PROPOSED 2021-2022 TUITION AND FEES

Action Requested: Consider the proposed tuition and mandatory fee rates for the 2021-2022 academic year as outlined in this memorandum, effective beginning with the Fall 2021 session.

Final action is scheduled on the proposed rates for the July 2021 Board meeting.

Executive Summary: Consistent with the Board’s strategic plan, determining and fulfilling appropriate resource needs are essential in providing high quality public education, cutting-edge research, and needed public services. Predictability, transparency and long-term planning strategies are woven throughout the plan.

Regent institutions need adequate support from all sources, while promoting the effective use of resources to meet institutional missions and to maintain the quality of education Iowans expect. In recent years, the Board has collectively examined the two main resource components available – tuition and state appropriations – as well as the reallocations/efficiencies necessary to strengthen Iowa’s public universities.

The COVID-19 epidemic was unprecedented. Like every other facet of society, our public universities experienced massive disruptions, which impacted all students, faculty and staff. In response to the pandemic’s impact on students and families, the Board froze (no increase) all tuition and fees for the 2020-2021 academic year.

For FY 2022 (2021-2022 academic year), the Board requested an appropriation increase for FY 2022 of \$18.0 million (SUI - \$7M; ISU - \$7M; UNI - \$4M) and restoration of the \$8M cut realized for FY 2021. For FY 2022, the General Assembly froze state funding (no change from FY 2021) for the general university appropriations that support Regent higher education.

While considering the frozen state support, and operating costs that may be absorbed through efficiencies and reallocations, the proposed tuition rates in this memorandum for the 2021-22 academic year include base undergraduate resident increases of \$283 at SUI, \$282 at ISU, and \$115 at UNI. The universities also propose varying differential tuition rates for certain higher-cost programs. A summary of mandatory fees is provided on page 5 and a comprehensive list of all proposed tuition and fee rates for each university is on pages 10-14.

Undergraduate Tuition

The proposed 2021-22 base tuition and fee rates for undergraduate resident and nonresident students are provided below.

**Regent Tuition and Mandatory Fees
Proposed Academic Year 2021-22**

UNDERGRADUATE	Base Tuition			Mandatory Fees			Total Base Tuition and Mandatory Fees		
	2020-21	2021-22	Increase	2020-21	2021-22	Increase	2020-21	2021-22	Increase
UNIVERSITY OF IOWA									
Resident	8,073.00	8,356.00	283.00	1,532.50	1,586.00	53.50	9,605.50	9,942.00	336.50
Nonresident	30,036.00	30,319.00	283.00	1,532.50	1,586.00	53.50	31,568.50	31,905.00	336.50
IOWA STATE UNIVERSITY									
Resident	8,042.00	8,324.00	282.00	1,273.90	1,309.90	36.00	9,315.90	9,633.90	318.00
Nonresident	23,230.00	24,136.00	906.00	1,273.90	1,309.90	36.00	24,503.90	25,445.90	942.00
UNIVERSITY OF NORTHERN IOWA									
Resident	7,665.00	7,780.00	115.00	1,273.00	1,273.00	-	8,938.00	9,053.00	115.00
Nonresident	18,207.00	18,480.00	273.00	1,273.00	1,273.00	-	19,480.00	19,753.00	273.00

In addition to the base undergraduate resident and nonresident tuition increases, SUI and ISU request the following differential tuition rates for specific higher cost programs:

STATE UNIVERSITY OF IOWA

- The College of Liberal Arts & Sciences requests an additional tuition supplement for 3rd and 4th year students in Computer Science and in Informatics of \$1,000. Additional faculty are needed in these programs to meet significant enrollment increases for these popular programs. The additional faculty will allow the College to meet waitlist demand for upper division courses and improve the four-year graduation rate.
- The College of Nursing requests a tuition supplement of \$59 for undergraduate Nursing students. The proposed increase results from additional healthcare policies which are increasing the costs to provide quality clinical experiences to students. These costs include lower student-to-faculty ratios mandated by clinical partners, expenses related to personal protective equipment, and additional training requirements.

