To further enhance the credibility and accountability of the Board, the Board requires that all Regents and institutional officials promote at all times the best interests of the Board and its institutions consistent with policies, rules, regulations, and laws governing the Board, academic institutions, and academic freedom. The duty of loyalty requires Regents to exercise their powers and duties in the interests of the Board and its institutions and not in the Regent's own interest or in the interest of another person or organization.
- B. Regents and institutional officials must endeavor to remain free from the influence of, or appearance of, any conflicting interest in acting on behalf of the Board or a Regent institution. Actual or potential conflicts of interest for a Regent or institutional official may arise from the interests of the individual or the individual's spouse, significant other, or a family member. Such interests may include, but are not limited to, employment, ownership of, or service on the board of directors of an organization that has or may have relationships with the Board or a Regent institution.
- C. Each Regent shall disclose on an annual basis any interests that may create an actual or potential conflict of interest and shall supplement the disclosure as new interests may appear. Each Regent shall consult with the Board office on managing identified conflicts. For some interests, disclosure alone may be sufficient. Others may require recusal from participation on certain matters, or, in very unusual situations, divestiture of the interest or resignation from a conflicting position.
- D. When a Regent has an interest, direct or indirect, in an entity proposing to offer a product or service to the Board or an institution under its jurisdiction, the Regent shall not have access to any information regarding the proposed transaction or any competing entity that is not otherwise available to the public and/or all entities competing under the proposed transaction. In the event of any dispute concerning the foregoing, the matter shall be referred to the Office of the Board of Regents who may consult with Office of the Attorney General as necessary.
- E. Regent institutions shall have Conflict of Interest policies in place for institutional employees not subject to this policy. Such institutional policies shall not be inconsistent with this policy.
- F. By its requirement that there be a student member of the Board, the Legislature is deemed to have determined that a student's interest in Board determinations of tuition policy and the like do not constitute an impermissible conflict of interest.
- G. The following procedure shall be followed in the event a question arises within the Board of Regents regarding a conflict of interest:

- i. In all instances where a Regent has a question as to whether he or she may have a conflict of interest in a specific matter, such question shall be referred to the Board office for evaluation. The Board office will consult with the Office of the Attorney General of the State of Iowa as necessary and appropriate to determine whether a conflict of interest is present and the manner in which it should be managed. The Board member shall act in accordance with the determination of the Board office and/or Attorney General.
- ii. If a Regent has a question about whether another Regent has a conflict of interest on a specific matter, the procedure noted above shall be followed, and the Regent having the alleged conflict shall be notified about the question at the time it is referred to the Board office.

All such requests must be in writing and state the specific subject to be discussed and the reasons why a personal appearance is necessary. Requests may be submitted directly to the Executive Director at any time in advance of the Board meeting at which the petitioner requests to make a written or oral presentation. Requests must be accompanied by any supporting documentation or evidence that the petitioner wishes the Board to consider. The Executive Director shall cause the subject matter of the request to be investigated, including soliciting institutional comment as necessary. The Executive Director will determine, in his/her discretion, whether a request is to be granted and whether such a request for oral presentation is relevant to the business before the Board. The Executive Director may defer ruling on a request until the next regularly scheduled meeting of the Board if there is insufficient time to adequately investigate the matter and make a determination as to its appropriateness for Board consideration. If a request is granted, the Executive Director shall notify the petitioner of his/her tentative place on the Board's agenda, the prescribed manner of the presentation and what written materials, if any, the petitioner should provide for Board consideration. - E. The distribution of Board docket materials relating to the proposed increases shall be sent to the person identified by each institution as the student government president and mailed or emailed to the student government office listed in each university directory.
- F. Tuition
  - i. Tuition Policy

Iowa law ([Iowa Code §262.9.24](#)) requires the Board to adopt a policy for establishment of tuition rates that provide some predictability for assessing and anticipating changes.
  - ii. Classifications of Residents and Nonresidents for Tuition

General

The rules for classification of a student as a resident or nonresident for tuition and fee purposes are found in The Administrative Code ([681 IAC 1.4](#)). Those rules include general residency guidelines, with specific discussion of military personnel, American Indians, refugees, and immigrants. The rules for classification are extended to be in full compliance with Section 702 of the Veterans Access, Choice, and Accountability Act of 2014 (Choice Act).

iii. Graduate Assistants and Spouses

iv. Principles for Setting Tuition and Related Fees

The following principles will be used to set tuition and related fees at the three public universities governed by the Board:

Tuition Categories:

- a. Resident Undergraduate Students
  - b. Resident Graduate Students
  - c. Nonresident Undergraduate Students
  - d. Nonresident Graduate Students
  - e. Resident Professional Students
  - f. Nonresident Professional Students
- v. On an annual basis, the Board of Regents will consider tuition and fee proposals suggested by each university president for the following academic year at their university.
- vi. Within each tuition category, each university president will have sufficient flexibility, with appropriate justification, to recommend differential levels of tuition and fees for all students at their university or for subcategories of students, consistent with Regent and institutional strategic goals, based on student classification level, program of study, or other relevant criteria.
- vii. The Board will limit the annual tuition increase to the base undergraduate resident rate to an amount that does not exceed the average of the three most recently established HEPI (Higher Education Price Index) fiscal year inflation indexes as published by the Commonfund Institute.

#### viii. University Tuition and Fee Proposals

Prior to submitting tuition and fee proposals to the Board Office for review and analysis, each university president must:

- a. Ensure that tuition and fee proposals are discussed on campus with the elected leadership of faculty, staff, and student organizations.
- b. Keep the other two university presidents fully informed throughout the development process of tuition and fee requests. Use the HEPI benchmark as a guide to Board expectations for rates increases, absent adverse changes in the overall fiscal environment for the university.
- c. Provide clear explanation and justification for all tuition and fee requests.
- d. Any mandatory fee proposal higher than the median of the HEPI range and earmarked for specific non-academic student benefits should also include the endorsement of students and identification of the specific uses and duration of the fee.
- e. Provide specific documentation of the university strategic goals and objectives related to the tuition and fee proposals.
- f. Tuition for nonresident undergraduate students should, at a minimum, cover the full cost of their education at each Regent university.
- g. Provide student financial aid to meet enrollment and tuition cost calculated as a minimum of 15% of tuition revenues.
- h. Prohibit the designation of a portion of the tuition moneys collected from resident undergraduate students by institutions of higher education governed by the board for use for student aid purposes. However, such institutions may designate that a portion of the tuition moneys collected from nonresident students be used for such purposes. Iowa Code § 262.9(19) (2013).
- i. All initial proposed tuition increases, changes in mandatory student fees, and tuition-related miscellaneous charges must be submitted and presented for the Board's consideration at the same Board meeting.

#### ix. Tuition for Students

- a. Undergraduate Part-Time Tuition -- Resident Rates
  - 1) A per credit charge for credits 1 through 11.
  - 2) A fixed amount for 12 credits per term and over as established by the Board of Regents. An additional tuition fee will not be charged for any overload credits taken by a full-time student at a Regent university.

- b. Undergraduate Part-Time Tuition -- Nonresident Rates
  - 1) Rates may range from the resident rates for 0 through 4 credits per term of each program up to the corresponding nonresident/international rates.
  - 2) Follow the above pattern for undergraduate resident rates for 5 credits per term and over as established by the Board of Regents.
  
- x. Graduate Part-Time Tuition
  - a. A per credit charge for credits 1 through 8.
  - b. A fixed amount for 9 credits per term and over as established by the Board of Regents.
  - c. Rates for nonresident students may range from the resident rates for 0 through 4 credits of each program up to the corresponding nonresident/international rates.
  
- xi. Guidelines for counting post-baccalaureate students as graduate students or special students
  - a. Count as graduate students only those students who meet the academic requirements (e.g., rank in class, grade point average, subject matter background, standardized test scores, etc.) and are admitted to the Graduate College (ISU, SUI). (See [c] for special conditions relative to UNI.)
  - b. Do not permit students to register for more than 15 credits per term for graduate degrees.
  - c. Establish a category of students called special student (or some appropriate equivalent) that includes students with a baccalaureate degree not admitted to the graduate college. This category does not include professional students (medicine, dentistry, law, nursing, pharmacy, veterinary medicine). At the University of Northern Iowa, all students with baccalaureate degrees are classified as graduate students upon admission and may be classified subsequently as degree candidates with departmental and graduate college approval.
  - d. Charge special students the same tuition as is charged undergraduate students.
  - e. Recognize that unusual situations may occur and allow deviations from the guidelines set forth above only under conditions as established by the academic vice presidents so that a level of excellence in all programs will be maintained.
  
- xii. Reciprocal Tuition Agreements

Institutions under the control of the Board of Regents may enter into reciprocal tuition agreements. Agreements require the approval of the Executive Director, who shall consult with Board Leadership prior to approval.

## G. Mandatory Fees

### i. General Policy

- a. Mandatory fees, charged to each student, provide a distinct resource to respond to specific needs of students. Each institution must seek Board approval for any new mandatory fees or changes in mandatory fees.

#### M. Inclement Weather

The Board of Regents recognizes that inclement weather may create emergency conditions that make it difficult or unreasonable to conduct normal business and educational activities at the Regent institutions. Therefore, the Board delegates decisions on temporary closings, cancellations or curtailing of normal institutional functions due to inclement weather to the institution head and central administration of each Regent institution, according to their individual policies. The Executive Director and/or the Board Office should be notified immediately whenever such decisions are made.

#### N. Interinstitutional Staff Sharing

From time to time various emergency and other situations may occur at one or more of the Regent institutions requiring additional, temporary, assistance from outside the campus. The institution heads are hereby authorized and encouraged, to provide assistance to the extent possible and to send and receive volunteer employees and resources from other Regent institution(s) under such circumstances. It is understood that the receiving institution will reimburse the sending institution(s) for the cost of such assistance or other arrangements as agreed to by the parties.

#### O. Loss of License, Registration, or Certificate Required as a Condition of Employment by a Regent Institution Employee

##### i. Policy

Since the Regent institutions have numerous job classifications and positions that require employees to be licensed to practice their professions or to drive Regent and/or state vehicles, this policy addressing the loss of license, registration or certificate was developed. The policy complies with [Iowa Code §§ 321J](#) (Operating a motor vehicle while intoxicated) and [252J](#) (Child Support — Sanctions).

- a. Employees whose job classification or position REQUIRES the possession and maintenance of a license, permit, certificate, registration, or approval in order to perform the essential functions of that position's assigned duties and who subsequently have that license, permit, certificate, registration, or approval revoked, rescinded, suspended, or renewal denied may be, after the exhaustion of all administrative contested case proceedings before the licensing agency, terminated from employment for failure to maintain the necessary qualifications required for that position.

“Requires the possession and maintenance of” means as stated in the minimum qualifications or selective certification provisions for the job class or positions.

NOTE: This definition requires that the specific license, permit, certificate, registration or approval cited must be documented in the class description and/or position description questionnaire.

- b. Employees whose job classification or position occasionally require the employee to use a vehicle for the conduct of Regent institution business, and who subsequently have their driving privileges suspended, revoked, or barred either for violations of statutes relating to Operating While Intoxicated, habitual violations, or failure to satisfy court ordered child support payments shall, for the period of suspension, revocation, or bar, not operate any Regent institution or state vehicles.
  - c. If the job requires the employee to travel, employees whose driving privileges are restricted by a temporary driving permit that requires the installation of an ignition interlock device will either use a personal vehicle or arrange alternate transportation. An ignition interlock device may NOT be installed on any vehicle owned by Regent institutions or the state.
- ii. Definition of License

The term “license” shall be defined as a license, certification, registration, permit, approval, renewal, or other similar authorization issued by a licensing authority which evidences the admission to, or granting of authority to engage in a profession, occupation, business, or industry, or to operate or register a motor vehicle.

#### P. Moving Expenses

- iii. Reimbursement for moving expenses shall not include reimbursement for the expense of moving animals.

#### Q. Professional Development Assignments

The Board shall grant professional development assignments with full or partial compensation to staff members to undertake approved programs of study, research, or other professional activity that, in the judgment of the Board, will contribute to the improvement of the institutions. Any staff member granted such assignment shall

agree either to return to the institution granting such assignment for a period of not less than two years or to repay to the State of Iowa such compensation as [the staff member] shall have received during such assignment. ([Iowa Code § 262.9\(14\)](#))

- b. Requests for professional development assignments for personnel covered by Section 2.1.3.D shall be submitted to the Board by the institutional executives for approval.

- e. Each institution shall submit a yearly evaluation and report or discussion and costs regarding research assignments and professional development assignments.

Authority, Code of Business and Fiduciary Conduct, General Policies

Below are the provisions of the current Authority, Code of Business and Fiduciary Conduct, and General Policies and the proposed policies for these areas.

### 1. Authority

A business office shall be maintained at each of the institutions of higher learning, with such organizations, powers, and duties as the Board may prescribe and delegate. ([Iowa Code §262.20](#))

### 2. Code of Business and Fiduciary Conduct

#### A. Purpose

All employees of the Board of Regents and its institutions play a role in ensuring that the resources entrusted are protected, preserved, and enhanced. This is the Board of Regents' statement of the underlying principles by which it expects those with business and fiduciary responsibilities to carry out their duties.

#### i. Fairness, integrity, respect

The Regents value fairness, integrity, and respect, and strive to integrate these values into their business practices. All faculty, staff, students, and administrators are expected to act at all times with fairness, integrity, and respect for others.

#### ii. Accountability

Employment by the Board of Regents and its institutions requires a commitment to work in a manner that promotes and protects the institution's best interests, including the treatment of confidential information as well as full, fair, accurate, timely, and understandable reporting. Employees should not use their positions to advance their own personal interests.

#### iii. Compliance with law

a. Persons acting on behalf of the Board of Regents and its institutions are individually accountable for their own actions and, as members of the Regent community, are collectively accountable for upholding these standards of behavior and for compliance with all applicable laws and policies.

- b. Employees should take no action to influence, coerce, manipulate or mislead an auditor engaged in the performance of an audit for the purpose of rendering the institution's financial statements materially misleading.

## B. Senior Management

By virtue of their leadership status, members of senior management shall be responsible for complying with this Code of Business and Fiduciary Conduct as well as "setting the tone" for the Board of Regents and its institutions. This ethical responsibility requires senior management to:

- i. Provide leadership and vision and serve as role models and stewards of the institution's finances, assets, resources and business processes
- ii. Avoid actual or apparent conflicts of interest involving personal and professional relationships
- iii. Work to promote, by personal example, ethical behavior among employees
- iv. Create realistic expectations and clearly indicate that integrity is not to be compromised to achieve results
- v. Create an environment encouraging employees and others to report policy and law violations promptly, and protects them from retaliation.

