Weekly TIER Update – September 5, 2014

In preparation for the Board of Regents meeting on September 10th, Deloitte has released a [power point presentation](#) outlining three business cases to consider for implementation. They include:

- Establish clear policy for the Professional and Scientific staff search committee size and structure (Business Case HR-10);
- Create a common application portal (Business Case SS-05); and
- Standardize “manual” calculation of the Regent Admission Index (Business Case SS-08)

The Board of Regents must vote to approve implementation, but is not expected to contract with Deloitte for additional services; as these are business cases the universities can implement on their own. At the September 10th meeting, Regent Larry McKibben will provide the Board with a timeline for approving the remaining business cases.