IOWA STATE UNIVERSITY

Over a 3-year period, Iowa State's goal was to align tuition rates for three fields of study:

- 1) business, engineering, agricultural systems technology, industrial technology;
- 2) experiential and studio-based programs, architecture; and
- 3) all other majors that do not include differential tuition.

The 2021-2022 tuition rate proposal will complete the simplification of the tuition rate structure for all differential tuition rates, with the exception for sophomore students majoring in engineering, agricultural systems technology, and industrial technology. The 3-year phase in for the sophomore student differential tuition rates is planned to be completed in the 2022-2023 academic year

Further, ISU's goal is to simplify differential tuition rates over three years by phasing into just two differential rate categories (Rates A & B). Unless noted otherwise, differential tuition applies after 60 credits have been attained by the student, which typically coincides with the beginning of the students' third year.

The revenue generated from differential tuition assessments will be used to maintain the quality of the academic programs and support the cost of instruction, which includes: salaries and other direct instructional costs such as the hiring and retention of faculty, modernization of laboratory equipment and instructional technology, renovation and renewal of instructional facilities, equipment and lab supplies, and other related expenses; administration; student services; library and technology access; facilities and operations; and equipment.

Assessing tuition in this manner continues Iowa State's decade-long practice (as at other universities) of aligning costs where they are actually incurred, rather than spreading those costs over the entire student population.

The 2021-2022 proposal substantially completes this simplification of the tuition rate structure. Rate increases as part of a multi-year phase in include:

- The second of a 3-year phase in of undergraduate sophomore students majoring in engineering, agricultural systems technology, and industrial technology
 - \$937 resident, \$1,099 for nonresident and international;
- The third and final phase-in for:
 - undergraduate experiential and studio based programs
 - \$572 resident, \$580 nonresident and international;
 - graduate level experiential and studio based programs
 - \$580; and
 - the graduate level agricultural & biosystems engineering program
 - \$946 resident, \$1,097 nonresident and international.

Rate A: For students majoring in experiential learning intensive science, technology, mathematics, and architecture programs in the Colleges of Agriculture and Life Sciences, Liberal Arts and Sciences, and Human Sciences; and within the College of Design, excluding the Art and Design BA in Visual Culture.

The plan for Rate A includes completing the third and final year of phase-in for multi-year phase in for experiential and studio-based programs. Upon full implementation in FY 2022, the differential rates will be uniform across the College of Agriculture and Life Sciences, College of Design, College of Human Sciences, and the College of Liberal Arts and Sciences.

Rate B: For students majoring in the Ivy College of Business; College of Engineering; and the agricultural systems technology (AST) and industrial technology (ITEC) programs within the College of Agriculture and Life Sciences.

These students have intensive hands-on or experiential components (such as laboratory-based instruction, computer simulation-based learning, and smaller section sizes similar to upper-level students).

Differential tuition rates will be assessed for direct from high school and transfer students after 30 credits for students majoring in engineering, AST and ITEC, and after 60 credits for students majoring in business, which typically coincides with the beginning of the students' third year, or 6 semesters (including summer terms).

Rates will be applied to both undergraduate and graduate students in impacted programs.

The plan for Rate B includes completing the 3-year phase-in period for ITEC at the graduate level; and year 2 of a 3-year phase-in for engineering, AST, and ITEC sophomores. Upon full implementation, the differential rates will be uniform across the College of Business and College of Engineering, and across the two programs within the College of Agriculture and Life Sciences.

Graduate and Professional Tuition

The proposed 2021-22 base tuition and fee rates for graduate resident and nonresident students are as follows:

