

**Contacts: Brad Berg**

**PROPOSED 2023-2024 TUITION AND FEES**

**Action Requested:** Consider the proposed tuition and mandatory fee rates for the 2023-2024 academic year as outlined in this memorandum, effective beginning with the Fall 2023 session.

Final action is scheduled on the proposed rates for the June 2023 Board meeting.

**Executive Summary:** Consistent with the Board’s strategic plan, determining and fulfilling appropriate resource needs are essential in providing high quality public education, cutting-edge research, and needed public services. Predictability, transparency and long-term planning strategies are woven throughout the plan.

The Board considers the total resources necessary to maintain and strengthen the Regent universities. Regent institutions need adequate support from all sources, while promoting the effective use of resources to meet institutional missions and to maintain the quality of education Iowans expect. In recent years, the Board has collectively examined the two main resource components available – tuition and state appropriations – as well as the reallocations/efficiencies necessary to strengthen Iowa’s public universities.

At its September 2022 meeting, the Board requested an appropriations increase for FY 2024 (2023-2024 academic year) of \$32.0 million for the general university appropriations that support Regent higher education. Pending the Governor’s signature and as enacted by the General Assembly, the general university appropriations remain flat for FY 2024 (0% increase) when compared to the current year. However, the legislature did appropriate additional education-related special purpose funding totaling \$7.1 million for the College of Nursing at SUI (\$2.8M), STEM workforce initiatives at ISU (\$2.8M), and teacher student recruitment efforts at UNI (\$1.5M).

While considering the state support, operating costs that may be absorbed through efficiencies and reallocations, and the expected inflationary impact to higher education budgets, the proposed tuition rates in this memorandum for the 2023-24 academic year includes base undergraduate resident increases of 3.5% at each university (\$305 at SUI; \$304 at ISU; \$285 at UNI). The universities also propose varying tuition rates for non-resident, graduate and professional students as well as differential rates for certain programs. A summary of mandatory fees is provided on page 4 and a comprehensive list of all proposed tuition and fee rates for each university is on pages 9-12.

**Undergraduate Tuition**

The proposed 2023-24 base tuition rates for undergraduate resident and nonresident students are provided below.

**Proposed Regent Tuition Rates - Academic Year 2023-24**

UNDERGRADUATE	Base Tuition			
	2022-23	2023-24	Incr	% Incr
<b>UNIVERSITY OF IOWA</b>				
Resident	8,711.00	9,016.00	305.00	3.5%
Nonresident	30,674.00	30,979.00	305.00	1.0%
<b>IOWA STATE UNIVERSITY</b>				
Resident	8,678.00	8,982.00	304.00	3.5%
Nonresident	25,162.00	26,168.00	1,006.00	4.0%
<b>UNIVERSITY OF NORTHERN IOWA</b>				
Resident	8,111.00	8,396.00	285.00	3.5%
Nonresident	19,265.00	19,940.00	675.00	3.5%

Funding from the proposed tuition increases will help address growing financial challenges including inflationary cost increases, recruiting and retaining faculty and staff in national markets, meeting collective bargaining terms (e.g. AFSCME & UNI United Faculty), deferred maintenance needs in academic facilities, and student financial aid to provide higher education opportunities to more students.

In addition to the base undergraduate resident and nonresident tuition increases, SUI and ISU request the following differential tuition rates for specific higher cost programs as described below. Assessing tuition in this manner aligns costs where they are incurred rather than spreading those costs over the entire student population.

**STATE UNIVERSITY OF IOWA**

- The Radiation Sciences Program of the Carver College of Medicine is requesting a tuition increase of \$1,394 for on-campus resident and non-resident undergraduate students for Fall 2023. This is the year-one request of a three-year phasing in of tuition increases to ultimately reach a balanced budget. The increase is needed to fully fund the Radiation Sciences Program which is currently running a budget deficit. The program is essential to SUI’s mission and the University of Iowa Hospitals and Clinics, as it provides healthcare personnel in the areas of diagnostic imaging and radiation therapy. There are critical shortages of these healthcare personnel. A review of peer institutions with Undergraduate Baccalaureate Degrees in Radiation Sciences demonstrates that SUI’s target tuition is comparable, particularly when looking at programs associated with academic medical centers.

**IOWA STATE UNIVERSITY**

- ISU’s Ivy College of Business proposes to align tuition rates for sophomore students majoring in business with junior and senior business majors over a 3-year period. The College proposes and increase of \$1,010 for applicable resident students and \$1,192 for non-residents beginning Fall 2023. Once fully implemented, the differential tuition rate structure will be further simplified for sophomore, junior, and senior-level undergraduate classifications in these degree programs. Sophomore business students have intensive hands-on or experiential components (such as formal and informal interactions with the faculty, involvement in industry consulting projects and case-based learning, smaller section sizes similar to upper-level students, and access to a growing number of programs and increased opportunities for double-majors, certificates, and minors). Almost half of business sophomores already enroll in 300- or 400- level courses and this proposal will allow students to more easily add a second business major, minor, or certificate.