## 3. General Policies

### A. Regent Fiscal Policy

Sound fiscal policy serves to provide transparency, promote public accountability, demonstrate support for strategic priorities, delegate fiscal responsibilities, and identify parameters for stewardship of resources.

The Board emphasizes that maximizing available resources is imperative to providing high quality public education for Iowans; cutting-edge research and creative activities to enhance the quality of life; and needed public services that help fuel the state's economy in the best interest of all Iowans.

Higher education in Iowa is a partnership among students and their parents, Iowa taxpayers, Iowa public policy makers, the Board of Regents, and the Regent universities.

i. Institutional Funding

- a. Board reviews institutional requests for state appropriations and takes action annually to authorize state appropriations requests in compliance with [Iowa Code §8.23](#).
- b. For higher education institutions:
  - 1) Board sets tuition rates annually to provide operational revenues (See Section 1.6 of this Policy Manual),
  - 2) Board annually establishes mandatory fees, residence and dining rates, parking fees, building fees, etc. (See Section 1.6 of this Policy Manual),
- c. As allowed by [Iowa Code §262.9\(18\)](#), Regent universities may utilize non-tuition components of the general university funds first. Accordingly, general university funds remaining at the close of the fiscal year are comprised solely of student fees and charges.
- d. Budget Approvals – All institutional budgets are to be approved by the Board on an annual basis.
- e. Comprehensive Fiscal Report – An annual report is completed each fiscal year, for Board review and receipt, comparing actual revenues and expenditures with the Board-approved budget that identifies significant variances and accomplishments.

B. Collection of Delinquent Accounts

- i. [Iowa Code §262.15](#) provides that the Board shall have charge of the foreclosure of all mortgages and of all collections from delinquent debtors for the use and benefit of the appropriate institution.
- ii. A collection policy shall be established at the Regent institutions to ensure responsible fiscal management of receivables in accordance with state and federal law. The objectives of the collection policy are to combine both internal and external collection resources in a manner consistent with best practices of each institution.

C. Indirect Cost Rate

- i. The policy of the Board of Regents is to provide services to federal agencies, nonprofit foundations/organizations, other state agencies, and other sponsoring agents based on grant or contract agreements that include clearly specified tasks related to the missions of the institutions and established payment for both direct and indirect costs.

- ii. For federal programs, the provisions of Office of Management and Budget (OMB) Administrative Requirements, Cost Principles, and Audit Requirements ([2 CFR 200](#)) will be followed which requires the use of the institutions Federally negotiated indirect cost rate unless restricted by Federal statute or regulation.

#### D. Accounting Issues

- i. The Board shall direct the expenditure of all appropriations made to the institutions and any other moneys belonging thereto ([Iowa Code §262.9\(10\)](#))
- ii. [Iowa Code §262.23](#) requires a number of specific items for compliance by the treasurer of each Regent institution. The chief business officer of each institution shall maintain accounting records and supporting documentation in accordance with accepted business standards for accountability and auditability and shall prepare reports as required, including an annual financial report.

#### E. Payroll Withholding

- i. Payroll withholding programs are permitted according to the following guidelines:
  - a. Withholdings authorized by federal or state laws.
  - b. Withholdings in connection with employee retirement and insurance plans approved by the Board of Regents.
  - c. Withholdings authorized by individual employees for institution-wide contributive programs of direct benefit.
  - d. Withholdings authorized by individual employees for United States savings bonds.
  - e. Withholdings for amounts due the institution from and authorized by its employees.
  - f. Withholdings for amounts authorized by individual employees for dues for the convenience of organizations which relate to employment conditions, such as union organizations or university-wide professional organizations. Payroll withholding programs in this category shall not be initiated without 100 participants at Iowa State University and the State University of Iowa and 50 participants at the University of Northern Iowa, unless justification exists for fewer participants; payroll programs in this category may be discontinued if the number of participants falls below 25.
  - g. Insurance deductions in accordance with Iowa Code 70A.17

- ii. Each Regent institution shall require the employee or eligible organization to submit written authorization for payroll withholding for each withholding program, including the assent of the spouse of the employee, as required.

F. Reimbursement of Travel Expenses for Employees of Regent Institutions

- i. It is the intent of the Board of Regents that employees of Regent institutions be reimbursed for reasonable expenses associated with work-related travel following policies set forth by the IRS.
- ii. It is the further intent of the Board that the Regent institutions adopt cost effective or as otherwise deemed appropriate institutional policies consistent with this statement, along with any other provisions relating to travel reimbursements which are more specific or restrictive.
- iii. Some travel reimbursements may be taxable. Travel advances must be substantiated with receipts and travel reimbursements completed within a "reasonable time frame" as defined by IRS policy or the amounts are reportable as taxable income in accordance with reimbursement guidelines. As an example, meal reimbursement when not associated with overnight travel is reported as taxable income.
- iv. Travel expenses should be submitted promptly on return from the trip. Reimbursement for mileage, lodging, and meals will be based on the following:
  - a. The use of institution provided vehicles is encouraged. However, transportation reimbursement for official travel by private automobile when the use of a personal car is authorized by the appropriate institutional official, per this policy, reimbursement shall be paid at no more than:
    - 1) At the standard mileage rate for business use as established by the U.S. Internal Revenue Service, for travel when a motor pool vehicle is not available and the employee must use his/her personal vehicle or an employee is traveling less than 100 miles round trip or when the travel is to/from local airports or when travel is to/from airports designated by each Regent institution and the lower airfare cost justifies use of a designated airport.
    - 2) At 50% of the rate in 1) above for travel if a motor pool vehicle is available, but the employee chooses to use his/her own vehicle. The 50% is formula-based to promote optimal use of institution provided vehicles.
    - 3) At a rate to be determined by the appropriate institutional official on a case-by-case basis when an individual must use a substantially modified or specially equipped privately owned vehicle.

- b. Air or rail transportation should be by common carriers. Use of university or chartered aircraft is permitted when it is justifiable.
- c. Each institution must develop clearly delineated travel policies for meals and incidentals. Such policies may be based on actual and reasonable costs for reimbursement, or on full or partial per diem rates, or on some combination of these. The maximum daily meal and incidental rates may not exceed the U.S. published per diem rates (General Services Administration for domestic rates, the Department of Defense for Hawaii, Alaska and other US territories and possessions; and the State Department rates for foreign destinations).
- d. The individual amounts for each meal would apply only in the case of persons in travel mode for partial days. Otherwise, the total amounts for each day would apply, thus allowing some discretion in adjusting meal allowances within the day. In the case of a partial day, meal allowance will be distributed:

Breakfast	20%
Lunch	30%
Dinner	50%
- e. Exceptions to these meal and incidental standards in advance of travel must be approved by senior institutional officials (e.g., vice presidents, business officers, collegiate deans, and major directors of administrative units).
- f. Lodging reimbursement is limited to the actual/reasonable cost for a standard single room. Lodging rates set by Federal agencies will be used as a guide.

#### G. Awards to Private Agencies

[Iowa Code §11.24](#) allows the Auditor of the State, at the request of the Board of Regents, to review working papers prepared by a certified public accountant covering the receipt and expenditure of state or federal funds provided by the Board of Regents to any other entity to determine if the receipt and expenditure of those funds by the entity is in substantial compliance with the laws, rules, regulations, and contractual agreements governing those funds. If an entity has not been audited by a certified public accountant, the Auditor of State may, at the request of the Board of Regents review the records covering the receipt and expenditure of state and federal funds to determine the same.

#### H. Inventory

- i. Pursuant to [Iowa Code §7A.30](#), a written, detailed inventory is required to be maintained. All equipment valued at \$10,000 or more and held for one year or more shall be included in the institution's equipment inventory.
- ii. Each institution and the Board Office shall adopt appropriate surplus property disposal procedures.

- iii. For equipment with an estimated value in excess of \$1,000,000, when the university proposes using a disposal method that deviates from the standard surplus property disposal procedures, the request shall be submitted to the Executive Director for approval of the alternative procedures.
- iv. See Chapter 2.3 of the Policy Manual for disposal, transfer, or sale of buildings.

I. University of Iowa Hospitals and Clinics

Rate schedules will be presented to the Board annually for approval prior to submission of final budgets.

  - 2) rebalance investment pools as deemed appropriate to stay within the asset allocation parameters of the investment pool asset allocations.

vi. Nature of Assets for Investment

Institutional funds include non-endowment funds and endowment funds, both restricted and unrestricted. Restricted funds are defined as those funds existing within both the non- endowment and endowment funds which are restricted for investment and spending purposes as imposed by contractual or legal requirements, such as bond indentures, loan or grant agreements, or donor instructions.

- a. Non-endowment funds include state appropriations, student tuition, fees, university sales and services, patient care sales and services, government and other sponsored research grants, federal appropriations, bond issue proceeds, gifts, and other income sources.
  - 1) Short-term operating funds have investment restrictions that limit effective weighted average life maturities to 63 months or less.
  - 2) Quasi-endowment funds are longer-term in nature but have no externally imposed restriction that the principal remain intact in perpetuity.
- b. Endowment funds are primarily donor gifts and other funds received for specific purposes. The purpose of endowment funds is to provide intergenerational equity of income in perpetuity. These endowment funds are to provide a stable income sufficient to meet the reasonable spending needs of the component endowments by keeping pace with inflation and not degrading the real value of the corpus over time. Endowment funds are synonymous with the term “institutional funds” as defined by Iowa Code section 540A.

#### vii. Asset Classes

Individual asset class performance will be measured against appropriate benchmarks as determined by the Investment Committee in consultation with the investment advisor and the vice presidents for finance/treasurer.

##### a. Fixed Income

Fixed income assets provide stability, generate income, and diversify the market risk of an investment portfolio.

##### b. U.S. Equities

The purpose of equity investments is primarily to provide capital appreciation. This asset class consists of marketable equity securities of primarily U.S.-based companies. These may include equity securities of non-U.S. based companies which are traded as “American depository receipts (“ADR’s”) on U.S. stock exchanges.

##### c. International Equities (excluding U.S. Equities)

International equities earn an equity risk premium and diversify the equity exposure within the investment portfolio. This asset class includes both developed and emerging markets. Currency hedging transactions are allowable for investment and not speculative purposes, and intended only to protect expected earnings.

d. Private Equity

Private equities enhance the investment portfolio return through long-term capital appreciation. This asset class utilizes private equity investments that are typically long duration investments with substantial illiquidity such as venture capital, leveraged buyouts and mezzanine debt. The primary strategic role for private equity is to increase the expected investment return of an institutional investment fund. Private markets typically provide higher returns than traditional asset classes, such as stocks and bonds, due to the market inefficiencies and the premium paid for illiquidity. The key factors to be considered in managing the risk and return characteristics of the private equity portfolio are partnership selection, diversification and illiquidity. Investments in private equity may be made through a fund of funds vehicle and will be diversified over time (i.e., vintage years).

e. Real Assets

The Board invests in real assets to generate a rate of return that exceeds the rate of inflation. Real assets offer diversification since they tend to perform better than traditional asset classes such as fixed income and equities during periods of high unexpected inflation. Most real assets are physical assets having intrinsic value and have potential to generate returns with some degree of correlation to inflation, thereby serving as an inflation hedge. Types of real assets may include TIPS (Treasury Inflation Protected Securities), commodities, REITs (Real Estate Investment Trusts), equities (natural resource and infrastructure), private real estate, timberland, farmland, infrastructure, and oil and gas investments. Investments shall be in limited liability investment vehicles, such as limited partnerships, limited liability corporations, private REITs and other pooled investment vehicles including fund of funds. Investment shall be primarily equity oriented, but may also include debt instruments secured by real assets with equity like returns.

viii. Permitted Investments

- 1) It is the intent of the Board that all investment pools be broadly diversified among asset classes as much as possible. Diversification by the number of individual securities, industry, economic sector, and within governmental issues is viewed as desirable. Iowa Code Sections 12B.10 and 2B10A.5d provide a framework of permitted investments that provides for investments in assets of every kind of property and investment which persons of prudence, discretion, and intelligence acquire or retain for their own account. However, short-term operating funds consisting of cash which is needed to meet underlying cash requirements of the institutions have investment restrictions that limit effective maturities (weighted average life) to 63 months.

- 2) Certain derivative instruments can be useful tools in managing portfolio risk and in efficiently replicating cash market positions. A derivative instrument (derivative) is defined as a financial instrument with a return or value that is obtained from the return or value of another underlying financial instrument. Mortgage-backed securities and asset-backed securities are not considered derivatives for the purposes of this policy. However, derivatives can introduce unique risks into the portfolio that must be controlled. The following guidelines shall apply to the use of derivatives by investment managers, and are designed to provide general risk controls that apply to all managers. The investment advisor shall establish specific guidelines in each manager's contract to control the various risks associated with the use of derivatives for a particular manager and mandate.
  - a) Under no circumstances shall a manager use derivatives for the purpose of leveraging its portfolio.
  - b) Prior to utilizing any derivative, a manager shall take all steps necessary to fully understand the instrument, its potential risks and rewards, and the impact adverse market conditions could have on the instrument and the overall portfolio, and to ensure that it has all of the operational and risk management capabilities required to prudently monitor and manage the derivative.
  - c) Institutional staff are prohibited from directly investing in futures or option contracts

#### ix. Other Provisions

##### a. Financial Reporting of Investments

To appropriately reflect the Board's overall investment strategy and as outlined in the relevant accounting standards (GASB Statement 9, section 11), the Board sets forth that all funds held by external investment managers, as defined in section 2.4.C.iv of the Board's investment policy, shall be reported on the audited financial statements of the Regent institutions as investments.

Investments purchased by the institutions through Board-authorized brokerage firms that meet the definition of cash equivalents, investments with original purchase dates to maturity of three months or less shall be reported on the audited financial statements of the Regent institutions as cash equivalents.

##### b. Fees

The institutions may charge a reasonable fee to offset management and donor development related expenses.

Policies related to capital projects, including bidding, bid security, selection of architects/engineers for Regent institutions are in Chapter 2.3 of this Policy Manual.

### C. Policies and Procedures

- i. **Competitive Bid Thresholds:** Each Regent institution, through an institutional purchasing department, shall be responsible for purchasing goods and services in compliance with all applicable state and federal laws and regulations. Institutions may delegate purchasing responsibility to departments. Low dollar procurement authority may also be delegated to institutional units through the use of credit cards or other appropriate procurement instruments, consistent with prudent, contemporary business and audit practices.
  - a. Regent Master Agreements shall be used whenever possible. Exceptions to the use of such agreements must be supported with sufficient justification – ie. Lower price, emergency need, etc.
  - b. Purchases less than or equal to twenty five thousand dollars (\$25,000) may be delegated to individual department purchasers.
  - c. Purchases of goods and services between twenty five thousand and one (\$25,001) and fifty thousand (\$50,000) per transaction, may be purchased through an informal competitive bid with an adequate number of vendors.
  - d. Purchases of goods and services over fifty thousand dollars and above, shall be purchased through a formal competitive bid process.

