

MEMORANDUM

To: Board of Regents
From: Board Office
Subject: Proposed Revisions for the 2001-2003 General Catalog
Iowa State University
Date: January 8, 2000

Recommended Action:

Approve the proposed revisions for Iowa State University's 2001-2003 General Catalog.

Executive Summary:

Iowa State University requests approval of the proposed revisions for its 2001-2003 General Catalog. These revisions have been approved by the appropriate departmental and college curriculum committees and by the Faculty Senate Curriculum Committee.

This request has been reviewed by the Interinstitutional Committee on Educational Coordination (ICEC) and the Board Office and is being recommended for approval.

The report includes new programs added by prior action of the Board of Regents, since the last approval of catalog revisions. One new program is being requested at this time (See G.D. 3a, Classical Studies). There are two proposals to discontinue programs that were separate docket items in December. The changes in programs are summarized on the following page.

The new courses represent not only additions due to new knowledge, but also restructuring in some areas. The Faculty Senate Curriculum Committee requires that, with a few exceptions, all new courses must have been offered experimentally, to establish that the department is able to staff them and that sufficient interest exists to justify adding them to the catalog. An effort was made to remove courses from the catalog that had not been taught in some time. The summary of all course changes is on page 3 and shows an addition of 327 new courses, but with a net decrease of 20 courses.

CURRICULA, MAJORS, MINORS ADDED OR DROPPED, NAME CHANGES:

College of Agriculture

Add: Interdepartmental M.S. and Ph.D. in Sustainable Agriculture

Reorganize M.S. and Ph.D. majors in the Department of Animal Science:

Continue: Animal Nutrition