**Graduate and Professional Tuition**

The proposed 2023-24 base tuition and fee rates for graduate resident and nonresident students are as follows:

<b>GRADUATE</b>	<b>Base Tuition</b>			
	<b>2022-23</b>	<b>2023-24</b>	<b>Incr</b>	<b>% Incr</b>
<b>UNIVERSITY OF IOWA</b>				
Resident	10,875.00	11,256.00	381.00	3.50%
Nonresident	29,822.00	30,203.00	381.00	1.28%
<b>IOWA STATE UNIVERSITY</b>				
Resident	10,572.00	10,996.00	424.00	4.0%
Nonresident	26,776.00	27,848.00	1,072.00	4.0%
<b>UNIVERSITY OF NORTHERN IOWA</b>				
Resident	9,691.00	10,030.00	339.00	3.5%
Nonresident	20,774.00	21,502.00	728.00	3.5%

Variations from the base rate proposals for certain graduate programs for SUI and ISU are provided below.

STATE UNIVERSITY OF IOWA

- College of Law: The College of Law proposes a 3.5% increase in the non-resident tuition rate.
- Carver College of Medicine (CCOM):
  - MD Program: The CCOM proposes no increase in the resident and non-resident tuition rate for MD students.
  - Master of Science in Athletic Training: The MS in Athletic Training program proposes a 2.5% increase for both resident and non-resident students.
  - The Doctor of Physical Therapy proposes no increase in tuition for both resident and non-resident students.
  - Master of Clinical Nutrition: The MS in Clinical Nutrition program proposes a 2% increase in the tuition rate for resident students to allow the program to remain competitive.
- College of Nursing: To remain competitive, the College of Nursing proposes no increase in the tuition rates for resident and for non-resident graduate students.
- College of Pharmacy: The College of Pharmacy proposes a small increase of \$138 in the tuition rates for resident and non-resident students in the PharmD program to offset some additional costs. The intent is to stem the loss of quality students resulting in smaller class sizes by keeping tuition rates competitive.

IOWA STATE UNIVERSITY

- Veterinary Medicine - ISU proposes a 5% increase to Veterinary Medicine resident students and 3.75% for nonresident students enrolled in the highly ranked program. Veterinary education is an intense mix of classroom instruction and clinical learning in both teaching laboratories and a modern referral teaching hospital. The additional revenue will enable ISU to deliver state-of-the art learning experiences for veterinary students, and a positive working environment for faculty and staff; to maintain and upgrade diagnostic equipment, imaging equipment, and medical supplies, while incorporating new technological advances; and to support faculty as leaders in veterinary curriculum development and teaching.
- Executive MBA Program - The proposed rates for these programs remain flat (\$0 increase) with the current year. This program has a defined two-year curriculum directed at a cohort-based demographic of senior business leaders.

**Inflation**

Inflation impacts higher education in the same manner it affects other segments of the economy. Since the Board determines tuition increases well in advance of the actual expenditure of funds, the Board has utilized inflation projections. In conjunction with the Federal Open Market Committee meeting on March 21-22, 2023, committee members submitted their inflation projections for calendar years 2023 and 2024. Based on these projections which exclude food and energy due to their volatility, core inflation is expected to range from 3.5% - 4.1% in 2023 and 2.1% - 3.1% in 2024.

The proposed tuition rates at all three universities combined are projected to generate \$29 million in incremental revenue for FY 2024, approximately 1.8% of the current total general education fund operating budget.

**Mandatory Fees**

Mandatory fees, charged to each student, provide a distinct resource to respond to specific needs of students. Provided below are the proposed 2023-24 mandatory fees for each university.

	Mandatory Fee Proposals											
	SUI				ISU				UNI			
	Actual 2022-23	Proposed 2023-24	Difference	%	Actual 2022-23	Proposed 2023-24	Difference	%	Actual 2022-23	Proposed 2023-24	Difference	%

**UNIVERSITY OF IOWA**

SUI proposes an overall increase in mandatory student fees of \$306.