- ii. **Equipment Procurement:**

Equipment purchases, except those included in a capital project, are subject to the following review procedures prior to the issuance of a purchase order or any other purchase commitment by the institution.

- a. Equipment with a unit cost of less than \$1,000,000, will be purchased by the Director of Purchasing of each institution, acting through the purchasing agent, as outlined in section C of this chapter.
- b. Equipment with a unit cost greater than \$1,000,000 and less than \$2,000,000 will be submitted to the Executive Director or designee for approval.

  - d. The Executive Director or designee will provide a summary of all equipment purchases of \$1,000,000 or more to the Board on a quarterly basis.
- iii. Purchases Exempt From Competition: Purchases exempt from competition may be subject to other Board or institutional procurement policies and processes.
- a. Emergency Purchase - An emergency includes but is not limited to one of these conditions:
    - 1) In which an immediate or emergency need exists for the item or service because of events and circumstances not reasonably foreseeable.
    - 2) Critical to sustaining patient care or human life, maintaining critical equipment or services, or similar.
    - 3) In which there is a need to protect the health, safety, or welfare of persons occupying or visiting a public property.
    - 4) In which an institution must act to preserve critical services or programs.
    - 5) Purchases that are considered time sensitive and would result in increased costs due to delay or the inability to continue to provide necessary services to patients, students, public, etc.
    - 6) Each institution will submit a quarterly summary of emergency purchases over \$50,000 to the Executive Director or designee.
  - b. Sole Source Purchase - In some instances equipment, supplies or services may be required which are obtainable only from a sole source. Sole source purchases must be documented and reviewed/approved by the institutional purchasing designee.
  - c. Negotiation - Competitive and non-competitive negotiation may replace competitive bidding when in the best interest of the institutions. Justification for such use must be documented and available upon request.
  - d. Legal and Related Services - Contracts for legal and related services include, but are not limited to, engagements for external: lawyers for all matters related to institutional operations (including, but not limited to, regulatory and transactional matters), adjudicators, investigators, mediators, and consultant or service agreements that are directly related to any of the foregoing. The engagement of lawyers shall be submitted to the Executive Director or designee for approval.

iv. Evaluation and Award Process

- a. Each institution will evaluate and award based on pre-defined criteria.
  - b. Scoring and assignment of points will be done in a consistent and defensible manner to ensure the integrity of the process. Both objective and subjective criteria may be used.
  - c. The names of the bidders and the amounts bid shall be supplied once the evaluation of the bids is completed and the award is made via a formal request for information. Information will not be released in situations in which the release would provide a competitive advantage to any of the bidders.
  - d. Nothing contained in these conditions shall be construed to mean that the lowest priced goods or inferior or substandard goods must be purchased. The Regent institutions are to purchase goods at the lowest cost consistent with the quality and service required.
  - e. Should a buyer recommend an award to other than the low compliant and responsible bidder, a review of the recommendation shall be conducted by the institutional purchasing director or designee including a documented rationale for the recommendation. It shall be the responsibility of the chief business officer or his/her designee to monitor the low bid rejections.
- v. **Withdrawal of Bids.** Bids may be withdrawn prior to the time set for receipt of bids. Bids shall not be withdrawn after that time, except as noted herein, without penalty. Only in the event of an obvious and documented error where it would be a manifest injustice to require the vendor to perform, can a vendor withdraw a bid after the time set for receipt of bids. Such withdrawal of bids can be done only upon the recommendation of the institution under procedures approved by the CPO/ Executive Director or designee.
- vi. **Bid Security.** Regent institutions have discretion to use bid security as an incentive to vendors to enter into contractual requirements.

- viii. **Iowa Products.** All state agencies shall use those products produced within the State of Iowa when they are of a quality reasonably suited to the purpose intended and can be secured without additional cost over foreign products or products of other states. ([I.C. §73.1](#))

All laws and rules pertaining to solicitations, bid evaluations, contract awards, and other procurement matters apply to targeted small businesses.

x. Professional Service Contracts.

- a. "Professional service agreements" are contracts for unique, technical and/or infrequent functions performed by an independent contractor qualified by education, experience and/or technical ability to provide services. In most cases these services are of a specific project nature, and are not a continuing, on-going responsibility of the institution. The services rendered are predominately intellectual in character even though the contractor may not be required to be licensed. Professional service agreements may be with partnerships, firms or corporations as well as with individuals.
- b. Selection of a Provider. Professional service agreements for greater than \$50,000 must be selected through a competitive Request for Proposal (RFP) process unless the service is a sole source purchase that is appropriately documented and approved by the Executive Director or designee. The \$50,000 threshold is not based on a one-time cost, but rather on a cumulative cost for on-going services under the terms of the project engagement or extension of the project engagement. Professional service agreements, which are less than \$50,000 over the course of service, may be entered into without using the required competitive bidding process. Total payment to a professional services provider for services provided to any one university department may not exceed \$50,000 in a fiscal year, unless subject to competitive bidding or review and approval by the institutional purchasing department and Executive Director or designee. Selection of a professional service provider shall be based on a variety of criteria including, but not limited to, demonstrated competence, knowledge, references and unique qualifications to perform the services, in addition to offering a fair and reasonable price that is consistent with current market conditions. Additional criteria may be used as appropriate to the circumstances.
- c. Provider Accountability. Work requirements should clearly define all performance objectives, work expectations, project milestones, and specific final deliverables and hold the contractor accountable for successful completion of the resultant agreement. Requirements may include, but not be limited to, reports, training sessions, assessments, evaluations or other tangible services.
- d. Provisions of Professional Service Agreements. The following terms and conditions must be addressed:
- e. Performance Requirements. Performance requirements should be precise and written in such a way that it can easily be determined if and when the contractor has successfully fulfilled his/her obligations under the Agreement. Consequences for noncompliance such as non-payment and/or termination of the contract must also be defined. Scheduled due dates that specify milestone targets must be clearly identified and may include, but not be limited to, regular meetings scheduled to evaluate progress, identification of problem areas to determine

actions to be taken to resolve any concerns, dates for formal written reports, required oral progress reports, and contract monitoring requirements.

- f. **Period of Performance.** The resultant agreement must specify a start date and a completion date. While there may be exceptions, in most circumstances an end date to the agreement will be required. If an end date cannot be determined, a maximum time limit or maximum number of hours must be stated. Agreements with organizations are typically written for a specific term of successive years. In some instances, these agreements are annually renewable. Other provisions of an agreement may include a renewal clause beyond the original term of the agreement. Extended term agreements for individuals are discouraged.
  - g. **Compensation and Payment.** Compensation and payment terms include elements relating to cost and payment, such as maximum cost, (i.e. not to exceed cost), cost per deliverable, hourly rates for individuals providing services, number of hours required, allowable expenses and total authorized for expenses, payment and invoicing procedures. Compensation and payment terms should also include a statement as to whether the Regent institution will pay expenses incurred by the contractor and if so, which ones. Such expenses may include, but not be limited to, airfare (economy or coach class), lodging and subsistence necessary during periods of required travel; expenses incurred during travel for telephone, copying and postage, and private vehicle mileage. If other types of expenses are allowed, they must be clearly defined.
  - h. **Performance Monitoring.** The institution shall monitor the compliance with the terms and conditions of the agreement and applicable laws and regulations.
  - i. **Provision of Liability.** The provider may be required to show proof of insurance coverage and workers compensation in compliance with statutory requirements, in the form specified by the institution.
- xi. **Qualified Vendors of Goods and Services**
- a. Each institutional purchasing department shall maintain an electronic master list of prospective suppliers. Any person, agency, or firm wishing to supply goods or services may request to be added to the institutional master vendor list. The name is added to the institutional master list if, in the professional judgment of the Purchasing agent, the addition would aid in fostering a competitive situation. The Purchasing agent may require the requesting party to furnish information on qualifications to supply the item(s) indicated and financial responsibility prior to determining whether to add a vendor's name to the institution's master list.
  - b. **Exceptions to Policy:** Third party bid subscription services, who themselves do not supply goods or services utilized by Regent institutions, are not approved vendors.
  - c. **Nonresponsive and Nonresponsible Vendors** - Once a supplier is added to the master list, the name shall not be removed from the list by an institution except for good and sufficient reasons. Removal for cause is not to exceed three years,

except upon specific authorization of the Executive Director or designee. Each institutional purchasing designee shall report such vendors to the Executive Director or designee. Reinstatement requires application to the institution. Such reasons shall include, but not be limited to, the following:

- 1) Delivery of goods and services that do not comply with specifications;
- 2) Refusal to deliver after submitting a quotation, bid, or proposal and after receiving an order;
- 3) Withdrawal of quotations, bids, or proposals prior to the placing of an order;

  - e. Based on the committee's interviews with the firms, the committee shall recommend a firm and forward its selection, with justification, to the university chief business officer or designee for authorization to negotiate an agreement with the firm.
  - f. The Selection Committee's summary report shall be combined with the Agreement and forwarded to the Board Office for approval.
  - g. If Board approval is required, the selected firm, and/or the negotiated Agreement, shall be included on the Register of Capital Improvement Business Transactions for Board approval.
  - h. With appropriate detailed justification, an institution may request of the Board or Board Office (depending upon the size of the project) a waiver of the Selection Process and the utilization of a specific Design Professional or Construction Manager at Risk rather than the utilization of a Selection Committee.

## B. Indefinite Services Agreements

Indefinite Services (IS) Agreements are a set of multiple standing three-, four- or five-year Design Professional agreements for project budgets under \$5 million. IS

Agreements do not require Board Office approval.

IS Agreements save administrative funds and time by skipping the resource-intensive formal Design Professional Selection process.

IS Agreements were established by the institutions in 2021 through formal Design Professional Selection Processes at each university. The IS Agreements may be used by the institutions to directly hire any Design Professional who holds an IS Agreement throughout the five-year term of the agreement. If an IS Agreement is not a good fit for a project budget under \$5 million, the institutions can always use the formal Design Professional Selection Process.

IS Agreement five-year term compositions being a:

- four-year base + one year extension (4+1) agreement or a
- three-year base + one year extension + one year extension (3+1+1) agreement.

Examples (subject to change):

Architecture Indefinite Service Agreements:

- Architectural General - Classrooms, Learning Spaces, Offices, Administrative
- Architectural - Building Envelope Design
- Architectural - Dining, Food Service Design
- Architectural - Laboratory Design
- Architectural - Landscape Architecture

Engineering Indefinite Service Agreements:

- Civil Engineering
- Structural Engineering
- Mechanical, Electrical, Plumbing and Technology (MEPT) Engineering
- Utility Engineering
- Geotechnical Engineering and Construction Testing

Building Commissioning Indefinite Services Agreements:

- Building Commissioning - Building Envelope
- Building Commissioning - Mechanical, Electrical, Plumbing and Technology (MEPT)
- Air Emission Dispersion Modeling

University of Iowa Hospitals and Clinics Indefinite Service Agreements

- UIHC - Architectural Lead Healthcare
- UIHC - Mechanical, Electrical, Plumbing and Technology (MEPT)

Toward the end of the IS Agreement's five-year term, each university shall conduct a new formal Design Professional selection process and acquire the next set of Design Professionals, such that there is a seamless transition between IS Agreement terms.

### C. Alternative Delivery Method Selection Process

- i. When the institution proposes use of an alternative delivery method in lieu of the traditional Design Bid Build delivery method, the institution shall obtain approval from the Board or the Board Office.
- ii. The contract award and contract approval are two separate Board Office approvals for both the Design Bid Build and the Construction Manager at Risk

delivery methods.

#### D. Design Professional or Construction Manager at Risk Agreements

- i. Projects budgets less than \$1,000,000 shall be reviewed and approved by the institutions. For project budgets under \$5,000,000, IS Agreements may be used by the institutions without Board Office approval.
- ii. Projects budgets more than \$1,000,000 shall be reviewed and approved by the Board Office. For project budgets under \$5,000,000, IS Agreements may be used by the institutions without Board Office approval.

#### E. Design Professional or Construction Manager at Risk Amendments

- i. Projects budgets less than \$1,000,000, Amendments to Design Professional or Construction Manager at Risk Agreements shall be approved by the institution's chief business officer or designee.
- ii. Projects budgets more than \$1,000,000, Amendments shall be approved by the institution unless a single Amendment exceeds 5 percent or \$100,000, and/or the sum of the cumulative Amendments exceeds 20 percent of the original Agreement. If the amount of the Amendment(s) exceeds this threshold, the Amendment(s) shall be approved by the Board Office, but may be referred for Board action at the discretion of the Board Office.

#### F. Design Professional or Construction Manager at Risk Fees

- i. Payments to the Design Professional or Construction Manager at Risk for services shall be based on a fee negotiated with the institution and approved by the institution, Board Office, or Board as provided for in this Chapter.
- ii. To expedite the start of design, an institution may request a Design Professional to include their Schematic Design fee with their regular RFP proposal at the time of the final interviews. The fee would be set by the institution and clearly stated in the RFP.

After a Design Professional is selected by the institution, the institution and the Design Professional would enter into a Schematic Design Agreement based on the Schematic Design fee. As Schematic Design nears completion, all remaining Design Professional services are negotiated and added to the Schematic Design Agreement as Amendment #1. The new Agreement amount is defined as the sum of the Schematic Design agreement and Amendment #1.

#### G. Disputes with Design Professionals and Construction Managers

Disputes between the Design Professionals or Construction Managers at Risk firms and the university will be handled in accordance with procedures outlined in the Board of Regents' Design Professional or Construction Manager at Risk Agreements.

#### H. Feasibility Study and Ancillary Consultant Agreements

Institutions are authorized to use Feasibility Study and Ancillary Consultant Agreements.

- i. Feasibility Study Agreements may involve strategic planning or master planning services related to university facilities for the purposes of establishing the feasibility, concept or scope for capital projects.
- ii. Ancillary Consultant Agreements may include, but are not limited to, services for building commissioning, quality control, material testing, equipment consultant, testing and balancing, move planning and move execution.
- iii. For Feasibility Study or Ancillary Consultant Agreements with a total anticipated cost less than \$200,000, including reimbursables, the institution shall determine the Selection Process of the consultant or negotiate with the consultant. The institution's chief business officer or designee shall approve the Selection and Agreement.
- iv. For Feasibility Study or Ancillary Consultant Agreements with a total anticipated cost of \$200,000 or more, including reimbursables, the institution shall formally advertise for services, form a Selection Committee, evaluate submittals, short list firms for interviews, interview those firms and make a final selection. The Board Office shall approve the Selection and Agreement.

