,200 program fee for both resident and non-resident students in the new MSAT program (\$18,600 per academic year). The first cohort of 12-14 students is expected to be admitted this summer.
 - MS in Clinical Nutrition: A new degree program, the CCOM proposes to charge resident students the standard resident graduate tuition rate, and to charge non-resident students two times the resident graduate rate (\$10,079 and \$20,158).
 - Doctor of Physical Therapy (DPT): The CCOM proposed to hold flat the tuition rate for both resident and non-resident students in the DPT program.
 - Physician Assistant (PA): The CCOM proposes a 2.0% increase for resident students in the PA program (in lieu of the standard 3.0% increase). CCOM also proposes a 1.0% increase for non-resident students in the PA program (in lieu of the standard \$300 increase). The resident tuition rate for the program ranks second lowest among the peer group and non-resident ranks the sixth highest. Based on these placements, a slightly higher increase is requested for resident students.
 - MD: The CCOM proposes to hold flat the resident and non-resident tuition rates for the MD program.

- College of Nursing:
 - Doctor of Nursing Practice: In addition to the \$300 base tuition increase, increase the tuition supplement for non-resident students in the Doctor of Nursing Practice program by \$295. The proposed rate reflects a 1.5% increase over the current year.
 - MS in Nursing: In addition to the \$300 base tuition increase for non-resident students, increase the tuition supplement by \$231. The proposed rate reflects a 1.5% increase over the current year.
- College of Pharmacy: In addition to the 3% rate increase, increase the resident PharmD tuition supplement by \$383; and hold flat non-resident PharmD tuition at \$43,148. The College believes the proposal optimizes market conditions in order to deliver an optimal educational experience.
- College of Public Health: In addition to the respective base increases, increase the tuition supplement for resident students by \$1,029 and by \$330 for non-resident students in the Master of Health Administration program (MHA). The resident tuition for the MHA degree has fallen to the bottom among the top programs in this field. Comparative peer data demonstrate that even after the requested ten percent increase, resident tuition at the University of Iowa will remain below the resident average in comparable programs.

IOWA STATE UNIVERSITY

Similar to the undergraduate differential rates, the 2019-2020 tuition rate proposal will continue to make progress in simplifying graduate differential tuition rates over the next two years by phasing into the same two differential rate categories (Rates A & B). The proposed graduate tuition rates for each program are provided on pages 14-15.

Many of ISU's graduate programs are interdisciplinary in nature, spanning multiple departments across the institution. Consistent with current practice, differential tuition at the graduate level is assessed to students pursuing interdisciplinary graduate degrees if their home department is assessed differential tuition. In general, if the undergraduate degree programs have differential tuition, so do the graduate programs.

- Rate A: An academic year differential of \$1,600 (established in the 2018-2019 academic year and to be adjusted for annual rate increases) begins upon entry into the graduate programs for students in animal science, biology, computer science, industrial design, natural resource ecology and management, and experiential and studio based programs in the colleges of Agriculture and Life Sciences, Design, Liberal Arts and Sciences, and Human Sciences. Upon full implementation, the differential rates will be uniform for these graduate programs.
- Rate B - An academic year differential of \$2,612 for resident and \$3,026 for non-resident and international (established in the 2018-2019 academic year and to be adjusted for annual rate increases) begins upon entry into the graduate programs for students in the Ivy College of Business, College of Engineering, the software engineering program in the colleges of Engineering and Liberal Arts and Sciences, and the agriculture systems technology and industrial technology programs within the College of Agriculture and Life Sciences.
- ISU proposes a 4% increase to Veterinary Medicine to resident and non-resident students in years 1-3 and a 3% increase to those in year 4 of the program. The additional revenue will maintain practical teaching experiences for students, upgrade diagnostic equipment, imaging equipment, medical supplies to incorporate new technological advances, and to support faculty as leaders in veterinary curriculum development and teaching.

- Executive MBA Program – The pricing for this program will allow the Ivy College of Business to develop specialized content for senior leaders in the food, agriculture and bio systems industries important to the State of Iowa and the university. The pricing is set at a level that will attract senior leaders in these fields. Students in the program will be charged a tuition rate of \$33,966 and technology fees of \$284. Funds from the program will support customized course content, catering for program events, travel for all students to attend one course in Washington D.C. and one international destination.
- Master of Real Estate Development - The new Master of Real Estate Development program will have a 21-month cohort-based curriculum directed at working professionals in the real estate industry and related fields. The tuition rate for the first year is \$16,020 plus applicable mandatory fees.

HEPI and Projected Tuition Revenue

Inflation impacts higher education in the same manner it affects other segments of the economy. The Commonfund Institute computes the Higher Education Price Index (HEPI) annually. HEPI measures the average relative level in the prices of a fixed market basket of goods and services purchased by colleges and universities through educational and general expenditures, excluding research. HEPI documents inflation affecting the higher education industry, allowing colleges and universities to project future budget increases necessary to preserve purchasing power and to maintain real investment.

