FREE SPEECH CAMPUS TRAINING

Action Requested: Receive an oral update on the status of the free speech campus training.

Background: On February 24, 2021, the Board of Regents approved a set of Free Speech recommendations to be implemented by the Board and the universities. The tenth recommendation of the Free Speech Committee was that each university will be required to provide training on the free speech to all students, faculty and staff on an annual basis and the presidents will appoint the appropriate campus members to assist the Free Speech Committee to develop a common module for free speech at all three universities.
