**BOARD POLICY REVISIONS –  
CAMPUS SAFETY AND SECURITY REPORT**

**Action Requested:** Approve, as a first and final reading, proposed revisions to Board Policy Manual section 4.13.D.vi, as more fully described in the docket memorandum.

**Executive Summary:** Board of Regents Policy Manual currently requires each Regent institution to annually report on mass communications capabilities, threat assessment and management, physical security capabilities, and training of institutional personnel. Federal law also requires each university to separately prepare the annual Jeanne Clery Security and Fire Safety Report.

In February and April, 2018, the Campus Safety and Security Committee considered information regarding the form and content of the Board of Regents Campus Safety and Security Report. The Committee recommended that duplicate reporting be eliminated, and that the institutions annually provide the Board with the Clery Report and additional information on safety and security matters of significance that are not contained within the Clery Report. The annual report will include, at a minimum, safety and security goals, student involvement, and use of force.

In order to implement the Committee's recommendation, approval of the following revisions to Board Policy Manual section 4.13.D.vi is requested:

Each university shall annually submit to the Board of Regents its Jeanne Clery Campus Safety and Fire Report. In addition, each institution shall annually report on the status of safety and security, to include: safety and security goals, student involvement in campus safety initiatives, and use of force. ~~mass communications capabilities; threat assessment and management; physical security capabilities; and training of institutional personnel.~~