### 8. Program Statements

The Program Statement describes the facility, which is to be constructed in terms of purpose and scope. It may be prepared prior to hiring a Design Professional or with the assistance of the Design Professional. Once prepared and approved, the Program Statement provides a basis for agreement between the project user, the institution, and the Design Professional.

- A. Program Statements for new buildings, major additions and renovation projects with estimated project costs over \$3 million shall be submitted for Board Office approval.
- B. Program Statements are not required for utilities, grounds, razings, mechanical/electrical system upgrades, restroom modifications, roof replacements, exterior envelope repairs and equipment installations, where the equipment cost is 50% or more of the total construction budget.
- C. The Program Statements may be forwarded for Board action at the discretion of

the Board Office. The Program Statement may include a review of the design concepts and projected measures of efficiency, including net to gross square feet, construction cost per gross square foot and projected utility and maintenance costs.

## **9. Schematic Design Documents**

Approval of Schematic Design follows approval of the Program Statement.

- A. Schematic Designs shall be submitted for Board approval for new building, major additions and renovation projects with an estimated project cost over \$3 million. The Schematic Designs should reflect the Program Statement approved by the Board Office.
- B. Schematic Designs are not required for utilities, grounds, razings, mechanical/electrical system upgrades, restroom modifications, roof replacements, exterior envelope repairs and equipment installations, where the equipment cost is 50% or more of the total construction budget.
- C. The institutional exhibit should include a comparison to the building program, information on the net to gross square footage ratio, estimated construction cost per gross square foot, exterior materials and relationship of exterior design and materials to the campus context (for new construction or addition), operating and maintenance costs, project schedule, and any additional information requested by the Board or Board Office.
- D. Institutional requests for Board approval of a Project Description and Budget (including funding sources) are to be presented no later than the time at which the Schematic Design is presented.
- E. Board approvals of both the Schematic Design and Project Description and Budget will constitute Regents final project approval and authorization to proceed with construction.
- F. Material changes in program, design or cost subsequent to the Board's final approval must be returned to the Board for further approval.

## **10. Project Descriptions and Budgets**

### **A. Definitions**

The Project Description and Budget shall include a brief history of the project, the justification or need for the project, the purpose to be served, a description of the project scope, the approximate net and/or gross square feet, how the project would impact future campus space utilization, an initial budget, and any additional information requested by the Board Office or the Board. The source of funds should be as specific as possible.

- i. The initial budget shall contain lines for major expenditure items and identify source(s) of fund(s).
  - ii. A revised project budget increases or decreases the total budget from the amount approved in the initial budget.
  - iii. An amended project budget changes the line items and/or source(s) of fund(s) from those approved in the initial budget only, and does not need Board Office approval.
- B. Project Budgets up to and including \$1 million shall be reviewed and approved by the institutions. Any project budget for the official state-owned residence of an institutional head of \$100,000 or more shall be reviewed and approved by the Board Office.

  - ii. Revised Project Budgets \$1,000,000 to \$3,000,000 shall be reviewed and approved by the Board Office.
  - iii. Revised Project Budgets more than \$3,000,000 Shall be reviewed and approved by the Board. Revised project budgets less than \$750,000 above the last approved budget, shall be approved by the Board Office.
- F. Project Budgets or Revised Project Budgets
  - i. Provide the estimated amount of deferred maintenance eliminated by restoration or renovation projects

## **11. Preparation of Plans and Specifications**

- A. Preparation of Plans and Specifications
  - i. Plans and specifications will be prepared in compliance with good practice, state and federal law, and Board policy.

- ii. Final plans and specifications shall comply with the project approved by the Board and the chief business officer or designee shall so certify to the Board Office.

B. Liquidated Damages and Performance Based Incentives

Liquidated damages clauses are to be used on those capital projects that are of extreme urgency to a university function or for a project involving income generation.

Performance based incentive clauses may be used under limited circumstances with specific rationale. Provisions for liquidated damages and performance-based incentives shall be consistent with Iowa Code.

C. Requirement for Holding Bids

Universities shall provide in their instructions to bidders that all bids be held for at least 45 days.

## 12. Bidding of Construction Contracts

The policies of the Board of Regents, State of Iowa, for the bidding of construction contracts comply with the requirements of the Iowa Code and Iowa Administrative Code.

A. Public Competitive Bidding

- i. The university, in the name of the Board, shall advertise and competitively bid the contemplated capital improvement or construction consistent with provisions of Iowa Code.
- ii. Targeted Small Businesses Construction Contracts

All laws and rules pertaining to solicitations, bid evaluation, contract awards, and other procurement matters apply to targeted small business targets to the extent there is no conflict. If Iowa Code related to targeted small businesses conflicts with other laws or rules, then Iowa Code related to targeted small business shall govern.

B. Bid Security

- i. For bids exceeding an estimated construction cost of \$100,000, bids shall be submitted with bid security through [www.bidexpress.com](http://www.bidexpress.com). Each bid security shall be in the amount of at least five percent of the bid.
- ii. Bid security shall be an electronically-verified bid bond uploaded, scanned copy (pdf preferably) of the University's completed bid bond form, uploaded certified check or uploaded cashier's check. No cash or regular bank check deposits are allowed.
- iii. Certified checks and cashier's checks shall be made payable to the "Board of

Regents, State of Iowa.”

- iv. For the three lowest responsible bidders who have their bid security in the form of a cashier’s or certified check, those bidders must hand-deliver or mail the original check within 48 hours of the bid opening to the address provided by the University. Subsequently, these cashier’s checks or certified checks will be returned by the Universities to the three lowest responsible bidders within 48 hours after the lowest responsible bidder’s Contract and Performance and Payment Bond in the amount of 100% of the contract sum has been executed by the lowest responsible bidder within 10 days after receipt of the Notice of Award.
- v. Should the lowest responsible bidder not furnish a Contract and Performance and Payment Bond in the amount of 100% of the contract sum within 10 days after receipt of the Notice of Award, the bid security may be forfeited or cashed by the University as liquidated damages.
- vi. Bids that are incorrect, secured by any other form of bid security or submitted with no bid security shall be automatically disqualified.

- viii. As permitted by the Iowa Code, on bids of \$50,000 or less, Certified Targeted Small Businesses may either provide a bid security, as described above, OR a bond waiver from the Iowa Economic Development Authority. This waiver applies only to a prime contract where the total individual transaction does not exceed \$50,000
- ix. For any bid security defaults or issues related to bid securities, notify the Board Office.

### **13. Bid Openings, Receipt of Construction Bids and Award of Construction Contracts**

#### **A. Notification of Bid Openings**

The universities shall post on their websites bid results and upcoming bid openings. For estimated construction costs over \$100,000, the Iowa Code 2.3 section 1 states “All plans and specifications for repairs or construction, together with bids on the plans or specifications, shall be filed by the board and open for public inspection.”

#### **B. Receipt of Construction Bids**

- i. All construction bids shall be received as detailed in the advertisement for bids and “the instructions to bidders” after which such bids will promptly be publicly opened and read aloud by the chief business officer or designee.

- ii. No bid shall be received after the designated time for receipt of bids.
- iii. Upon electronic receipt, bids will be secured by a university representative.
- iv. The place where bids are to be opened publicly and read aloud shall be posted by the university in the advertisement for bids.
- v. Any bidder who submitted a timely bid and has concerns related to the bidding of a construction contract under this chapter shall contact the university Associate Vice President of Facilities or equivalent position, or his/her designated representative, within two university business days following public opening of the bids.
- vi. The Associate Vice President of Facilities or equivalent position, or his/her designated representative, shall discuss the issue(s) with the bidder in an effort to resolve the dispute. If an acceptable resolution is not achieved, the Associate Vice President or equivalent position or his/her designated representative, shall document the bidder's concerns in writing and forward them to the appropriate decision-maker along with the recommendation to award the contract. Once a contract has been awarded in accordance with this chapter, the decision is final.
- vii. With appropriate detailed justification such as the receipt of no bids or under emergency circumstances, an institution may request from the Board Office a waiver of the bidding process and permission to negotiate a contract with a specific contractor.

## **14. Construction Contracts and Change Orders**

### **A. Construction Contracts**

A Regent construction contract shall be let consistent with Iowa Code to the lowest responsible bidder. However, if in the judgment of the Board, bids received are not acceptable, the Board may reject all bids and proceed with the construction, repair, or improvement by a method as the Board may determine as provided by Iowa Code.

### **B. Reports and Awarding of Contracts**

- i. For projects with approved budgets under \$1,000,000, the construction contract shall be awarded by the institution unless there are unusual circumstances, other than a minor irregularity, in which case the award shall be referred to the Board Office for action.
- ii. On projects budgets of over \$1,000,000, the universities shall forward to the Board Office a copy of the bid tabulation within 24 hours of the bid opening. The bid tabulation shall include the construction cost estimate(s) for the Base Bid and any alternates.
- iii. For projects with approved budgets over \$1,000,000, the construction contract shall be awarded by the Board Office, but may be referred for Board action at the

discretion of the Board Office.

- a. The chief business officer or designee shall furnish to the Board Office a signed recommendation for award of the construction contract, which will include the bid tabulation with construction cost estimate(s), a report of the bid opening and any bidding irregularities, as well as a written statement indicating whether award of the contract to the low responsible bidder will allow the project to proceed within the last approved project budget.
- b. The award recommendation should include copies of any targeted small business documentation provided with the bid, if applicable.
- c. If the chief business officer or designee determines that any unusual circumstances exist, which require special attention of the Board, the report of the bid opening and the award recommendation shall include such a statement.
- d. The construction contract shall not be awarded until the university receives Board Office approval. Upon approval, the university issues a "Notice Award" to the contractor.

#### C. Construction Contract Change Orders

- i. The university may authorize or submit to the Board Office for approval change orders to the construction contract.
- ii. All change orders shall be accompanied by an explanation of the reason for the change.
- iii. For projects budgets less than \$1,000,000, change orders shall be approved by the institution.
- iv. For projects budgets of \$1,000,000 or more, change orders shall be approved by the institution, unless a single change order exceeds 5% of the contract amount or \$100,000, and/or the sum of the cumulative change orders exceeds 20 percent of the original construction contract amount. If the amount of the change order(s) exceeds this threshold, the change order shall be approved by the Board Office. Information on all approved change orders for projects of \$1,000,000 or more shall be reported to the Board as needed.

#### D. Retention from Payments on Contracts

- i. Retention from payments to construction contractors is governed by provisions of Iowa Code.
- ii. Iowa Code provides for prompt payment by the contractor to its subcontractors.

#### E. Iowa State Sales Tax on Construction Projects

- i. The services and materials furnished as part of Regent construction projects are generally exempt from state sales tax.
- ii. Iowa Code provides two options to deal with Iowa state sales tax on Board of

Regents construction projects.

- a. Regent universities may issue exemption certificates to contractors and subcontractors allowing them to purchase, or withdraw from inventory, building materials for the contract free from Iowa sales tax following Department of Revenue procedures, or
- b. The contractor pays Iowa sales tax on all building materials and includes that cost in the bid; the contractor then submits Department of Revenue forms to the Regent university to document the amount of Iowa sales tax paid on the construction materials incorporated into the real property. The Regent university would then apply for a refund of the Iowa sales tax following Department of Revenue procedures.
- c. The Conditions of the Contract for all Regent construction projects shall identify whether exemption certificates will be issued.

## **15. Acceptance of Completed Construction Contracts**

- A. The chief business officer or designee, is authorized to accept contract work as complete and authorize final payments on behalf of the Board of Regents and in accordance with Iowa Code. The waiting period, required by Iowa Code, shall commence on the date of such acceptance and authorization.
- B. The contract performance bond shall provide coverage for at least one year following contract acceptance by the institution and permit the Board recourse to remedy contractor deficiencies without prejudice due to prior acceptance of the contract by the institution.

## **16. Final Reports**

Final reports for completed capital projects with project budgets over \$1,000,000 shall be sent to the Board Office in a timely manner. Final reports for projects under \$1,000,000 shall be retained by the institutions. The final report document shall show in summary form the last approved project budget, expenditures, balance or overdraft in the project account. For any surplus project funds, describe where those funds would be allocated. For any overdraft of project funds, provide an explanation.

## **17. Naming**

- A. All proposed honorary names of facilities, properties, or university Major Units and not "Minor Units" as defined below, owned or operated by the Regent institutions, including the Board of Regents, State of Iowa or UIHC must have specific Board approval prior to naming.
  - i. "Major Units" are entire buildings, wings of buildings, colleges, programs and large sections of campus.
  - ii. "Minor Units" are campus areas or sections of facilities such as rooms, labs, open spaces, streets, structures and physical features. Naming of Minor Units

or functional names of Major Units such as “Physics Building” or “Chemistry Building” may be approved by the institutional head, and do not require Board approval.

- B. Before proceeding with any naming, all circumstances surrounding the naming must be carefully considered, including the overall benefit to the institution, whether the name is and will continue to be a positive reflection on the institution, and whether the name comports with the purpose and mission of the Board of Regents and its institutions.
- C. The Board may name facilities, properties or university units in honor of persons (living or deceased) or, entities such as a business or foundation. Examples of the categories of persons and entities eligible include:
  - i. Alumni with close ties to the institution.
  - ii. Distinguished Iowans.
  - iii. Persons who have made an outstanding contribution to a field of study, discipline, university, the State of Iowa, the nation or world.
  - iv. Donors who have made significant contributions to the institution generally, to a college or major unit, or to a related program.
  - v. Donors who have made significant contributions toward construction, renovation and/or the critical programmatic, annual operating, or future capital renewal costs of new, renovated, or other existing facilities.
  - vi. Employees (presidents and faculty/staff) – no earlier than two years following the end of employment/appointment or upon death. No unit may be named for a current Regent employee.
  - vii. Combinations of the above.

#### D. Corporate Naming

Corporate namings require a thorough degree of due diligence to avoid commercial influence or conflict of interest.