GRADUATE	Base Tuition			Mandatory Fees			Total Base Tuition and Mandatory Fees		
	2020-21	2021-22	Increase	2020-21	2021-22	Increase	2020-21	2021-22	Increase
UNIVERSITY OF IOWA									
Resident	10,079.00	10,432.00	353.00	1,586.50	1,633.00	46.50	11,665.50	12,065.00	399.50
Nonresident	29,026.00	29,379.00	353.00	1,586.50	1,633.00	46.50	30,612.50	31,012.00	399.50
IOWA STATE UNIVERSITY									
Resident	9,758.00	10,140.00	382.00	1,227.90	1,263.90	36.00	10,985.90	11,403.90	418.00
Nonresident	24,720.00	25,684.00	964.00	1,227.90	1,263.90	36.00	25,947.90	26,947.90	1,000.00
UNIVERSITY OF NORTHERN IOWA									
Resident	9,159.00	9,296.00	137.00	1,273.00	1,273.00	-	10,432.00	10,569.00	137.00
Nonresident	19,633.00	19,928.00	295.00	1,273.00	1,273.00	-	20,906.00	21,201.00	295.00

Variances from the base rate proposals for certain graduate programs for SUI and ISU are provided below.

STATE UNIVERSITY OF IOWA

- Graduate College: The Master of Science in Clinical Nutrition proposes a \$101 tuition rate increase for resident students and a \$605 increase for non-resident students.
- College of Law: In lieu of the proposed base non-resident tuition increase, the College of Law proposes a \$916 increase for non-resident JD students (same dollar amount as residents).
- Carver College of Medicine (CCOM):
 - MS in Athletic Training (MSAT): The MSAT program proposes no increase to the resident and non-resident tuition rates for students in this program.
 - Doctor of Physical Therapy (DPT): The CCOM proposed to hold flat the tuition rate for both resident and non-resident students in the DPT program.
 - Physician Assistant (PA): The CCOM proposes a \$328 increase for resident students in the PA program (in lieu of the base increase) and a \$336 increase for non-resident students.
 - MD: The CCOM proposes no increase to the resident and non-resident tuition rates for MD students.
- College of Nursing:
 - Doctor of Nursing Practice: The College of Nursing proposes a \$403 tuition rate increase for resident and non-resident students in the program.
 - MS in Nursing: The College of Nursing proposes a \$348 tuition rate increase for resident and non-resident students in the program.
- College of Pharmacy: The College proposes no tuition rate increase for non-resident PharmD students currently enrolled. They also propose a new tuition rate of \$37,470 for the incoming cohort of nonresident PharmD students. Pharmacy school applications nationwide have declined each of the past eight years. The proposed rates are expected to better position the College to recruit students in the program. All qualified Iowa residents are currently admitted in the program.

IOWA STATE UNIVERSITY

- Similar to the undergraduate differential rates, the 2021-2022 differential rate proposal for graduate students will complete the simplification of the tuition rate structure for all differential tuition rates into the same two differential rate categories (Rates A & B as described on pages 2-3). The proposed graduate tuition rates for each program are provided on pages 12-13.

Many of ISU's graduate programs are interdisciplinary in nature, spanning multiple departments across the institution. Consistent with current practice, differential tuition at the graduate level is assessed to students pursuing interdisciplinary graduate degrees if their home department is assessed differential tuition. In general, if the undergraduate degree programs have differential tuition, so do the graduate programs.

- Veterinary Medicine - ISU proposes a \$946 increase to Veterinary Medicine resident students and \$2,080 for nonresident students enrolled in the program. Rate increases for 4th year Vet Med students are the same percentage. The additional revenue will maintain practical teaching experiences for students, upgrade diagnostic equipment, imaging equipment, medical supplies to incorporate new technological advances, and to support faculty as leaders in veterinary curriculum development and teaching.
- Executive MBA Program & Master of Real Estate Development – The proposed rates for these programs remain flat (\$0 increase) with the current year.

Higher Education Price Index

Inflation impacts higher education in the same manner it affects other segments of the economy. The Commonfund Institute computes the Higher Education Price Index (HEPI) annually. HEPI measures the average relative level in the prices of a fixed market basket of goods and services purchased by colleges and universities through educational and general expenditures, excluding research. HEPI documents inflation affecting the higher education industry, allowing colleges and universities to project future budget increases necessary to preserve purchasing power and to maintain real investment.

Since the Board determines tuition increases well in advance of the actual expenditure of funds, the Board has utilized inflation projections. The University of Iowa's Department of Economics in the Tippie College of Business prepares HEPI projections for future years. The Higher Education Price Index (HEPI) documents inflation affecting the higher education industry, allowing colleges and universities to determine the increase in funding required each year to maintain real investment. The HEPI projections for FY 2022 to range from 1.4% and 2.8% with a midpoint of 2.1%.