Since the Board determines tuition increases well in advance of the actual expenditure of funds, the Board has utilized inflation projections. The Institute for Economic Research at the University of Iowa prepares HEPI projections for future years. The Higher Education Price Index (HEPI) documents inflation affecting the higher education industry, allowing colleges and universities to determine the increase in funding required each year to maintain real investment. The Institute for Economic Research at the University of Iowa projects HEPI for FY 2020 to range between 1.1% and 2.8% with a midpoint of approximately 2.0%.

The proposed tuition rates at SUI and ISU combined are projected generate approximately \$17.8 million in incremental revenue for FY 2020.

Mandatory Fees

Mandatory fees, charged to each student, provide a distinct resource to respond to specific needs of students. Provided below are the proposed 2019-20 mandatory fees for each university.

	Mandatory Fee Proposals											
	SUI				ISU				UNI			
	Actual 2018-19	Proposed 2019-20	Increase \$	%	Actual 2018-19	Proposed 2019-20	Increase \$	%	Actual 2018-19	Proposed 2019-20	Increase \$	%

Medicine (MD/PA)	313.00	401.00	88.00	28.1%					

STATE UNIVERSITY OF IOWA

The University proposes an overall increase in mandatory student fees of 2.4% (\$36).

- **Technology** – The University proposes a 2.8% increase to the standard technology fee with varying increases to certain colleges and programs as provided on the previous page. The revenue generated from these increases will help fund equipment and software upgrades and salary costs for personnel providing IT support to students. The Carver College of Medicine requests an \$88 fee increase to medical and physician assistant students to help fund the needed hardware and technology upgrades needed in these areas.
- **Mental Health** – The proposed \$4 increase to the Mental Health Fee will support the hiring of an additional Case Manager to support the increase in service demand in University Counseling Services and the Office of Student Care and Assistance. The fee increase will also support the hiring of an additional staff psychologist who will provide direct clinical services to students and oversee suicide prevention initiatives.
- **Arts and Cultural Events** – This fee pays for nearly all of the costs of producing student events on campus and keeps the price of tickets for students free or very modestly priced. Instituted in 2006 at \$20 per year, the fee has increased only \$6 in a 12-year period (0.25% annually). The proposed \$8.00 increase will provide necessary funding for student labor, sustain and possibly increase the number of guest artists, meet production budgets, and maintain free/low ticket prices for students.
- **Recreation** – A 2.7% increase (\$8) is proposed to meet the debt service schedule for the new Campus Recreation and Wellness Center in accord with the financial plan approved for the project and fund on-going operational and maintenance expenses.

IOWA STATE UNIVERSITY

The University proposes an overall increase in mandatory student fees of 2.4% (\$29.50).

- **Student Activities** - The proposed total increase for this fee of \$18.50 will support two student initiatives. An allocation of \$2.50 of the proposed increase will support Student Government. The remaining \$16.00 provides a permanent funding source to sustain business operations of the student-run newspaper (Iowa State Daily).
- **Student Services** – This fee, university support, the City of Ames, and fare box revenue jointly fund CyRide. CyRide estimates they served 6.5 million riders last year with the majority being students. The proposed \$11.00 increase reflects projected cost increases for fuel and labor as well as maintaining quality and safe service due to increasing demand.

UNIVERSITY OF NORTHERN IOWA

The University proposes no changes to the current mandatory student fees.

Estimated Cost of Attendance

Iowa Code §262.9(19) requires the Board to publish the estimated total cost of attending the Regent universities, including room and board and other costs, at the same time that it publishes final tuition and mandatory fees.

Based on the proposed base tuition rates, room and board rates, and other costs, the following table estimates the total cost of attendance for a resident undergraduate student.

Other costs, as quantified for financial aid calculations, include the universities' estimates of student costs for books, supplies, transportation and personal expenses.

2019-20 Academic Year Resident Undergraduate Estimated Cost of Attendance						
	Tuition & Mandatory Fees*	Room & Board	Other Costs**	Estimated Totals**	\$ Increase from 2018-19	% Increase
SUI	9,605.50	9,783.00	3,800.00	23,188.50	526.00	2.3%
ISU	9,319.90	9,149.00	3,471.00	21,939.90	509.50	2.4%
UNI	8,938.00	9,160.00	3,149.00	21,247.00	411.00	2.0%
Average	9,287.80	9,364.00	3,473.33	22,125.13	482.17	2.2%
* Proposed ** Estimated						

Peer Groups

The following tables compare current resident and non-resident undergraduate tuition and fee rates with the Board-established peer groups. Generally, the Regent universities are at or near the bottom of their respective peer groups and all rates are significantly below the average. Comparisons for other student classifications are available in the Board Office.