#### E. Institutional Responsibilities

- i. Each institutional head shall regularly inform the President and President Pro Tem of the Board of Regents and the Executive Director of developments relating to any possible naming of a Major Unit.
- ii. The institution shall:
  - a. Ensure that individuals wishing to pursue a gift-based naming opportunity for a Major Unit obtain the permission of the institutional head before any prospective donor is approached;

- b. Consult and coordinate, as needed, appropriate members of the institution's community and with the appropriate officials of the applicable fundraising arm of the institution to provide the benefit of the collective institutional memory and perspective with regard to the potential naming;
- c. Develop guidelines/rationale to determine the appropriate recognition of a donor, including the contribution threshold for the naming of a Major Unit.
- d. Conduct a thorough "due diligence" review of each donor and the person/entity (if different than the donor) in whose honor the naming is to be made and the implications of the naming for the institution. A thorough due diligence would include, at a minimum:
  - 1. Review of any potential conflict of interest issues affecting any Regent institution;
  - 2. Review of potential impact upon the academic and research autonomy of the institution;
  - 3. Evaluation of the impact on future giving by the donor or others;
  - 4. Consultation with the Board's bond counsel to determine whether the naming of the Major Unit could adversely affect existing or future tax-exempt bonds, and if so to what extent; and
  - 5. Consultation with institutional counsel and, to the extent appropriate, counsel for the applicable fundraising arm of the institution to ensure compliance with applicable laws and regulations.
- F. Utilize a written gift agreement with each donor when the naming of a Major Unit may result (unless this provision is waived by the Board); the agreement must stipulate that, among other items, recognition is subject to the prior approval by the Board of Regents, that it remains subject to applicable policies of the Board, and to subsequent reconsideration by the Board. Reconsideration by the Board may occur in extraordinary circumstances if the prior approved naming may be damaging to the reputation of the Board or the institution; or contradictory to applicable law or to the policies, procedures or strategic objectives of the Board or institution.

## 2.4 Information Technology

Information Technology (IT) provides essential services to Iowa Regent's universities. It is critically important that these services be used to 1) support the mission of the Regents, 2) appropriately secured the systems, facilities, and information that is created, accessed, handled, and stored by them and 3) provide equal access to IT resources. Universities and Schools shall maintain complementary IT policies and procedures, which are consistent with this policy manual and any other applicable technology use policies of the Regents.

### 1. Acceptable Use

Unless otherwise specified in this policy manual, or other Regents policies, use of Regents information technology resources are restricted to purposes related to the Regents mission. Eligible individuals are provided access to IT resources in order to support their studies, instruction, research, duties as employees, and official business with the Regents, and other Regents-sanctioned activities. Universities will have policies that define additional details of acceptable and prohibited uses, privacy principles, and enforcement, that augment the following basic requirements for acceptable use:

- A. Individuals may not share or transfer to others their Regents accounts including network IDs, passwords, access codes that allow them to access Regents information technology resources.
- B. Incidental personal use of information technology resources must adhere to all applicable Regents policies.
- C. Uses may not involve violations of the law, interfere with the fulfillment of an employee's Regents responsibilities, or adversely impact or conflict with activities supporting the mission of the Regents.

Universities must have policies that address:

- i. Authentication to systems, including
  - a. Password length, complexity and renewal requirements
  - b. Requirements for use of multi-factor authentication
  - c. Account life cycles
- ii. Security classification of institutional data and the protections to be applied to the different categories of data

- iv. Minimum IT security requirements for all equipment that utilizes campus networks
- v. IT security event reporting and incident handling

- vi. Appropriate IT security controls to achieve compliance with all applicable local, state, and federal laws, industry standards, and regulations. These may include but are not limited to:
  - a. Health Insurance Portability and Accountability Act (HIPAA)
  - b. Family Education Rights and Privacy Act (FERPA)
  - c. Federal Information Security Management Act (FISMA)
  - d. Human Subjects Research (45 CFR 46; 21 CFR 56)
  - e. Export Controls (EAR; ITAR)
  - f. Gramm-Leach Bliley Act (GLBA)
  - g. Payment Card Industry Data Security Standards (PCIDSS)

B. Accessibility

To ensure equal access, as well as compliance with applicable local, state, and federal laws, the Regents universities and schools shall have policies and guidelines that demonstrate and support our commitment to electronic and information technology accessibility, including but not limited to, the following:

- i. Guidelines for the procurement (e.g., Request for Proposal, contractual language), design and development, management, and use of accessible electronic and information technologies
- ii. Establishment of technical standards for accessible on-site and online learning and work environments
- iii. Accessible web sites (e.g., Web Content Accessibility Guidelines)
- iv. Accessible document and media types
- v. Campus awareness programs and support services

## CHAPTER 3 – ACADEMIC POLICIES AND PROCEDURES

### 3.1 Non-Discrimination

- A. It is the policy of the Board of Regents to provide equal opportunity to all students at all Regent institutions. It is an unfair or discriminatory practice for any educational institution to discriminate on the basis of race, color, age, sex, sexual orientation, genetic information, national origin, marital status, religion, disability, protected veteran status, or any other class protected by law in any program or activity. Such discriminatory practices shall include but not be limited to the following practices:
- i. Exclusion of a person or persons from participation in, denial of the benefits of, or subjection to discrimination in any academic, extracurricular, research, occupational training, or other program or activity except athletic programs;
  - ii. Denial of comparable opportunity in intramural and interscholastic athletic programs;
  - iii. Discrimination among persons in employment and the conditions of employment;
  - iv. On the basis of sex, the application of any rule concerning the actual or potential parental, family or marital status of a person, or the exclusion of any person from any program or activity or employment because of pregnancy or related conditions dependent upon the physician's diagnosis and certification.
- B. For the purpose of this section, "educational institution" includes any preschool, elementary, secondary, or community college, area education agency, or postsecondary college or university and their governing boards. This section does not prohibit an educational institution from maintaining separate toilet facilities, locker rooms or living facilities for the different sexes so long as comparable facilities are provided. ([Iowa Code section 216.9](#))

### 3.2 Admission Requirements

- A. The Board shall make rules for admission to and for the government of the institutions under its control, consistent with law. ([Iowa Code § 262.9\(3\)](#))
- B. The Board of Regents, State of Iowa, has adopted the following requirements governing admission of students to the three state universities.
- i. Each university shall describe in its catalog the requirements and other information necessary to make the admission process operate within the framework of these requirements.
  - ii. Amendments and changes in these requirements are proposed by the universities to

the Board Office, which examines the proposals and makes specific recommendations through the Council of Provosts to the Board of Regents, State of Iowa, which is empowered by law to establish the admission requirements.

a. Admission of undergraduate students directly from high school. Students desiring admission must meet the requirements in this section and also any special requirements for the program, school, or college of their choice.

- 1) Applicants must submit a formal application for admission, together with the appropriate application fees for U.S. citizens or permanent residents, to the State University of Iowa, Iowa State University, or the University of Northern Iowa. All three universities have a separate application fee for international students.
- 2) Transcripts of students' academic records, including credits and grades, rank in class (if available), high school grade point average, courses completed, and certification of graduation, shall be provided by the appropriate secondary schools.

Applicants may also submit SAT or ACT scores. Applicants whose primary language is not English must also meet an English proficiency requirement specified by each university. Applicants may be required to submit additional information or data to support their applications.

- 3) The Regent Admission Index (RAI) is calculated for freshmen applicants who submit all components using the following formula:
  - a) Regent Admission Index = (3 x ACT composite score) + (30 x high school grade point average) + (5 x number of high school courses completed in the core subject areas).
- 4) Graduates of accredited high schools in other states may be held to higher academic standards, but must meet at least the same requirements as graduates of Iowa high schools. The options for conditional admission or summer tryout enrollment may not necessarily be offered to these students.
- 5) Applicants who are graduates of non-accredited high schools will be considered for admission in a manner similar to applicants from accredited high schools, but additional emphasis shall be given to scores obtained on standardized examinations.
- 6) Applicants who are not high school graduates, but whose classes have graduated, may be considered for admission. They shall be required to submit all academic data to the extent that it exists and achieve scores on standardized examinations that demonstrate that they are adequately prepared for academic study.
- 7) Students with superior academic records may be admitted, on an individual basis, for part-time university study while enrolled in high school or during summers prior to high school graduation.

- 8) In rare situations, exceptional students may be admitted as full-time students to a Regent university before completing high school. Early admission to a Regent university is provided to serve persons whose academic achievement and personal and intellectual maturity suggests readiness for collegiate level study. Each university shall specify requirements and conditions for early admission.
- C. Consistent with applicable law, the universities shall not use race or other federal- or state-protected class characteristics as a factor in admission decisions for undergraduate, graduate or professional programs.
  - D. College of Medicine and College of Dentistry Residency Policy. The Board of Regents adopts the following enrollment requirements applicable to the College of Medicine and the College of Dentistry at the University of Iowa.
    1. A minimum of 80% of enrolled students shall be residents of the State of Iowa.
    2. In addition to the definition of Iowa resident for the purposes of tuition and fee classification, as contained in Iowa Administrative Code 681-1.4, the following definition of Iowa resident shall apply for the limited purposes of determining compliance with this policy:
      - a) An individual who graduated from an Iowa high school.
      - b) An individual who has lived in Iowa for at least four consecutive years immediately preceding the date the individual applies for admission.
      - c) An individual who was enrolled in an eligible postsecondary institution as defined in Iowa Code section 261E.2 prior to the date the individual applies for admission.
      - d) Any other definition of Iowa resident contained in Iowa Code section 262.9.39.
    3. Applicants for admission to the College of Medicine or the College of Dentistry shall be required to complete an attestation that contains all of the elements required by Iowa Code section 262.9/39.
    4. Classification as an Iowa resident for the purposes of this enrollment policy does not automatically entitle a student to classification as a resident for the purposes of tuition and fees. All students must meet the residency classification requirements contained in Iowa Administrative Code 681-1.4 in order to be eligible for resident tuition and fee rates.

---

<sup>1</sup> For purposes of calculating the Regent Admission Index, ACT composite score has top value of 36 (SAT scores will be converted to ACT composite equivalents); high school GPA is expressed on a 4-point scale; and number of high school courses completed in the core subject area is expressed in terms of years or fractions of years of study.

- b. Admission of undergraduate students by transfer from other colleges. Students desiring admission must meet the requirements in this section and also any special requirements for the curriculum, school, or college of their choice.
- 1) Applicants must submit a formal application for admission, together with the appropriate application fee for U.S. citizens or permanent residents, to the State University of Iowa, Iowa State University, or the University of Northern Iowa. All three universities have a separate application fee for international students. Applicants must request that each college they have attended send an official transcript of record to the Admissions Office. High school academic records and standardized test results may also be required. Applicants whose primary language is not English must also meet an English proficiency requirement specified by each university.
  - 2) Transfer applicants with a minimum of 24 semester hours of grades acceptable for transfer credit from colleges or universities accredited by an entity recognized by the US Department of Education who have achieved the grade point required by each university for specific programs for all college work previously attempted, will be admitted, subject to the limitations of b4. Higher academic standards may be required of students who are not residents of Iowa.  
  
Applicants who have not maintained the grade point required by each university for specific programs or who are under academic suspension from the last college attended may, after a review of their academic and test records and at the discretion of the admissions officers: (1) be admitted unconditionally, (2) be admitted conditionally, (3) be required to enroll for a tryout period during a preceding summer session, or (4) be denied admission.
  - 3) Admission of students with fewer than 24 semester hours of college credit will be based on high school academic records in addition to review of the college record.
  - 4) Transfer applicants under disciplinary suspension shall not be considered for admission until information concerning the reason for the suspension has been received from the college assigning the suspension. Applicants granted admission under these circumstances shall be admitted on probation.
  - 5) Transfer applicants from colleges and universities not accredited by an entity recognized by the US Department of Education may be considered for admission on an individual basis, taking into account all available academic information. This rule is intended to implement [Iowa Code § 262.9\(3\)](#).
- c. *Transfer Credit Practices.* The Regent universities endorse the *Joint Statement on Transfer and Award of Academic Credit* approved in 1978 by the American Council on Education (ACE) and the American Association of Collegiate Registrars and Admissions Officers (AACRAO). The acceptance and use of transfer credit is subject to limitations in accordance with educational policies at each university.
- 1) Students from colleges and universities accredited by an entity recognized by

the US Department of Education.

- a) Credit earned at colleges and universities accredited by an entity recognized by the US Department of Education is acceptable for transfer, except that credit in courses determined by the receiving university to be of a remedial, vocational, or technical nature, or credit in courses or programs in which the institution granting the credit is not directly involved, may be accepted at the discretion of the university.
  - b) Of the coursework earned at a two-year college, students may apply up to one-half but no more than 65 hours of the credits required for a bachelor's degree toward that degree at a Regent university. Exceptions are allowed when part of an articulation agreement between the receiving university and the two-year college.
- 2) Students from colleges and universities that have candidate status with an accrediting agency.
- a) Credit earned at colleges and universities that have become candidates for accreditation by an association is acceptable for transfer in a manner similar to that from colleges and universities accredited by an entity recognized by the US Department of Education if the credit is applicable to the bachelor's degree at the receiving university.
  - b) Credit earned at the junior and senior classification from an accredited two-year college that has received approval by an accrediting association for change to a four-year college may be accepted by a Regent university.
- 3) Students from colleges and universities not accredited:
- a) Credit earned at colleges and universities not accredited by an entity recognized by the US Department of Education shall be validated by satisfactory academic study in residence or by examination. Each university shall specify the amount of the transfer credit and the terms of the validation process at the time of admission.
  - b) In determining the acceptability of transfer credit from colleges that are not accredited by an entity recognized by the US Department of Education in states other than Iowa, acceptance practices indicated in the current issue of *Transfer Credit Practices of Selected Educational Institutions* shall be used as a guide. For institutions not listed in the publication, guidance is requested from the designated reporting institution of the appropriate state.
- 4) Students from foreign colleges and universities.

Transfer credit from foreign educational institutions may be granted after a determination of the type of institution involved and its recognition by the educational authorities of the foreign country and after an evaluation of the content, level, and comparability of the study to courses and programs at the

receiving university. Credit may be granted in specific courses, but is frequently assigned to general areas of study. Extensive use is made of professional journals and references that describe the educational systems and programs of individual countries.

### **3.3 Residency Classification for Tuition and Fee Purposes**

Each university shall establish a system for classifying students as a resident or nonresident for tuition and fee purposes as described in 681 IAC 1.4. One of the primary considerations in determining residency is the student's state of domicile – the state where the student has a true and permanent home to which they intend to return. In determining the residency of a current or prospective student, the universities shall consider all information presented by a student that may be relevant to determining the student's state of domicile. This may include, but is not limited to:

- A. The student's primary source of financial support
- B. For students who are legal dependents, the domicile of their parent(s) or legal guardian(s)
- C. Evidence of the student's connection to and residence in the State of Iowa (i.e. regular employment, lease or ownership of property, licensing documentation, voting or registration documentation, income tax filings, etc.)
- D. The location of the student's residence during periods when classes are not in session
- E. Any other information that could reasonably establish the student's state of domicile.

The process for determining the residency classification of a student or prospective student must take into consideration individual circumstances unique to the student. The university may request that the student provide sufficient document evidence supporting a request for classification as a resident. The failure or inability of a student to provide all the document evidence requested by the university shall not automatically cause the student to be classified as a nonresident. The universities shall consult with the Board office regarding interpretation and implementation of 681 IAC 1.4 and this policy.

