

**MEMORANDUM**

**To:** Board of Regents

**From:** Board Office

**Subject:** December 4, 2002 Meeting of the Iowa Coordinating Council for Post High School Education (ICCPHSE)

**Date:** May 6, 2002

---

**Recommended Actions:**

Receive the report on the December 4, 2002 meeting of the Iowa Coordinating Council for Post-High School Education.

---

**Executive Summary:**

Meeting Held at AIB in Des Moines      The Iowa Coordinating Council for Post-High School Education (ICCPHSE) met on December 4, at the American Institute of Business (AIB) in Des Moines. Below is a brief summary of the December meeting:

New Programs Submitted to List Serve      The ICCPHSE received reports on 16 proposed new programs that had been distributed on the ICCPHSE's list serve for new programs. A list of these programs is provided in Exhibit A.

---

Presentation on "Successful Transitions"      The Council heard a presentation by representatives from the Community Colleges, the University of Northern Iowa, and Buena Vista University on "Successful Transitions" between the secondary and postsecondary schools in Iowa. This presentation discussed the issues and successes in articulation in Iowa.

---

Status Report on "Iowalearns" Website      A status report was provided by John Lewis, a community volunteer on the ICCPHSE's successful "Iowalearns" distance education website. This site has been growing in terms of the number of postsecondary educational institutions participating in the site and the number of persons (hits) viewing the distance education course offerings on the website. "Iowalearns" was developed by an ICCPHSE Committee in response to recommendations from a governor's commission on distance education several years ago. The "Iowalearns" website lists distance education courses offered by postsecondary educational institutions in Iowa with direct links to those institutions, where persons can register and discover more information about the courses.

---

Annual Report to be Published      The Council approved the publication of the *ICCPHSE Annual Report* and its distribution to institutions and government officials in Iowa.

---

Out-of-State Registration Process      The Council heard a report on the registration process for out-of-state colleges and universities in Iowa presented by the Iowa Secretary of State and the Iowa College Student Aid Commission.

---

New Program Review Process to Include out-of-state Colleges and Universities      The Council agreed to extend its process for reviewing new postsecondary educational programs to out-of-state colleges and universities as a part of the Secretary of State's and the Iowa College Student Aid Commission's review of out-of state institutions seeking to offer programs in Iowa.

---

Annual Report on Enrollments      The Council heard a report on its *Annual Report on Enrollment in Iowa Colleges and Universities*, which provides unique information on enrollments in all the sectors of postsecondary education in Iowa.

---

Next Meeting of ICCPHSE      The next meeting of the Iowa Coordinating Council for Post-High School Education will be on March 26, 2003, at the Iowa Valley Community College in Marshalltown.