UNI TUITION/FEE PEER GROUP COMPARISON

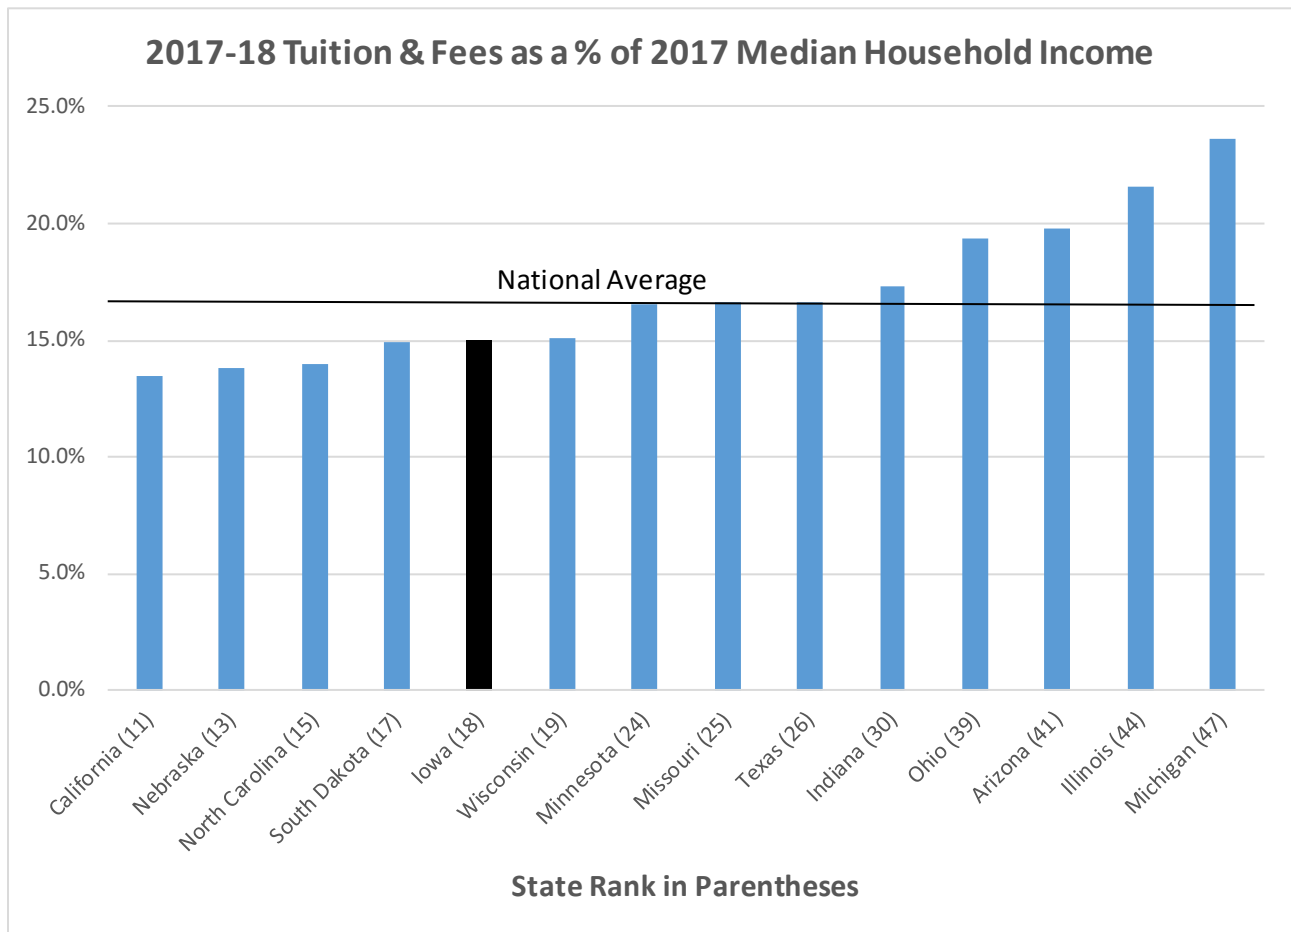

The following table compares current resident undergraduate tuition and fee rates for UNI with the Board-established peer group. The table also includes a rate variance comparison between the peer group and the corresponding Research 1 (R1) universities for each respective state. UNI's rates are near the bottom of the peer group and significantly closer to the rates of Iowa's R1 universities than the average variance of the peer states.

HOUSEHOLD INCOME AND TUITION COMPARISONS

The table below contains a sampling of 13 states represented in the Regent universities peer comparison groups and/or are contiguous to Iowa. The graph provides the:

- Average public university resident undergraduate tuition and fees charged in each state as a percentage of each state’s median household income.
- State rank (shown below in parentheses) which reflects the tuition/fees to median household income as a percentage, with one being the state with the lowest percentage and 50 the highest. Note: The national average is 16.6% (applies equal weight to each state).