### **3.4 Consideration of Prior Misconduct in Admission**

When a student wishes to transfer from one of the universities governed by the Board of Regents, State of Iowa, to another Regent institution and such student is currently charged with, or has been found to have engaged in, a violation of the Regent Rules of Personal Conduct, or a serious violation of the institutions' disciplinary rules, information concerning such charges shall be made available to the receiving Regent institution. Each Regent institution shall develop and maintain its own internal rules governing confidentiality of student records.

- A. Requests for Information on Misconduct. Regent institutions shall require prospective or re-entering students to disclose whether they have been arrested or convicted of a crime as part of the process for admission or readmission. They shall also require disclosures

of the disciplinary record at other educational institutions. The existence of a criminal or disciplinary record shall not automatically result in refusal of admission, but may be the basis for refusal to admit or for placement of conditions on admission.

- B. Transfers to Regent universities are described in [681 IAC 9.2](#).

### **3.5 Strategic Planning**

- A. Strategic planning shall occur both at the Regent and institutional levels. The Board shall undertake an evolving, issues-oriented planning process, where it scans the environment for important issues and provides necessary strategic responses on an ongoing basis. At the institutional level, the Board shall help establish institutional direction, monitor and evaluate progress toward achieving planned initiatives, and review and approve annual plans and budgets that reflect the realization of institutional mission and goals. The Board shall develop a strategic plan which covers a period of five years and shall define performance indicators which help the Board to monitor its strategic plan.
- B. Each Regent institution shall develop a strategic plan which covers a period of five years and is consistent with the Board of Regents' overall strategic planning process and strategic plan.
- C. The Board shall be consulted about and subscribe to the overall direction established by each Regent institution, particularly as it relates to the mission, general goals and areas of focus articulated by the institutions. Plans and budgets shall reflect the overall mission, goals, and priorities of the institution, and show in clear terms how the institution intends to accomplish its strategies, specifically within the context of limited resources.
- D. Annual progress reports including any proposed revision of goals, strategies, action steps, mission, vision, values or culture statements shall be presented to the Board.
  - i. Each of the Regent institutions shall develop, maintain, and update a Board-approved strategic plan that describes its mission, vision, values, culture, and performance indicators and is consistent with the Board's strategic plan and performance indicators.
  - ii. Each of the Regent institutions shall prepare and present to the Board an annual report that includes progress on its institutional performance indicators according to the annual Governance Report schedule.
  - iii. Each of the Regent institutions shall include its current Board-approved strategic plan on its institutional website.

### **3.6 Academic Program Planning Approval**

- A. New Program Approval

- i. No action shall be taken by the institution on any proposed programs until the new program is approved by the Board of Regents. This includes hiring new faculty, securing facilities, developing curriculum, or advertising the program.
- ii. The Board Office shall maintain a program planning list that includes the name and educational level of proposed programs that are currently undergoing an institutional review and are likely to be submitted for program approval by the Board of Regents within the year. Proposed programs shall be on the program planning list for at least three months prior to the submission of [Form A](#) to the Board Office.
- iii. The Council of Provosts shall review the proposed program planning list at each meeting.
- iv. An institution planning a new or expanded academic program shall first submit the program proposal to the Board Office using the format developed by the Board Office ([Form A](#)), including accreditation requirements and viability; and verified practicum, internship, or similar sites.
- v. An institution planning a new or expanded academic program shall submit the appropriate information to the Iowa Coordinating Council for Post High School Education (ICCPHSE) using the prescribed format. All proposals submitted to the Board Office shall include the action taken by the ICCPHSE.
- vi. The Board Office will ensure that the program proposal is on the agenda for the next appropriate meeting of the Council of Provosts. The proposal shall be reviewed by the Council of Provosts considering the following key criteria:
  - a. Need/demand in Iowa for the proposed offering;
  - b. Duplication/unnecessary duplication resulting from implementing the proposed offering;
  - c. Costs, reallocations, long-term resource needs of the proposed offering;
  - d. Appropriate facilities and equipment;
  - e. Projected sustainability;
  - f. Quality of the proposed offering; and
  - g. Alignment with the university's mission and the Board's and the institution's strategic plans of the proposed offering.
- vii. After reviewing the program proposal, the Council of Provosts shall take action regarding the program proposal.
- viii. With a favorable recommendation from the Board Office and the Council of Provosts, the Board Office will place the program proposal on the agenda for the next appropriate meeting of the Board of Regents' Academic Affairs Committee. The Committee shall review the proposal and recommend action by the Board of Regents or take other action as it deems appropriate.

- ix. The institution will implement the proposed program consistent with the approved authorization.

#### B. Principles and Standards for Program Duplication

- i. The Board of Regents, State of Iowa, recognizes that program overlap or duplication cannot be evaluated in absolute terms. Some duplication is desirable, appropriate, and essential. Other duplication is inappropriate.
- ii. Policy decisions concerning the appropriateness of new programs or the expansion of existing programs that appear to duplicate activities in other institutions shall be based on such considerations as the following:
  - a. Personnel, facilities, and equipment adequate to establish and maintain a high-quality program;
  - b. Current and future student demand;
  - c. Adequate employment opportunities for graduates;
  - d. Evidence of collaboration with another Regent university already offering the same program;
  - e. Enhancement of other programs already in place at the university;
  - f. Consistency with the institutional mission;
  - g. Location/delivery mode of proposed program;
  - h. Similar offering(s) at other colleges in Iowa.

#### C. Academic Program and Academic Department Name Change

Requests to change the name of an academic program or an academic department shall be submitted to the Board Office for review and staff approval ([Form G](#)). The request shall include justification for the proposed change, including information relating to similar programs or departments and the effect of change on existing students. At the discretion of the Board Office staff the request can be placed on the agenda for the next appropriate meeting of the Board of Regents to review and take action as it deems appropriate. The institution shall not announce the name change until it has been approved by either the Board of Regents staff or the Board of Regents.

#### D. Academic Program Reduced Admissions and Termination

Requests to limit<sup>[2]</sup>, suspend, substantially reduce admission, or terminate a program shall be submitted to the Board Office with justification for such a request before any action is implemented at the institution ([Form J](#)). Information submitted on [Form J](#) shall include a teach-out plan that covers existing students. Following review by the Board Office and approval by the Council of Provosts, the request shall be placed on the agenda for the next appropriate meeting of the Board of Regents' Academic Affairs Committee by the Board Office. The Committee shall review the proposal and

recommend action by the Board of Regents or take other action as it deems appropriate. The program shall not be terminated until after the last student has completed the requirements of the program. Requests to reopen admissions shall be submitted on [Form A](#). Board approval shall be required to reopen admissions.

---

<sup>[2]</sup> The term "limit" in this policy refers to the formal restriction of admission to a program of a Regent university by establishing a numerical enrollment maximum. It does not include limits placed on admissions to graduate programs, the routine reduction in the number of classes or sections offered due to staffing problems, other changes in curriculum, prerequisite changes, or changes in grade point requirements for retention or graduation.

### **3.7 Academic Program Review**

- A. The institutions shall conduct a review of all academic programs on a seven-year cycle and shall provide the Board Office with an annual list of programs reviewed. Newly initiated programs will need to demonstrate that the program has met the goals and objectives for the program at the time that it was initially proposed. A report on each program reviewed shall be provided to the Board Office in a format developed by the Board Office ([Form B](#)).
- B. The Board Office shall prepare an annual report to the Board with emphasis on exemplary or particularly noteworthy features of the academic program review.
- C. The Board Office may periodically and selectively identify programs from the reports submitted by the institutions to be audited on-site. The following are examples of programs that might be audited: (a) newly initiated programs, (b) programs with negative review recommendations and (c) those with significant enrollment declines. The Board Office shall determine if any matters resulting from the audits need Board action and place them on the agenda of the Board of Regents' Academic Affairs Committee.

### **3.8 Approval and Closing of New Centers and Institutes**

- A. Proposals to create new centers or institutes at the universities shall be submitted to the Board Office. Following review by the Board Office and the Council of Provosts, the Board Office shall place the request on the agenda for the next appropriate meeting of the Board of Regents' Academic Affairs Committee. The Committee shall review the proposal and recommend action by the Board of Regents or take other action as it deems appropriate.

In general, the type of center or institute that requires Board approval shall be the one that focuses on faculty-driven research and that is expected to leverage individual research grants into larger institutional projects.

- B. The proposals shall be submitted in a format developed by the Board Office ([Form C](#)).
- C. The institutions shall conduct a review of Board-approved centers and institutes on a seven-year cycle and shall provide the Board Office with an annual list of centers and institutes that have been reviewed. A report on each center or institute reviewed shall be provided to the Board Office in a format developed by the Board Office ([Form D](#)).
- D. The Board Office may periodically and selectively identify centers and institutes from the reports submitted by the institution to be audited on-site. The Board Office shall determine if any matters resulting from the audits need Board action and place them on the agenda of the Board of Regents' Academic Affairs Committee.
- E. The name of a proposed center or institute typically follows the function of the unit. However, the university may desire to honor an individual by naming a center or institute

for that individual. All proposed honorary names of centers and institutes at the Regent universities, including UIHC, shall obtain specific Board of Regents approval prior to naming.

- i. Before proceeding with any naming, all circumstances surrounding the naming must be carefully considered, including the overall benefit to the institution, whether the name is and will continue to be a positive reflection on the institution, and whether the name is consistent with the purpose and mission of the Board of Regents and its institutions.
  - ii. The Board may name centers and institutes in honor of persons (living or deceased) or entities, such as a business or foundation. The following are examples of the categories of persons and entities eligible for naming:
    - a. Alumni with close ties to the institution.
    - b. Distinguished Iowans.
    - c. Persons who have made an outstanding contribution to a field of study, discipline, university, the State of Iowa, the nation, or the world.
    - d. Donors who have made significant contributions to the institution, especially to the college that houses the center or institute or to the center or institute.
    - e. Employees (president and faculty/staff). However, no center or institute may be named for a current Regent or Regent employee. Naming cannot occur earlier than two years following the end of employment/appointment or upon death.
  - iii. A center or institute cannot be named for an elected official until that individual is no longer in office.
  - iv. The request to name the center or institute shall be submitted to the Board Office in the manner specified by the Board Office ([Form L](#)).
- F. Requests to close a center or institute shall be reported to the Board Office on [Form H](#). After reviewing the request, the Board Office shall place the proposal on the agenda of the Academic Affairs Committee.
- G. Institutional responsibilities regarding due diligence concerning the proposed naming are described in Chapter 2.3.19 in the Board of Regents Policy Manual.

### **3.9 Accreditation Reporting**

- A. All accreditation reports on a program, department, college, or the institution, shall be submitted on [Form E](#) to the Board Office, which will review and summarize the documents for the information of the Board of Regents.

- B. Accreditation reports shall be sent to the Board Office no later than three months after final agency action; include required institutional response(s). The institutions shall submit complete documentation of the accreditation process, specific program(s) accredited, accreditation standards, site team report including strengths, concerns, weaknesses, and recommendations, institutional responses to the team's recommendations, and the final letter of approval or reaccreditation. The Board Office shall annually provide a summary report to the Board of the accreditation actions taken.

### **3.10 Academic Freedom**

- A. University teachers shall be entitled to academic freedom in the classroom in discussing the teachers' course subject, but shall not introduce into the teaching controversial matters that have no relation to the subject.
- B. Faculty may teach controversial subjects when they are relevant to the course content. Instruction should be presented in a manner that fosters critical thinking and avoids indoctrination of one perspective. Faculty are expected to uphold academic integrity, encourage open and respectful inquiry, and present coursework in a way that reflects the range of scholarly views and ongoing debate in the field.
- C. Universities shall uphold the principle of academic freedom in their research and creative endeavors and support full freedom, within the law, of expressions in research investigation and dissemination of results through presentation, performance, and publication.
- D. University faculty members shall be entitled to academic freedom to pursue an area of research, to conduct and publish their work. They shall not violate professional ethics and shall follow guidelines set forth by their institution regarding health, safety, and privacy of individuals.
- E. University faculty are also citizens. When they speak or write as citizens, they shall be free from institutional censorship or discipline. They shall remember that the public may judge their institution by their public utterance. Thus, they shall make every effort to indicate that they are not speaking for the institution.
- F. Regent universities shall not be or become an instrument of partisan political action. The expression of partisan political opinions and viewpoints shall be those of individuals, not of institutions, because the official adoption of any political position, whether favored by majority or minority, tends to substitute biased information that hinders the continuing search for truth.
- G. The universities shall adopt policies and procedures that ensure all coursework meets these expectations. The Board shall, at least every two years, direct the Board office to audit the institutional policies, procedures and compliance with these standards.

### **3.11 Academic Calendars**

- A. Academic calendars for all Regent institutions shall be submitted to the Board Office for review. The Board of Regents shall delegate approval of academic calendars to the Executive Director. In addition, major proposed calendar changes and the consequences of such changes shall be submitted with recommendations to the Board Office for approval by the Executive Director. Substantive changes approved by the Executive Director on behalf of the Board shall be reported to the Board president and at the Board president's discretion may be reported to the Board.
- B. Institutional heads may cancel classes or close the institution temporarily because of an emergency situation such as extreme weather conditions or an epidemic. Such action shall be reported promptly to the Board Office for notification to the Board.

### **3.12 Credit-by-Examination**

The Board shall be informed in the event any of the institutions contemplate any major expansion of the credit-by-examination program.

### **3.13 Extension/Continuing/ Distance education/e-Learning Services**

#### **A. Extension**

Extension constitutes the engagement and outreach activities of the universities by which they interact with constituent groups of the state of Iowa and throughout the country and the world. Extension also describes any of the following activities:

- i. the activities of "cooperative extension"; these are state and federally-funded research and services provided by land-grant institutions including Iowa State University;
- ii. "university extension" activities which are educational programs offered to participants not enrolled as regular on-campus degree-seeking students. "University extension" may include for-credit courses and degree programs, noncredit courses and programs, and conferences and other professional education programs.

The universities shall provide efficient and affordable extension services. The three universities shall seek to cooperate and collaborate in providing extension services.

#### **B. Continuing Education Services**

- i. Continuing education services are those activities by which the instruction, research, and service functions of an institution are provided to participants statewide, throughout the nation and the world. Continuing education is generally not for academic degree- program credit. Continuing education includes professional education programs, workshops, other non-credit education, and may also describe

such things as conferences, off-campus lectures, consultant services, surveys, publications, and radio and television broadcasts.

- ii. The universities shall provide efficient and affordable continuing education services. The three universities shall seek to cooperate and collaborate in providing continuing education services.