- **New Iowa Memorial Union (IMU) Facilities Fee:** As presented to the Board as part of the 10-year capital plan, SUI is planning a major renovation to the IMU. SUI requests a new annual mandatory fee of \$240 per undergraduate student and \$200 per graduate/professional student to support these planned improvements. The undergraduate and graduate/professional student governments have provided letters of support for the improvements and the fees.
- **Technology –** As reflected above, the University recommends a 5.3% increase to all Technology Fees. The net new revenue generated from these increases will fund inflationary increases in IT expenditures that support students.
- **Student Services –** SUI requests a \$5 increase to the student services fee to address a critical student staffing shortfall and the dramatic increase in fuel costs.
- **Student Activities –** On behalf of the undergraduate and graduate student governments, SUI requests a \$2 increase in the activities fee to provide additional support services whose basic needs (food, clothing) are not being met.
- **Health –** The proposed \$17 increase to the Health Fee will support the increased demand for Student Health services and higher costs to provide those services.
- **Mental Health –** The proposed Mental Health Fee increase of \$3 will fund the remaining 50% of the Behavioral Health Clinical Manager that provides direct services to students. University Counseling Services already has half of the funding needed for the position.
- **Recreation -** A \$10 increase is proposed to offset increased operational and programming costs of the recreation facilities and decreased numbers of non-student memberships.

IOWA STATE UNIVERSITY

ISU proposes an overall increase in mandatory student fees of \$60.

- Technology - High quality, reliable, accessible technology is fundamental to all components of ISU's mission. Information Technology Services (ITS) enhances the student experience, protects student privacy, and supports digital accessibility by way of modern and useful technology and software. ITS is requesting an annual Student Technology Fee increase of \$14 per student to support the increase in student-related software license costs.
- Health – Student utilization of the Thielen Student Health Center (TSHC) continues to significantly increase despite decreased enrollment. Over the last six years, utilization of the TSHC has increased 24%, including increased complexity and severity of student needs. TSHC has seen an increase of 240% in complex/chronic diagnoses such as depression, anxiety, and diabetes. The proposed \$15 increase will support Iowa State's strategic priority of continuing to promote optimal health of our university community by providing funding for a full-time psychologist, increased market demand for healthcare professionals and the increasing cost for medical supplies.
- Student Activities – The student activities fee enables the Student Government Association (SGA) to fund numerous student priorities. The proposed \$10 increase will cover some inflationary effects on SGA priorities and provide additional funding for the Iowa State Daily newspaper.
- Student Services – This student fee, university support, the City of Ames, and fare box revenue jointly fund CyRide. The proposed \$11 increase will be directed to the CyRide component of the services fee and is needed for fuel and labor cost increases as well as maintaining quality and safe service due to increasing demand.
- Building Fees - The Memorial Union (MU) serves as a hub for student life and activities. The requested \$10 increase for the MU will stabilize their budget and keep up with inflationary measures which directly impact their ability to reinvest in MU's infrastructure.

UNIVERSITY OF NORTHERN IOWA

UNI proposes an overall increase in mandatory student fees of \$32.

- Technology – UNI proposes a \$9.50 increase to the technology fee to support the maintenance and expansion of institutional technology support systems and services including the University's learning management system (LMS), lecture-capture system, video conferencing services, polling systems, testing services, classroom technologies, data network connectivity and services, assistive technologies, computer laboratories, software subscriptions, online content and learning systems, and several other services.
- Health – Student Health Services ensures student access to essential health services, including medical, counseling and wellness services. The number of visits for counseling and office visits has increased in recent years and this funding is vital to continue to provide these services to our students. A \$2.50 increase to the Health Fee is proposed to support Student Health Services.
- Student Activities – The proposed \$1.50 increase will help provide revenue to sustain current programs and services including student organizations, fine arts programs, student newspaper, and activities sponsored by the Campus Activities Board and Student Life.
- Student Services – The proposed student services fee reflects an \$3.00 increase to provide needed revenue to support intercollegiate athletics
- Building – The proposed \$1 increase to UNI's building fee will help address deferred maintenance needs.
- Recreation – UNI proposes a \$14.50 increase to the recreation fee will allow Recreation Services to maintain existing programs and services for students.

**Estimated Cost of Attendance**

Iowa Code §262.9(19) requires the Board to publish the estimated total cost of attending the Regent universities, including room and board and other costs, at the same time that it publishes final tuition and mandatory fees.

Based on the proposed base tuition rates, room and board rates, and other costs, the following table estimates the total cost of attendance for a resident undergraduate student.

Other costs, as quantified for financial aid calculations, include the universities' estimates of student costs for books, supplies, transportation and personal expenses.

2023-24 Academic Year Resident Undergraduate Estimated Cost of Attendance												
	Tuition/Fees			Room & Board			Other *			Totals		
	FY 22-23	FY 23-24 Proposed	Diff	FY 22-23	FY 23-24	Diff	FY 22-23	FY 23-24	Diff	FY 22-23	FY 23-24	Diff

\* Books and supplies, transportation, and other living expenses

**Peer Groups**

The following tables compare current resident and non-resident undergraduate tuition and fee rates with the recently established peer groups approved by the Board at its February 2023 meeting. Generally, current Regent university tuition and fee rates are in the middle or near the bottom of their respective peer groups and are below the average.