The proposed tuition rates at SUI and ISU combined are projected to generate \$24 million in incremental revenue for FY 2022, approximately 1.5% of the current total general education fund operating budget.

Mandatory Fees

Mandatory fees, charged to each student, provide a distinct resource to respond to specific needs of students. Provided below are the proposed 2021-22 mandatory fees for each university.

Mandatory Fee Proposals

STATE UNIVERSITY OF IOWA

The University proposes an overall increase in mandatory student fees of \$53.

- Technology – As reflected on the previous page, the University proposes Technology Fee increases from \$7-\$30 depending on the academic program. The net new revenue generated from these increases will fund inflationary increases in IT expenditures to support students and help cover the increasing costs of purchasing existing databases in the Law Library.
- Health – The proposed \$10 increase to the Health Fee, which has not increased since FY 2013, will support a portion of rising personnel, fringe, pharmaceutical, information system, and supply costs.
- Mental Health – The proposed Mental Health Fee increase of \$7.50 will provide for two additional staff members that will provide after-hours mental health response for UI students both off-campus (text/phone) or on campus (text/phone/in person). The professionals will also be an added resource for resident assistants (RA's) and residence hall staff members to consult with regarding students experiencing distress.
- Student Union – The Iowa Memorial Union (IMU) is the heart of campus activities outside of the classroom and is the home of student organizations, the Division of Student Life, Dean of Students, and many student support resources such as the Food Pantry, Clothing Closet, the campus bookstore and multiple dining outlets that serve students. The proposed \$9 increase will help support the operations and services in the IMU.
- Career Services – This fee funds career services for all undergraduates provided by the Pomerantz Career Center. Direct one-on-one services such as career advising and same-day drop-in assistance, student organization events, on-campus recruiting events such as career fairs, and internship development opportunities. The additional revenue generated from the proposed \$7 increase will allow expansion of these offerings and provide additional staffing resources.
- Recreation – An \$8 increase is proposed to meet the debt service schedule for the Campus Recreation and Wellness Center in accord with the financial plan approved for the project and fund on-going operational and maintenance expenses.

IOWA STATE UNIVERSITY

The University proposes an overall increase in mandatory student fees of \$36.

- Health – Over the last six years, utilization of the Thielen Student Health Center has increased 24%, including increased complexity and severity of student needs. Prior to the COVID-19 pandemic, utilization of psychiatry services was up 18%. While the Center has implemented numerous cost control measures, the proposed \$23 fee increase will provide needed revenue to provide high quality, accessible, affordable and accountable health care to students. This increase is partially offset by a proposed \$10 decrease in the Health Facility fee.
- Student Services – This fee, university support, the City of Ames, and fare box revenue jointly fund CyRide. The proposed \$19 increase will be directed to the CyRide component of the services fee and is needed for fuel and labor as well as maintaining quality and safe service.
- Building - The Memorial Union sees over 2 million visitors annually, hosts over 13,000 events (over 7,000 student events) and supports 927 student organizations. The Memorial Union debt service and some deferred maintenance are funded by the building fee. ISU is requesting a \$4 increase to the Memorial Union building fee.

UNIVERSITY OF NORTHERN IOWA - The University proposes no changes to the current mandatory student fees.

Estimated Cost of Attendance

Iowa Code §262.9(19) requires the Board to publish the estimated total cost of attending the Regent universities, including room and board and other costs, at the same time that it publishes final tuition and mandatory fees.

Based on the proposed base tuition rates, room and board rates, and other costs, the following table estimates the total cost of attendance for a resident undergraduate student.

Other costs, as quantified for financial aid calculations, include the universities' estimates of student costs for books, supplies, transportation and personal expenses. Other expense increases projected by the SUI's financial aid office primarily relate to transportation cost estimates and personal expenses not charged by the University.

2021-22 Academic Year Resident Undergraduate Estimated Cost of Attendance