C. Distance education/e-Learning

- i. Distance education/e-Learning is a formal educational process in which instruction occurs (1) when student and instructor are not in the same location, or (2) when in-person instruction is provided at off-campus locations. Distance education/e-Learning may employ guided independent study, or audio, video, or computer technologies. Instruction may be synchronous or asynchronous.
- ii. Distance education/e-Learning initiatives are included within the missions of the Regent institutions and shall be undertaken to the extent that resources allow. The Regent institutions shall seek to anticipate and respond to educational needs, especially those of individuals who may not be able to attend classes on campus.
- iii. Programs offered by the Regent universities shall be of high quality regardless of where offered and the methodology or technology used. Similarly, the Regent universities shall seek to undertake high-quality cooperative and collaborative efforts with both Regent and non-Regent institutions of higher education where such cooperation will benefit citizens.

D. Annual Distance education/e-Learning Report

The institutions shall submit an annual Distance education/e-Learning report to the Board Office in a format developed by the Board Office. The report shall be due to the Board Office according to the annual Governance Report schedule and placed on the agenda of the Academic Affairs Committee meeting.

### **3.14 Faculty Activity Analysis**

- A. A Faculty Activities Report shall be prepared for submission to the Board of Regents biennially in odd-numbered years.
- B. The report format will be developed by the Board Office and will focus on responses to the following questions:
  - i. How are faculty responsibilities defined and how do expectations differ across the Regent universities?
  - ii. What are faculty responsibilities and what do those activities contribute to students, the universities, the state, and society at large?

- iii. How do faculty members spend their work time?
- iv. Who teaches the students?
- v. How do we know faculty are doing a good job?
- vi. How do we know our universities are meeting the mission of academic excellence, productive research, and economic development?

### **3.15 Tenure Reports**

Each university shall submit annual reports on the operation of tenure policies that include methods of evaluation of teaching performance and post-tenure review. The format for such reports shall be developed by the Board Office. The Board Office shall place the annual tenure report on the agenda for the Academic Affairs Committee meeting of the Board of Regents in accordance with the annual Governance Report schedule.

### **3.16 Withholding Student Transcripts**

- A. A person may not be permitted to register for a course(s) at a Regent institution until delinquent accounts owed by the person to a Regent institution or an affiliated organization for which an institution acts as fiscal agent have been paid.
- B. Except as provided by bankruptcy law, a Regent institution may withhold official transcripts of the academic record of a person until delinquent accounts owed by the person to a Regent institution or to an affiliated organization for which an institution acts as fiscal agent have been paid.

### **3.17 Iowa Coordinating Council for Post-High School Education Intra- and Intersector Cooperation in Program Planning**

The constituent agencies, associations, and institutions of post-high school education represented on the Iowa Coordinating Council for Post-High School Education (ICCPHSE), recognizing both the importance of conserving limited resources and the necessity to provide needed educational services to the citizens of Iowa, hereby agree to:

- A. Enter into discussions with any institution currently serving a geographical region with programs in the same subject matter area prior to initiating a potentially duplicative new program.
  - i. The purpose of these discussions shall be to ascertain:
    - a. The possibility of cooperative offerings;
    - b. The possibility of alternative offerings;

- c. The desirability of proceeding with development of the proposed program;
    - d. Articulation opportunities.
  - ii. For purposes of ascertaining the programs offered in a given area, a current listing of programs offered in the State of Iowa listed on the Board of Regents website shall be consulted.
- B. The parties to this collaboration commit themselves to work cooperatively to minimize duplication of education programs offered in a given geographical region. As a general principle of good practice, an institution shall not offer courses or programs (as herein defined) that duplicate an offering already provided and until such time as communication has existed between the affected institutions.
  - i. It is recognized that this collaboration does not cover courses or programs offered prior to the approval of this voluntary agreement. It is hoped, however, that where duplicate offerings already exist, the institutions involved will discuss the possibility of cooperative efforts.
  - ii. Definition: For the purposes of this collaboration, a program is defined as a series of learning experiences leading to a degree, diploma, or certificate. A course is defined as a unit of learning offered by an institution of higher learning for credit that could lead to a degree, diploma, or certificate.

### **3.18 Interinstitutional Cooperation/Research**

All centers, institutes, and major research facilities shall establish and maintain mechanisms for interinstitutional cooperation and collaboration whenever an overlap in research interests exists. These mechanisms shall include provisions to inform persons at other Regent institutions of research being undertaken, to promote collaboration, and to stimulate the shared use of research equipment. Depending on the institute's or center's governing structure, representation on advisory/controlling bodies shall be tendered to persons in the other Regent institutions if research overlap exists. Faculty members doing research in related areas at other Regent institutions may be offered adjunct appointments or associate memberships in the center or institute.

### **3.19 College-Bound/IMAGES Program ([Iowa Code § 262.92/681 –1.6\(262\)](#))**

- A. The Iowa Minority Academic Grants for Economic Success (IMAGES) program was established to encourage resident minority students to attend a Regent university and to ensure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.
- B. The College Bound Program was established to ensure that the Regent universities

become involved early in a student's life by promoting and informing students about the opportunities in higher education, so that lack of adequate person resources is not a barrier to attending college for young lowans.

- C. Description of the College-Bound/IMAGES Program is contained in [Iowa Code §262.92](#) and [§261.101](#) and [681 IAC 1.6\(262\)](#).

### **3.20 Syllabi Posting and Notification of Students on Class Content**

- a. All institutions governed by the Iowa Board of Regents will provide public access to undergraduate course syllabus information, thereby promoting transparency and informed decision-making among students and the public.
- b. Each institution shall make the following information for every undergraduate course publicly available on its official website:
  - i. Course title and number as designated in the institutional course catalog
  - ii. A course description including learning objectives that students are expected to achieve by the end of the course
  - iii. A general outline of the topics to be covered throughout the course
  - iv. List of required textbooks, readings and other materials necessary for the course
  - v. General description of the types of assessments used in the course (e.g., exams, papers, projects, experiential learning)
- c. The required syllabus information for each course shall be published online no later than the first day of class in the academic term in which the course is offered. Institutions can set earlier deadlines for syllabus posting in learning management systems to facilitate timely publishing for public access. This policy shall take effect by the start of the fall 2026 academic term.
- d. The requirements of 3.20.b-c do not apply to certain undergraduate courses, including the following: internships, practica, independent study or research projects, honors/senior thesis, or study abroad offered by a third party. Additional exclusions must be approved by the Board office.
- e. For sound pedagogical reasons, a faculty member may decide to use course materials that students find objectionable. Learning involves students in free and open discussion of all content and issues relevant to the course. While faculty shall respect reasonable decisions by students not to attend part or all of a particular class session, students are responsible for learning class material and completing course requirements, as well as required courses for the completion of the major.
- f. Courses should provide opportunities for students to openly examine and discuss the concepts, ideas, and materials addressed in the class. Students' grades must reflect their mastery of course content and skills, not their agreement or disagreement with particular viewpoints expressed during instruction or in their work.

### **3.21 English Language Proficiency (Oral Communication Competence) ([Iowa Code § 262.9\(24\)](#))**

- A. All persons who provide instruction to students attending Regent universities shall demonstrate competence in oral communication. Oral communication competence is the ability to communicate appropriately in the language of instruction to students attending Regent universities.
- B. This policy shall apply to all faculty and teaching assistants employed by Regent universities who provide instruction to students in courses taught during the relevant academic period. Faculty are defined as those persons with instructional appointments on a tenured, probationary, or non-tenure track.
- C. Each faculty member and teaching assistant shall be evaluated for oral communication competence by the end of each academic period in which he or she has sufficient direct contact with students to render such evaluation meaningful. This policy does not mandate evaluation for persons whose instructional responsibilities do not involve enough direct oral communication with students to provide a basis for meaningful evaluation of oral communication competence. The nature and scope of the evaluation of oral communication competence may vary with the discipline, instructional setting, and material being communicated. In all cases, however, the evaluation procedure shall incorporate a mechanism for evaluation by students.
- D. Each university's provost shall implement this policy and, in particular, ensure that adequate standards of oral communication competence are maintained.
- E. However, a university may discontinue annual evaluations of a specific person providing instruction. The criteria for discontinuation of annual evaluations shall include receipt by the institution of two consecutive positive annual evaluations from the majority of students evaluating the person.

### **3.22 Degree Revocation Policy**

Each of the universities reserves the right to revoke a degree or certificate conferred to a Recipient if, following an investigation conducted in accordance with institutional policies and procedure, it concludes that there is clear and convincing evidence that the Recipient did not, in fact, meet all the conditions for conferral of the degree or certificate. In such circumstances, the university president may approve revocation of the degree or certificate. The university also reserves the right to withhold a degree or certificate otherwise earned but not yet conferred to correct an administrative error or as it awaits the outcome of an investigation conducted pursuant to institutional policies and procedures or as an appropriately supported disciplinary action based on the outcome of such an investigation.

Honorary degrees previously conferred by a university may be revoked with approval of the university president. The standards and procedures for revoking an honorary degree shall be set by the university.

As final institutional actions, any university revocation of a conferred degree or certificate or withholding of otherwise earned degrees or certificates as a disciplinary sanction may be appealed to the Iowa Board of Regents pursuant to its policies and processes.

## CHAPTER 4 – REGENT INSTITUTIONS

### 4.1 Mission and Scope

#### A. Universities

- i. Universities under the control of the Board of Regents, State of Iowa, shall offer diversified and high quality programs of undergraduate, graduate, professional and post-graduate study at reasonable cost to those seeking post-secondary education in this state. Educational programs shall be designed to allow the student a wide range of subject selection and the greatest latitude in pursuit of knowledge and in preparation for a role in society.
- ii. The Regent universities are the primary Iowa training grounds for the professions, including medical doctors, dentists, pharmacists, nurses, accountants, lawyers, veterinarians, educators, architects, agriculturalists, engineers, and others who will achieve advanced degrees in various fields of the arts and sciences. The State University of Iowa, Iowa State University, and the University of Northern Iowa are committed to research and education that expand knowledge and benefit society. They shall make educational programs and the results of research available through outreach and extension services and shall offer services to the public appropriate to the mission of each University.
- iii. Within this framework and the availability of funds, the State University of Iowa, Iowa State University, and the University of Northern Iowa shall seek different areas of specialty and emphasis compatible with their distinct missions in the state system of higher education.
- iv. The Board of Regents, State of Iowa, shall approve the missions of the universities under its control in the framework of higher education in Iowa, which includes private colleges and universities, along with community colleges. Continuing efforts are made to cooperate with these other sectors of higher education to effect useful coordination, to avoid needless duplication, and to foster good will. This effort is illustrated by the list of questions to which the Board requires satisfactory answers before proposed new or expanded programs are adopted. (See Section 3.5)
- v. Decisions concerning future academic programs shall be based on the continuing assessment of existing programs and developing needs. Programs shall be curtailed, suspended, or eliminated when the assessment of need and resources indicates that resources should be devoted to other programs. The universities shall continue to approach the addition of new programs with caution. Generally, new programs shall be fashioned out of existing programs in response to developing needs. If the University is to remain vital, it is necessary that it consider at appropriate times the development of new programs that fall within its general mission and that meet the needs of students and society.
- vi. The universities shall maintain diverse and multicultural campuses to educate students and scholars to participate in the broader world and to strengthen the State of Iowa's connections with other states and countries.

- 2) At Iowa State University, principal emphasis shall be given to the development and maintenance of strong programs in the sciences, agriculture, engineering, veterinary medicine, design, education, business, and human sciences. ## 4.2 Freedom of Expression

### A. Policy Statement

The Board of Regents is committed to the principles of free expression embodied in the First Amendment to the United States Constitution and Article 1, Section 7 of the Constitution of the State of Iowa. The Board recognizes that the primary mission of the institutions of higher education under its jurisdiction is the promotion of teaching, research, and scholarship. In support of this mission, the institutions of higher education under the jurisdiction of the Board of Regents must provide ample opportunity for members of the campus community to engage in the free exchange of ideas.

The Board's fundamental commitment is to the principle that debate or deliberation must not be suppressed merely because the viewpoints presented are considered by some or even most members of the campus community to be unwelcome, disagreeable, or offensive. In order to maintain an environment that fosters the free exchange of ideas, the universities must not restrict the expression of viewpoints in violation of the First Amendment to the United States Constitution. It is not the responsibility of the universities to shield individual members of the campus community from viewpoints they may find unwelcome, disagreeable, or offensive. Rather, it is the responsibility of individual members of the campus community to make these determinations for themselves and to respond, not by seeking to suppress speech, but to openly and vigorously debate those viewpoints that they oppose.

### B. Guiding Principles

- i. The primary function of the Regent universities is the discovery, improvement, transmission, and dissemination of knowledge by means of research, teaching, discussion, and debate. To fulfill this function, the universities must strive to ensure the fullest degree of intellectual freedom and free expression allowed under the First Amendment to the Constitution of the United States.
- ii. It is not the proper role of the Regent universities to shield individuals from speech protected by the First Amendment to the Constitution of the United States, which may include ideas and opinions the individual finds unwelcome, disagreeable, or even offensive.
- iii. It is the proper role of the Regent universities to encourage diversity of thoughts, ideas, and opinions and to encourage, within the bounds of the First Amendment to the Constitution of the United States, the peaceful, respectful, and safe exercise of First Amendment rights.
- iv. Students, faculty, and staff have the freedom to discuss any problem that presents itself, assemble, and engage in spontaneous expressive activity on campus, within the bounds of established principles of the First Amendment to the Constitution of the United States, and subject to reasonable time, place, and manner restrictions that are consistent with established First Amendment principles.

### C. Definitions

- i. Campus Community - students, administrators, faculty, and staff at a Regent university and guests invited to a Regent university by the university's students, administrators, faculty, or staff.
- ii. Outdoor Areas of Campus - the generally accessible outside areas of campus where students, administrators, faculty, and staff at a Regent university are commonly allowed. The term "outdoor areas of campus" does not include areas outside health care facilities including both stand-alone facilities and mixed-use facilities that are embedded within another facility, veterinary medicine facilities, a facility or outdoor area used by an athletics program or teams, or other outdoor areas where access is restricted to a majority of the campus community.
- iii. University – as used in this section 4.2 "university" shall include all colleges, departments, administrative units, and employees acting in their official capacity or within the scope of their employment.

D. The University shall not discriminate against or deny educational benefits to any member of the campus community because of the member's viewpoint or expression of that viewpoint as protected by the First Amendment of the Constitution of the United States.

### E. Use of University Grounds and Facilities.

- i. The outdoor areas of campus are public forums, open on the same terms to any member of the campus community subject to reasonable time, place, and manner restrictions that are consistent with established principles of the First Amendment to the Constitution of the United States.
- ii. Members of the campus community may engage in non-commercial expressive activity in any outdoor area of campus in accordance with the provisions of Iowa Code Chapter 261H and published university policies governing time, place, and manner restrictions. No area of campus shall be designated as a free speech zone, nor will the universities create policies that restrict expressive activity to a particular outdoor area.
- iii. Each university shall develop viewpoint-neutral time, place and manner policies identifying outdoor areas of campus and governing use by members of the campus community that are consistent with this Chapter 4.2 and Iowa Code Chapter 261H. These policies shall be published on the university's website in a location that is readily accessible to the public.
- iv. University policies may permit reservation of university grounds or facilities, including the outdoor areas of campus, provided any system of reservation is applied in a viewpoint-neutral manner. The use of outdoor areas of campus or other university grounds and facilities for non-commercial expressive activity may be conditioned upon the payment of reasonable expenses to be incurred by the university in accommodating a speaker or event. Expenses must reasonably reflect the actual costs estimated to be incurred by the university, and under no circumstances shall costs be based on the viewpoint of any speaker.
- v. For the purposes of this subsection 4.2.4.E, "chalking" is defined as the marking of a sidewalk surface with water-soluble chalk (commonly referred to as sidewalk chalk). Members of the campus community shall be permitted to engage in non-commercial chalking in the outdoor areas of campus. The Universities may establish reasonable

time, place, and manner restrictions on chalking in the outdoor areas of campus provided such policies are content neutral. The Universities may prohibit chalking in designated portions of the outdoor areas of campus provided that members of the campus community are afforded ample alternative areas to engage in non-commercial chalking.

- F. Campus Speakers and Programs. The universities shall encourage students and staff to hear diverse points of view from speakers and programs sponsored by the university and/or recognized student, faculty, and employee organizations.
- i. Restrictions. In sponsoring campus speakers and programs, recognized faculty, student, and employee organizations shall comply with institutional rules on the advance reservation of rooms, the posting of notices, and the payment of rental charges when applicable and such other rules as the institution prescribes for the use of its buildings to avoid any interference with the regular program of the institution.
  - ii. Sponsorship of Meeting. To encourage the presentation of diverse points of view on any issue, the president of a Regent university or a campus committee may at any particular meeting, or from time to time, sponsor, or encourage recognized campus groups to sponsor, additional speakers or programs that will contribute to the full and frank discussion of such issue.

G. Student Organizations –

- i. The universities shall not deny benefits or privileges available to student organizations based on the viewpoint of a student organization or the expression of the viewpoint by the student organization or its members, as protected by the First Amendment to the Constitution of the United States.
- ii. The universities shall not deny any benefit or privilege to a student organization based on the student organization's requirement that the leaders of the student organization agree to and support its beliefs, as those beliefs are interpreted and applied by the student organization, and to further its mission.
- iii. Student organizations may, but are not required to, limit leadership positions to students who, upon individual inquiry, affirm that they support the student organization's beliefs and agree to further the student organization's mission.

H. Nothing in this policy shall be interpreted as prohibiting the Regent universities from regulating or restricting expressive activity that is not protected by the First Amendment.

I. University Statements on Matters of Public Concern and Use of Social Media

- i. The University's proper role is in supporting and encouraging freedom of inquiry by fostering opportunities for the expression of differing views regarding many issues in multiple areas of study, research, and debate, including current political, social, and public policy issues. The Universities shall not take action in such a way as to require or unduly pressure members of the campus community, in their personal capacities, to express or adopt a particular viewpoint on a political, social or public policy matter. The University may speak, as an institution, on political, social, or public policy matters when such matters are central to the mission or critical operations of the University as reasonably determined by the University.

- ii. The universities should refrain from making statements on political, social or public policy matters, however if the university does issue a statement on political, social, or public policy matters it must be consistent with (i) the official position of the Board of Regents on the same or similar subject matter, (ii) all applicable state and federal laws, including, but not limited to, Iowa Code Chapter 261J, and (iii) Board policy. Any question as to whether a proposed statement or position conflicts with Board position, policy or the law will be resolved by the Executive Director of the Board of Regents.
  - iii. The Universities shall, by policy, establish which institutional offices, positions and social media accounts have authority to issue official university statements or positions on political, social or public policy matters central to the university's mission or critical operations and submit them annually to the Governance, Evaluation and Human Resources Committee. No one except approved individuals through official institutional social media accounts or other communication channels are authorized to speak on behalf of the institutions.
  - iv. Official university social media accounts or other communication channels are strictly reserved for institutional purposes and must not be used for personal political commentary or advocacy. University social media accounts and postings must abide by 4.2.I of this manual.
    - Social media account managers are responsible for ensuring that their sites are compliant with Regent and university policies. They are responsible for ensuring content does not violate Regent or university policy, including but not limited to content that is deemed unlawful, violative of Regent or university policies or spam. Individual colleges or units may have additional social media policies or requirements, so long as they are consistent with this policy.
    - Social media account managers must comply with their institutions marketing and branding guidelines.
  - v. Employees are free to express personal opinions on their personal social media accounts, consistent with the First Amendment and its application to public employees. When doing so, it is the employee's responsibility to make clear that they are speaking in their private capacity and not on behalf of the University or the Board of Regents. However, under certain circumstances, the university may be obligated to act to prevent harm to the university, our campus community, and its mission. For instance, when an employee's personal expression violates university policy, such as engaging in threatening or intimidating speech towards a co-worker, the university may be compelled to intervene to maintain a safe or efficient work environment.
  - vi. Any failure to comply with this policy may be grounds for employee discipline, up to and including termination.
  - vii. Annually, the Board office shall send written notice to the universities regarding the requirements of this section 4.2.I.
- J. Complaints to the Board of Regents.
- i. Any member of the campus community aggrieved by a violation of this policy may file a complaint with the Executive Director of the Board of Regents.

- ii. Complaints must be filed within one year of the date when the alleged violation occurred or when the member of the campus community should have been reasonably aware of the alleged violation.
  - iii. The Executive Director may (i) forward the complaint to the Free Speech Committee for review, (ii) may direct the matter to the applicable university for initial review, (iii) or take other action as determined by the Executive Director to resolve the complaint.
  - iv. Any complaint directed to the university for initial review may be appealed to the Board of Regents pursuant to Chapter 1.7 of this policy manual.
  - v. The universities shall develop internal procedures for reviewing complaints involving a violation of any university policy addressing freedom of expression under the First Amendment of the Constitution of the United States, including penalties for violating any university or board policy addressing freedom of expression. University complaint procedures shall be in addition to the procedures contained in this subsection 4.2.J. The Executive Director or the Free Speech Committee may decline to consider any matter that is pending or has been adjudicated through a university procedure.
- K. The Universities shall publish the Board of Regents Freedom of Expression Policy and all University policies and procedures regarding freedom of expression in a prominent place on the University website. The Universities shall also provide all students, faculty, and staff with training on the First Amendment matters on, at a minimum, an annual basis.
- L. The universities shall assure:
- i. No employee, student, applicant or campus visitor is required to submit a DEI statement or be evaluated based on participation in DEI initiatives, unless the position is required for DEI-related compliance or accreditation.
  - ii. No employee, student, applicant or campus visitor is compelled to disclose their pronouns.
- M. The universities shall issue annual employee guidance regarding the separation of personal political advocacy from university business and employment activities. This annual employee guidance shall be reviewed by the Board office prior to university issuance.

- A. The Board shall, with consent of the inventor and in the discretion of the Board, secure letters patent or copyright on inventions of students, instructors, and officials, or take assignment of such letters patent or copyright and may make all necessary expenditures in regard thereto. The letters patent or copyright on inventions when so secured shall be the property of the state, and the royalties and earnings thereon shall be credited to the funds of the institution in which such patent or copyright originated.
- B. The Board strongly encourages faculty, students, and employees of Regent institutions to seek to retain intellectual property rights to the articles and reports that they publish in scholarly journals and equivalent types of publications where feasible and appropriate without detriment to publishing agreements. Doing so on a systematic basis will ensure the widest possible dissemination at the lowest cost. Each institution shall be responsible for providing information, advice, and assistance to faculty, students, and employees to achieve this aim.

Integrity in the administration of intercollegiate athletic programs is one of the highest priorities of the Board of Regents, State of Iowa. In July 1991, the Board of Regents adopted the "one plus three" concept of intercollegiate athletics that asserts presidential control of athletics at all of the institutions, as well as academic integrity, financial integrity and accountability. The Board now provides additional policy emphasis on integrity in athletics by clarifying the Board's position on the consequences for serious infractions of the rules and regulations of the NCAA, athletic conference or institution and adopting a reporting procedure. All violations of NCAA, conference or institutional rules that could result in punitive, corrective or disciplinary action shall be reported to the Board Office. Sanctions, including but not limited to, reprimand, suspension, and/or termination of employment (following due process) shall be given in response to significant violations.

## B. Procedure

### i. Notification of Possible Violation

The Board Office shall be notified of all violations that could result in corrective, punitive or disciplinary action by the NCAA, athletic conference or institution. The form of the notification shall be as follows:

- b. If the institution is self-reporting an alleged violation to the NCAA, a copy of the letter shall be forwarded to the Board Office.
- c. If conference or institutional rules are at issue, the Board shall be notified as soon as a factual basis for the rule violation is known.

The Board Office shall be notified of the nature of the alleged violation; the NCAA, conference, or the institutional rule involved; and the plan for investigating the allegation.

- ii. In cases where this policy is not followed, the institutional president shall request an executive session with the Board of Regents to discuss the situation.

#### D. Statement of Principles

The Board of Regents is committed to a philosophy of firm institutional control of athletics, to the unquestioned academic and financial integrity of the athletics programs, and to the accountability of the athletics departments to the values and goals befitting higher education. In support of that commitment, the Board has adopted the following general as a guide to participation in intercollegiate athletics:

- i. The educational values, practices and missions of the institutions determine the standards by which intercollegiate athletics programs are conducted.
- ii. The responsibility and authority for the administration of the athletics departments, including all basic policies, personnel and finances, are vested in the presidents.
- iii. The welfare, health and safety of student-athletes are primary concerns of athletics administration on the campuses. The institutions shall provide student-athletes with the opportunity for academic experiences as close as possible to the experiences of their non-athlete classmates.
- iv. Every student-athlete shall receive equitable and fair treatment.
- v. The admission of student-athletes – including community college transfers – shall be based on their showing reasonable promise of being successful in a course of study leading to an academic degree. That judgment shall be made by admissions officials.
- vi. Continuing eligibility to participate in intercollegiate athletics shall be based on students being able to demonstrate each academic term that they will graduate within five years of their enrolling.
- vii. An institution shall strive to have its student-athletes in each sport graduate at the same proportion as the general student population at that institution.
- viii. All funds raised and spent in connection with intercollegiate athletics programs shall be channeled through the institutions' general treasury, and comply with the annual NCAA-mandated Agreed Upon Procedures performed by external auditors. The athletics department budgets shall be developed and monitored in accordance with general budgeting procedures on the campuses.

- x. Annual academic and fiscal audits of the athletics programs shall be conducted. The institutions shall promptly correct any deficiencies.

#### E. Principles for Recruitment of Prospective Student-Athletes

- i. Iowa Regent universities have a heritage of being some of the most prestigious and acclaimed institutions of higher education in the country. Recruiting visits should provide prospective students with an opportunity to explore the academic, athletic and social opportunities our institutions provide.
- ii. In light of recent national incidents of excessive entertainment in the recruitment of

prospective student-athletes, the following overriding principles have been developed for Iowa Regent universities. The purpose of these principles is to ensure that all Regent universities operate their recruiting activities within applicable NCAA, conference and institutional guidelines.

iii. Recruiting Principles:

- a. Each Regent institution will implement recruiting guidelines pursuant to NCAA guidelines.
- b. Each Regent institution's recruiting activities will occur in a regulated environment governed by Board of Regents, NCAA, conference and institution rules.
- c. Each Regent institution will establish and administer policies addressing entertainment of prospective student-athletes which will make clear that any use of gambling, drugs, alcohol or sex-related activities as a recruiting device is prohibited.
- d. Each Regent institution will establish a method of pre-communicating recruiting guidelines to prospective student-athletes, parents or legal guardians.
- e. Each institution will ensure that head coaches understand and abide by the principles of head coach responsibility per NCAA legislation.
- f. Each Regent institution will educate all student-athlete hosts that they are official representatives of the institution and that the hosting of prospective student-athletes must be conducted in a manner consistent with the institution's recruiting guidelines.
- g. Each Regent institution will provide an opportunity for the prospective student to experience the educational offerings of the institution.
- h. Each Regent institution will develop a system of regular auditing and enforcement of its recruiting practices.

F. Iowa Regent Institutions Philosophy for Recruitment of Prospective Student-Athletes

The State of Iowa and the Iowa Regent Institutions are committed to recruiting in an appropriate and ethical manner. The goal of the Iowa Regent Institutions is to provide a safe and healthy environment for prospective students. A prospective student's visit should provide that prospect an opportunity to see our universities as institutions where they can develop their individual talents and reach their full potential as student-athletes and citizens. A visit to our University campuses is a chance for prospects to focus on the academic and athletic missions and culture of the respective institution. These visits are also tremendous opportunities for the institutions to evaluate the potential academic and social success of the prospect, thus enabling all parties to make a clear and informed decision.

**4.12 Reserved**

## B. Policy Purpose

- i. The Board is committed to establishing and maintaining the safest possible campus environments for its students, faculty, staff, and visitors as well as safeguarding physical property.
- ii. It is the policy of the Board that each Regent campus develops and maintains comprehensive plans to assure appropriate guidance and direction in promoting a safe and secure campus environment. The Board delegates authority to each institution head to implement comprehensive campus safety and security policies and procedures consistent with this chapter.

## C. Definitions

- i. **Crime Prevention Through Environmental Design (CPTED):** A multi-disciplinary approach to deterring criminal behavior. Strategies rely upon the ability to influence offender decisions that precede criminal acts and emphasize enhancing the perceived risk of detection and apprehension. Most implementations of CPTED are based solely upon the theory that the proper design and effective use of the built environment can reduce crime, reduce the fear of crime, and improve the quality of life. Implementations of CPTED seek to dissuade offenders from committing crimes by manipulating the environment in which those crimes proceed from or occur. The three most common strategies are natural surveillance, natural access control, and natural territorial reinforcement.
- ii. **Critical Infrastructures and Key Assets:** The basic facilities, services, and installations needed for the functioning of an institutional community, to include areas such as: power and utility substations; special event venues; schools; child care centers; residence complexes; food preparation and storage facilities; classrooms and laboratories; mass transit organizations; water pumping or storage locations; information technology sites; hospitals; clinics; and fuel and chemical storage sites.

- vii. Peace Officer: Also referred to as a police officer or a law enforcement officer. A duly sworn employee who is certified by the Iowa Law Enforcement Academy as having successfully completed the required course of instruction for a peace officer and who is currently employed as such by a Regent campus.
